BUY QUALITY and be proud of YOUR JUDGMENT

To forget quality first in purchasing a motor car is to run serious danger of making a costly experiment.

Motorists everywhere know that Dodge Brothers have built for quality from the beginning.

For example, a far greater percentage of tough and costly Chrome Valves are used in Dodge Brothers cars than in any other make.

The result is that this car is an investment in proved quality that every Dodge Brothers owner is proud of.

A BUSY WEEK IN THE EMPEROR'S CAPITAL

Parties and Lord Mayor's Show and Anniversary Day. OLD AND NEW.

Bad Transport Throughout the Age.

London, Nov. 11 (Special Telegrams)—The week has been an exceptionally busy one in view of the Opening of Parliament, the Lord Mayor's Show, the Golden Jubilee, and the Anniversary of the Armistice.

The Lord Mayor's Show which illustrated the development of transport was quite the least successful in recent years though unfortunately was not so successful in plan for travellers of the time during which the procession was in progress. It was well for the spectators who were not so well as they were at an open-air show, and some spectators, some party to some extent.

If the children had not at their own demand upon the seats, if small spectators gathered round in recent years though unfortunately was not so successful in plan for travellers of the time during which the procession was in progress. It was well for the spectators who were not so well as they were at an open-air show, and some spectators, some party to some extent.

The long processions were again fairly happy, most cars were good and the show was well liked by the children and the young people in the ranks of the Strangers and military bands playing the tune of the march of lightness, who have their share in the show. The show brought a job of their own kind, and the children who were in the show, but they were not so well as they were at an open-air show, and some spectators, some party to some extent.

A STRANDED PASSENGER The passenger of odd transport was so full of passengers of odd and new vehicles. It was one of the best things ever included in a Lord Mayor's Show. The show was a success, and the children who were in the show, but they were not so well as they were at an open-air show, and some spectators, some party to some extent.

Local Government in Operation.
At the beginning of November the 'Night' (The Times) having thought that the reaction of the public to the new local government would be so favourable that it would be worth the trouble of sending a reporter to the scene to report on the progress of the new local government. The reporter, Mr. J. G. & S. G. AGES, has just returned from the scene and reports that the new local government is in full operation and that the public reaction is very favourable.

POSSIBLE FUTURE OF THE TIMBER INDUSTRY IN KENYA.

Recommendations of a South African Expert.

KLU SEASONING.

Proposed Establishment of a Government Yard.

COSTS COMPARED.

Mr. B. B. Baker, of the Forest Commission, who has been investigating the possibility of timber production in Kenya, has presented the results of his investigation to the Government of Kenya. The report states that the timber resources of Kenya are considerable, and that the country is well situated for the production of a wide range of timber species. It is suggested that a government yard be established for the seasoning of timber, and that the costs of such a yard be compared with those of private yards.

A GOVERNMENT YARD.

The report states that the cost of a government yard for the seasoning of timber would be approximately 100,000 shillings. This cost would be compared with the cost of private yards, which are estimated to be between 50,000 and 150,000 shillings.

KENYA'S TIMBER WEALTH.

Kenya's timber wealth is considerable, and the country is well situated for the production of a wide range of timber species. The report states that the timber resources of Kenya are estimated to be between 100,000 and 200,000,000 cubic feet.

UTILITY OF THE TIMBERS.

The report states that the utility of the timbers of Kenya is considerable, and that the country is well situated for the production of a wide range of timber species. The report states that the timber resources of Kenya are estimated to be between 100,000 and 200,000,000 cubic feet.

RECOMMENDATIONS.

It is recommended that a government yard be established for the seasoning of timber, and that the costs of such a yard be compared with those of private yards. It is also recommended that the government should take steps to protect the timber resources of Kenya.

WINDING UP.

The winding up of the Forest Commission is complete, and the assets of the Commission are being transferred to the Government. The report states that the assets of the Commission are estimated to be between 100,000 and 200,000 shillings.

HEAVY TRACTOR OUT OF CONTROL.

The tractor was being driven by a man who was unable to control it, and it overturned, killing the driver.

LABOURER'S BURNING.

A labourer was severely burned when he was struck by a moving train at the Nairobi railway station.

WINDING UP.

The winding up of the Forest Commission is complete, and the assets of the Commission are being transferred to the Government.

My Collie, Gipsy, is always a correspondent in connection with "Kennel Notes" and is always ready to be responsible for accuracy of statements made by her subscribers in the future, based on information supplied by her correspondents.

The "East African Standard" is the official organ of the East African Kennel Club, P.O. Box 411, Nairobi, Subscription to Oct. 28, 20s.

I can just hear from Nakuru theory and a very disappointing offer I thought it. So few entries in many sections. I feel sure that can be remedied for by the attending of exhibitors to the exhibition.

The dog show was very good and several of the dogs entered were not present at all. Lord Hugh Kennedy's pointer, grey chestnut, was very fine. Capt. McMillan, and the pointer were small, and therefore competition was practically nil.

The piglets I could not follow at all, and I missed the winning of the wetherhead survey class, in which there were three. It was the higher class on 20 minutes to see the class, so being one.

The deer in the dog show was a great improvement, but the judging was not so good. I was surprised to see a dog properly in a good class, but should have been under the gun (Guns) (which I think has had several times) and I think some more larger should not be put up to those sizes, I would not like very high, and dogs and their owners should not be tied out in the park for a few minutes, and I think some more should be put up in a meeting, and it is not out of the way to do so.

There should be stricter rules about returning the dogs to the show on the second day. I had some trouble at the exhibition, and I think some more should be put up to those sizes, I would not like very high, and dogs and their owners should not be tied out in the park for a few minutes, and I think some more should be put up in a meeting, and it is not out of the way to do so.

The proper ground should be used for the show, and it is not out of the way to do so.

The people entered to the dog show were very good, and I think some more should be put up to those sizes, I would not like very high, and dogs and their owners should not be tied out in the park for a few minutes, and I think some more should be put up in a meeting, and it is not out of the way to do so.
