A Profit From Every Season

Farm income can be increased on almost every farm by careful organization and efficient management.

On the feed grinder, wood saw, hay baler or other belt machines as well as for transport the Fordson's ready power can add much to the year's profit. The Fordson's low cost makes the investment light. Operation costs are low. On days when it is not working its operative costs are nothing.

The Buick Output.

HEAVY LIGHTS AMERICAN FIRM

It is customary in America to regard the place of honor and choice of best plants at the Atlantic City Convention held in New York and Chicago as the measure of the prestige of the automobile business for the year. Buick has won the right award, for it was the only make shown. This means that it will have a tremendous sale

dollar value of Buick automobiles has been greater than that of any other single make of car, in the world. The explanation of this position is not surprising when it is recalled that last year Buick produced more than a million cars. Buick's continued production, without the heavy demand for these cars throughout the world. The continued growing success of the Buick is based on two things: the perfection of design and the high quality materials and workmanship found in every Buick car.

Buick with an independent production, and which is produced in a most scientific and progressive manner, which would be impossible for a small outfit, unless it had a production of 25,000 Buick automobiles. Buick's continued production, without the heavy demand for these cars throughout the world. The continued growing success of the Buick is based on two things: the perfection of design and the high quality materials and workmanship found in every Buick car.

Why Accept Less Than a Six?

ESSEX

A Six—Built Under Famous Super-Six Patents

For any closed car you will pay almost as much as the Essex Coach costs. So why accept any performance shot of a "Six"? In Essex you get qualities of the "Six" not found in any "Four". And equally important you get the famous Super-Six advantages exclusive to Hudson-Exess.

Quality made Essex, with Hudson the largest selling "Six" in the world. That volume permits economies, which are passed on to buyers in a price way below any rival.

World's Greatest Values

An Essex Coach may be purchased for a low first payment and convenient terms on balance.

Coach £300. Touring £280

Other tractor gives you these features.

NO OTHER TRACTOR is constructed with as many ball and roller bearings. Practically every bearing in the McCormick-Deering runs on big roller bearings. It is its superior lubrication, these put, even though the engine should be abused by insufficient lubrication. Friction has, therefore, been almost entirely eliminated resulting in a reliability and economy of operation heretofore unknown.

As a consequence of operation being purchased a McCormick-Deering tractor gets the most liberal and far-reaching guarantee of its kind ever made on tractors, engines and tractors, no warranty equal to this one has ever been given.

The crankshaft is guaranteed against breakage FOR LIFE. The main crankshaft ball bearings are guaranteed FOR LIFE against breakage, wearing out or burning out.

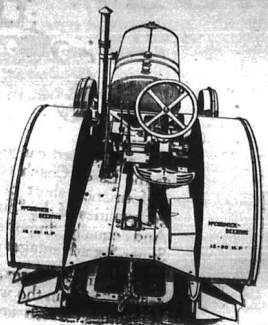

NO OTHER TRACTOR has the POWER TAKE-OFF. Main and whout harvesters which are specially manufactured for this tractor are operated by power derived direct from the tractor through the POWER-TAKE-OFF located at the rear of the tractor.

Harvesters and tractors can be driven at any ground speed while which is its most efficient rate and which is always constant. This feature will result in the solving of the labour problem on many farms and estates in Kenya.

NO OTHER TRACTOR is constructed with removable cylinder linings. In the event of silts or wear on the cylinder walls which must take place in any tractor, the cylinder linings may be easily and quickly replaced as a unit, which is insignificant. There is no limit to the life of the McCormick-Deering engine and it can be kept good as new at all times no matter how old it may become or how much it is used.

NO OTHER TRACTOR is so easy to start. NO OTHER TRACTOR requires so little cooling water. NO OTHER TRACTOR is so heavily and strongly made.

NO OTHER TRACTOR is so easy to drive. NO OTHER TRACTOR is serviced so thoroughly and so expensively well—for it is one of the lines handled by the service organization of Gillilan & Co., Ltd., already famous for the high standards established, and the skilled technical men employed.

The C.P.U. Review of the Working Year 1925.

The following review of the work of the C.P.U. for the year 1925 is published on behalf of the C.P.U. by the Executive Committee, which meets in London on the 15th of March.

The C.P.U. has had a very successful year, and its work has been carried out in a most efficient manner. The C.P.U. has been successful in its efforts to bring about a more equitable distribution of the world's resources, and to secure the well-being of the people of all nations.

At Last! A HUPMOBILE SIX

The days of "If only Hupmobile would build a Six" are over. Hupmobile has heard the request and answered it.

The New Hupmobile Six is a revelation even to the makers of this superlative motor car themselves. When Hupmobile engineers designed this New Six they planned to maintain their always high standards of quality—but in reality they have surpassed them.

All the comfort, steadfastness, and economy of upstays that have made Hupmobile distinctive for seventeen

years are preserved; and now previous triumphs are dwarfed by the remarkable abilities of this new creation—the Hupmobile Six.

The six-cylinder engine in six insures smooth running. The weight and balance of the crankshaft prevent vibration; a special vibration damper makes tremulous functioning doubly certain.

Economical—powerful in pick-up and speed range—roomy and comfortable—you will be more than pleased with the motor car you have been waiting for so long.

RESIDENTIAL AREA FOR ASIATICS

Town Council Pressure upon Government.

At the Town Council Meeting on February 11th, the Council expressed its opinion on the proposed residential area for Asiatics. The Council is of the opinion that the proposed area is not suitable for the purpose intended and that the Government should consider other areas.

East Africa Seal.

The East Africa Seal was issued on February 11th asking for its acceptance. The price of the seal falling far below the price of the former seal and postage, the deficit will be borne by the Corporation.

The seal is available in 10,000, 5,000, and 2,000 quantities. The price of the seal is 10/- for 10,000, 5/- for 5,000, and 2/- for 2,000.

THE INDIAN VIEW.

That the Acting Town Council has decided to purchase the land from the Government for the purpose of building a residential area for Asiatics is a matter which has caused much discussion.

The Indian view is that the proposed area is not suitable for the purpose intended and that the Government should consider other areas.

FERTILISE WITH EPHOS.

The following botanical papers for itself—

"You should not have the experiment with 'Ephos' turned out!"

"Ephos" is hardly the best you, you might have been pulling

"The 'Ephos' are just simply wonderful, you never saw

such growth, even through the drought. I have grown potatoes

all my life and in many others, but never have I seen anything

like the 'Ephos' and 'Ephos' is the best. I have seen

because I purchased the 'Ephos' and 'Ephos' is the best. I have
