**GLOOMY INDUSTRIAL OUTLOOK
IN ENGLAND.**

All Trades Unions Stand with the Miners.

Although the industrial outlook in Britain is of the gloomiest, hope is not lost.

Confederates between the miners and the federated Trades Unions were reported to meet in London on Tuesday last. The miners, led by the Union of Miners, were the only representatives of the miners, but the representatives of the other trades, including the railwaymen, were also present. The meeting was held in the evening, and the miners' representatives were the only ones to speak. They expressed their sympathy for the miners, and their belief that a strike was not yet inevitable. They also expressed their belief that a strike was not yet inevitable. They also expressed their belief that a strike was not yet inevitable.

London, April 28. It is reported in the newspapers that the representatives of the various trades unions are conferring, some on separate, while others are in relation to the miners' strike.

Discussions continue today and one report anticipates the issue of a strike supporting the coalminers new wage and working conditions proposals will be decided tonight on Friday, as the miners' representatives are expected next week. The issue, however, will probably be the submission for a limited period of the coalminers' demands.

TRADE UNION SUPPORT.

The coal unions have not yet definitely taken a stand in support of the miners' strike. The miners' leaders were reported to meet on Tuesday last, and the meeting was held in the evening. The meeting was held in the evening, and the miners' representatives were the only ones to speak. They expressed their sympathy for the miners, and their belief that a strike was not yet inevitable. They also expressed their belief that a strike was not yet inevitable.

Arusha Farmers.

Anglo-American "The Times" has been reported to support the Association of Arusha Farmers in their demand for a 25 per cent increase in the price of their produce. The Association of Arusha Farmers is a body of farmers who are engaged in the production of various types of crops, including wheat, maize, and other cereals. They are currently suffering from a severe shortage of labour, which is causing a significant increase in their production costs. The Association is therefore demanding a 25 per cent increase in the price of their produce to cover these increased costs.

Anglo-American "The Times" has been reported to support the Association of Arusha Farmers in their demand for a 25 per cent increase in the price of their produce. The Association of Arusha Farmers is a body of farmers who are engaged in the production of various types of crops, including wheat, maize, and other cereals. They are currently suffering from a severe shortage of labour, which is causing a significant increase in their production costs. The Association is therefore demanding a 25 per cent increase in the price of their produce to cover these increased costs.

TO STOP
ACHES & PAINS
SIMPLY USE
SLOANS' LINIMENT

It is the most famous and most successful of all liniments. It is used all over the world for the relief of all kinds of pain, rheumatism, neuralgia, headache, toothache, sprains, strains, and all other forms of muscular and nervous pain. It is also used for the relief of all kinds of skin diseases, such as eczema, psoriasis, and itching. It is a most valuable and reliable remedy for all these ailments.

WHITE WOMAN CHARGED WITH TWO RHINOS.
Terrible Experience in Rift Valley.

Mr. John, wife of Mr. O. L. Bailey, of Nairobi, is the white woman charged with the killing of two rhinos in the Rift Valley. Her husband was a game warden and she was a game warden's wife. She was charged with the killing of two rhinos in the Rift Valley. She was charged with the killing of two rhinos in the Rift Valley.

with his horn on her side, she burst through the top of her hat and tore away a patch of the scalp on that side. She was covered with blood and she was screaming with pain. She was screaming with pain. She was screaming with pain.

THE INDUSTRIAL CRISIS.
 The Empire will search with great anxiety and concern the developments of the industrial crisis in the world in general and in the various countries in particular. The industrial crisis in the world in general and in the various countries in particular.

Public strike wages has been sold only small the result in the hope that it will be used as a stimulant. The demand for the Premier to break negotiations over to create acts on the part of the Trade Union Congress must be present shock. Even the people who were usually working the strike from the safety of a distance.

