SPLENDID BUN OF THE PRINZ

In a recent issue we drew atten tion to the record run of the Print Regent from Mombasa to Aden in less then five days. This was gathered from letters of passengers from Aden. We are now able to show by an abstract from the log of the ship that the Prinz Regent actually did the journey from Mombasa to Naples in thirteen days, thus landing mails in London fifteen days after leaving Mombasa! This is indeed a record of which the D. O. A. L. should be proud.
