The three routes from Nairobi to Cairo are: 1. The Nile route; 2. The Red Sea route; 3. The Suez Canal route.

There is some uncertainty about what you are getting, when you buy petrol from a doubtful pump, as there is where you are getting when driving in a car. But when you see "Shell" on the globe, and the Shell guarantee, you know you are getting "Shell" UNMIXED with any kind of grade.

Buy from the certified Shell pump or in the sealed red cans.

EVEN A WORM WILL TURN

AND WHAT A TURN IT GETS WHEN IT COMES ACROSS

Mr. J. G. Lee-Wilson in a paper read before the 1920 Congress of the Uganda Planters' Association stated:— 'Messrs Cooper & Nephews have placed an excellent preparation on the market, which I have found most successful. It is a powder known as COOPER'S MEDICO. It is simply mixed up in a trough with common salt and always kept in the calf pen, the calves not being able to lick more than is good for them. The MEDICO keeps the stomach in such a condition that all worms are killed and ejected. This means that in course of time the feeding grounds are cleaned of worms and no more losses occur. The worms being killed while still very young, there are none to lay fresh eggs. MEDICO regularly keeps worms off all sheep and no loss of calves has occurred for some time.' One packet mixes with 70lb. salt.

THE EVOLUTION OF The Ford one Ton Truck

Economy is without doubt the keynote of the hauling problem as it now exists in Kenya. There is no longer any great difficulty in securing trucks that will get goods from one point to another. But economical, and at the same time efficient haulage, hinge upon the relation to the truck of the average load.

Items to be considered in the purchase of a truck are—Interest on investment, depreciation, repairs, fuel, tyres, and all expenses commonly grouped under the heading of "upkeep." The total divided by the total number of ton miles enables the owner to gauge delivery cost, and to determine whether that cost is high or low.

FORD means greater dividends because of its long life, low upkeep costs, and the greater tonnage it can move at much smaller cost than heavier vehicles.