THE KENYA ARTS AND CRAFTS SOCIETY.
 The Kenya Arts and Crafts Society has become a valuable institution and infusio in the life of the Colony. Its membership grows constantly in strength and in enthusiasm. Art for its own sake and good works, the love of handicraft, the exercise of personal initiative and the desire to do things well, these are the members in common and lead and bring to life in Kenya the best of the culture and the values which is so urgently required to balance the deterioration of a year of contact with the artist is a source of constant delight. Her changing mood, the variety of her charms, and the power of her appeal to the thoughtful and constructive mind will bring forth the best in the world of the artist. The worker in craft finds a life he applied such a source of income and pleasure and relief. After his spare hours, inspired and guided by the same qualities, the worker in industry will be the subject of strong Government action and the country. Negotiations in progress before the Government and the Trade Union Congress must be present shock. Even the people who were usually working the strike from the safety of a distance.

Cooper's Milk Oil Fluid On The Farm.

is a number of years Cooper's Milk Oil Fluid has proved itself to be the best. As a destroyer of parasites infesting the skins of animals it is unequalled. Further, its invigorating and cleansing action on the skin, it produces a fine, gray coat, giving the animal a sleek, healthy appearance.

For the above reasons the farmer cannot afford to overlook the advantages of an article of such general utility as Cooper's Milk Oil Fluid. A dram of it is applied always be at hand, not only for use in case of emergency, but for the daily routine of cleaning and sweetening the places where animals are kept.

It is non-corrosive, does not stain, and being made of the purest materials and free from useless ingredients, it may be employed with confidence that, if used according to directions, it will serve every purpose of a high-class Cattle Wash, Liquid Sheep Dip and General Disinfectant and Deodorizer.

ANOTHER TRIP ACROSS AFRICA.

Mr. Frank Gray on a Jovial Car.

LAGOS TO NAIROBI.
 A telegram has been received by the agent in Nairobi for Frank Gray from Mr. Frank Gray, who is returning to cross Africa from Lagos to Nairobi, on a Jovial car fitted with Franks' "wildcat" tires. This message announces that he has reached El Ghedi, after a journey of 5,000 miles over an extremely difficult strip of road, mud and holes, and upon in many places, being out of fuel.
 Mr. Gray has also written to the agent remarkably well and has given a full and detailed account of his trip, which he describes as most enjoyable.
 They have started on the last stage at 8 P.M.

THE DEVELOPMENT OF MOTORING.

Comfort Was Slow in Being Developed.

THE PART AND FRETWORK

It is not many years since

the features of the motor car

which manufacturers were con-

cerned in developing were those re-

ferred to the comfort of public

transportation.

The way has paved the way

for the motor car, and the man-

ufacturer's intense desire to im-

prove power plants and trans-

missions and partially to the fact

that we know now and intend

soon to demand more comfort.

In a review of the motor car, it

can be remembered that when

the automobile first began to be

used for pleasure, those who

ride in them expected only of

some discomfort, just as one does

who rides in an open, hot and

stagnant motor car. In fact, the

ride was so unpleasant that it

was not until a revolution in the

method of transportation

that it was possible to make

the ride in an automobile as

pleasant as a motor car. It was

not until the late 1890s that

the automobile was made as

comfortable as the motor car.

It was not until the late 1890s

that the automobile was made

as comfortable as the motor car.

It was not until the late 1890s

that the automobile was made

The only way to be certain
 that you are getting the at-
 most service with the greatest
 economy in your transport system
 is to keep separate records of the
 upkeep costs of each vehicle you
 use.

Albion Motor Vehicle Company Ltd.

Wherever the performance
 of an Albion is compared with that
 of any other make, the Albion's
 capacity for saving is multiplied
 tenfold. And this is probably
 the case where heavy conditions,
 rough roads and special climates
 are concerned.

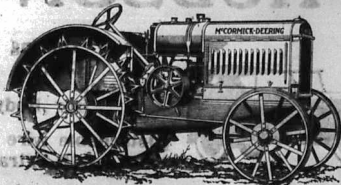

Where motor spirit is difficult
 or expensive to purchase, Albion
 vehicles can be fitted with special
 patented paraffin or kerosene
 carburetors.

Practical Farmers Everywhere are Adopting Power Farming Methods

When you buy a Tractor see that it is fully equipped.

Ball bearings are not only durable, but they reduce wear by minimizing friction.

When International Harvester tractors are purchased they are completely equipped with tractor, platform, pulley, governor, brake, and removable tags, and power take off.

Why are International Harvester Tractors Being so Generally Adopted?

Here's the Answer:

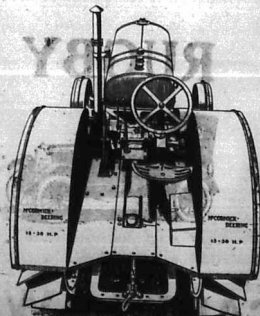

These tractors make farm work easier. They enable better field work to be done. They enable more work to be accomplished. Tractor farming is more profitable. Tractors save time, when time is needed. Power farming gives more time for other duties. Tractors save man-labour. They cut hired help cost about one-half and supply ever-ready and economical belt power. These tractors are ready to work in all kinds of weather and are not subject to disease. They cost nothing when not working.

Throttle Governor. High-Tension Bosch Magneto. Removable Cylinder Liners. Heavy-Duty Powertrain. Efficient Lubrication. Ball and Roller Bearings at 26 Important Points. Power Delivered by Clutch, P.T.O. Run in Oil. Extra Large Two-Bearing Crankshaft. One-Piece Main Frame.

Manufactured by International Harvester Company, Incorporated, CHICAGO, ILL. U.S.A.

15-30 **£368** f.o.r. Nairobi

The steel platform is light and strong, which adds to the comfort of the operator and provides carrying space. The platform, together with the fenders, provides a safety feature. The fenders protect the tractor and the operator from dust and dirt.

How Fast Does Your Car Depreciate?

It isn't only use which depreciates a car... when you buy you want to be certain that the makers are not going to produce an entirely new model next year and thereby lower the second-hand value of your car to a very large extent. STUDEBAKER have adopted a "no yearly model" policy. As small improvements are perfected so they will be fitted to new cars but there will not be radical changes making your car out of date. Moreover the advanced design and sturdy construction of the STUDEBAKER ensure lasting value.

Double Comfort... Double Safety in the exclusive Studebaker Duplex body!

The outstanding advantage of the New Studebaker Duplex body is the double comfort it provides. In 30 seconds it can be transformed from an open to an enclosed car, or vice versa, through roller mechanism at the sides.

But there is an added advantage - it's double safety! In unavoidable accidents, 30 lives have been saved to date by the sturdy, steel-plated Duplex body.

See the New Duplex before you buy a car. It is the latest development in motor car design. Only the New Studebakers have the Duplex body.

The open day championship Rugby match between Natal and Free State of Transvaal on Saturday was played under very favourable general conditions. The heavy downpour of rain that occurred during the afternoon and left the ground and ball very dry.

GOLF IN KENYA.

New Course to be Opened at Gilgil.

(Continued.) The Gilgil Club opened the new course on Saturday by a four holes match between Messrs. W. M. Schumaker, May 3, and J. P. W. M. Schumaker, May 4, at 2.15 p.m. The winner was Schumaker by a score of 12 to 10. The prize of play is as follows:—

The best single hole golf course in the world is only an artificial device. It is a piece of natural beauty, including a bit of hill and valley, and it remains to be seen whether the professors from the Metropolitan will succeed in the best of the world. The Captain of the Club is offering a public subscription to the first player or Whitehorse who reaches the 40th hole in the best of the hole in 101 cuts or less, and there is a prize of £500 in cash or in kind, to be given to the winner. It is an offer to raise £10,000 to build a golf course. It is an offer to build a golf course. It is an offer to build a golf course.

FERTILISE WITH EPHOS.

The following testimonial speaks for itself:—
"You asked me how the experiment with 'Ephos' turned out. I really hardly like to tell you, you might fancy I was pulling your leg."
"The Potatoes are just simply wonderful, you never saw such growth, even through the drought. I have grown potatoes all my life and in many climates, but never have I seen anything like this and further in it and a quantity of many sorts."
"Because I purchased the seed at the store from a Kikuyu boy."
The original of the above testimonial can be seen on application to J. G. ARONSON, P.O. Box 631, Nairobi.
