To Those Who Judge Quality by Price

The quality of Ford cars cannot be judged by the prices at which they are sold—because Ford prices are made possible by conditions that are absolutely unique in the automotive industry.

From mine to market the Ford car is the work of a single organization. The Company owns and operates the mines and forests that furnish the raw material for its products. This material is carried over Ford transportation routes, fabricated in Ford mills, manufactured in Ford plants—and the finished product is sold to the public through Ford dealers.

The following statement, previously made in an advertising message, is repeated because of its significance to the public:

"If any other manufacturer redesigned to produce a car similar to the Ford, according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design, it would be impossible to offer it at anything like Ford prices. And it is well to note that even with less costly design they have not met Ford prices."

Original Ford Features that To-day Make for Greatest Simplicity-Durability-Reliability

Torque Tube Drive Dual-Ignition Simple-Dependable Lubrication Multiple Disc-Incl. Clutch Three Point Motor Suspension.
Planetary Transmission Thermo-Syphon Cooling.

THE NEW "His Master's Voice" Gramophone.

The new features are illustrated on the left. This invention has taken the musical world by storm and is hailed by such critics as: Sir Landon Ronald, Sir Edward Elgar, Albert Coates and Eugene Goossens as the greatest advance ever made in gramophone reproduction. When you are in town call and let us demonstrate to you, you will be convinced as many others of our clients have been, that this is indeed the best of Gram-phones.

The New Portable H.M.V. Machine.

This illustration the New Portable H.M.V. Machine which embodies all the new features of reproduction. Surface noises are practically eliminated and among the many portable gramophones on the market this "H.M.V." Model is in a class by itself.

Sh. 200/- ONLY.

CAN BE HEARD AT

JACOBS

Sole Distributors For KENYA COLONY. NAKURU — NAIROBI — Eldoret.

The New "His Master's Voice" Instrument embodies entirely new discoveries relating to sound amplification. Hitherto the reproduction of treble notes (high frequency vibrations) has been almost too prominent, while the bass register (low frequency vibrations) has been correspondingly weak, the result being lack of balance. The "New" H.M.V. Machine adjusts this balance and gives a reproduction in which both bass and treble have their true relation, as in the actual performance.

We allow 5 per cent. cash discount.

TABLE GRAND MODEL No. 103.

Beautiful cabinet work and triple spring motor. Embodying all the new features. A perfect machine.

In Oak ... Shs. 250/-
In Mahogany ... Shs. 275/-

TABLE GRAND MODEL.

A superb machine with extra strong motor and the new reproductive attachments.

FERTILISE WITH EPHOS

The following testimonial speaks for itself!—

"You asked me how the experiment with "Ephos" turned out. Really I hardly like to tell you, you might fancy I was pulling your leg."

"The Potatoes are just simply wonderful, you never see such growth, even through this drought. I have grown potatoes all my life and in many climates, but never have I seen anything like this lot and further it is not a question of fancy."

"Because I purchased the seed at the door from a Kikuyu man."

The original of the above testimonial can be seen on application to

STRAIGHT TALKS ON LABOUR. No. 1. WHAT OTHER TERRITORIES CAN TEACH KENYA.

[LONDON LETTERS' AGENCY] The following series of articles under the title "Straight Talks on Labour" are being published in the Kenya Times.

Help the kidneys! Why? What of trouble is caused by diseased kidneys, yet few people know the real causes and symptoms are neglected.

This means that patients are suffering from kidney trouble without knowing it. The kidneys are the filters of the body and when they become diseased, the whole system is affected.

Kenya and Uganda Railway

Tenders for the Supply of 100 Tons of Mweri Logs

Tenders are requested for the supply of the above logs at any Kenyan and Uganda Railway Station.

2. Tenders for part or the whole of the above quantity will be considered.

3. Tenders must state definitely within what quantity will be delivered, and also the earliest date that delivery will commence.

4. The price should be for per ton of 50 cubic feet.

5. Logs to be measured by the quarter girth system under the bark.

6. Logs to be not less than 12 feet in length with a girth not less than 48 lbs in any part of the log.

7. Logs to be straight, free from twisted grain and forks, and also free from large dead or loose knots, shakes and decay.

8. Logs will be inspected by the Railway before loading into trucks and payment will be made by 15th of the month following that in which the logs are received in the Railway Works.

9. Sealed Tenders marked "TENDERS FOR LOGS" should reach the Chief Storekeeper, Kenya and Uganda Railway (P.O. Box 40) Nairobi on or before the 11th June 1929, after which date will not be considered.

10. The lowest or any Tender will not necessarily be accepted.

G. D. BRODIE, ACTING GENERAL MANAGER, KENYA AND UGANDA RAILWAY, Nairobi, 11th June 1929.

Cooper's Milk Oil Fluid
 On the Farm.
 a number of years Cooper's Milk Oil Fluid has proved itself a boon to the stockman. As a destroyer of parasites infesting the skins of animals it is unequalled. Further, its invigorating and cleansing action on the skin produces a healthy, healthy appearance.
 It is a splendid disinfectant. As a prevention against blood poisoning, and as a dressing for cuts, wounds, etc., has no equal.
 For the above reasons the farmer cannot afford to overlook the advantages of an article of such general utility as Cooper's Milk Oil Fluid.
 A drum of 10 should always be at hand, not only for use in case of emergency, but for the daily routine of cleansing and sweetening the places where animals are kept.
 It is non-corrosive, does not stain, and being made of the purest materials and free from useless ingredients, it may be employed with confidence that it will produce a healthy, healthy appearance.
 A drum of 10 should always be at hand, not only for use in case of emergency, but for the daily routine of cleansing and sweetening the places where animals are kept.
 It is non-corrosive, does not stain, and being made of the purest materials and free from useless ingredients, it may be employed with confidence that it will produce a healthy, healthy appearance.

 It is a splendid disinfectant. As a prevention against blood poisoning, and as a dressing for cuts, wounds, etc., has no equal.
 For the above reasons the farmer cannot afford to overlook the advantages of an article of such general utility as Cooper's Milk Oil Fluid.
 A drum of 10 should always be at hand, not only for use in case of emergency, but for the daily routine of cleansing and sweetening the places where animals are kept.
 It is non-corrosive, does not stain, and being made of the purest materials and free from useless ingredients, it may be employed with confidence that it will produce a healthy, healthy appearance.

Cooper's Milk Oil Fluid
 On the Farm.
 a number of years Cooper's Milk Oil Fluid has proved itself a boon to the stockman. As a destroyer of parasites infesting the skins of animals it is unequalled. Further, its invigorating and cleansing action on the skin produces a healthy, healthy appearance.
 It is a splendid disinfectant. As a prevention against blood poisoning, and as a dressing for cuts, wounds, etc., has no equal.
 For the above reasons the farmer cannot afford to overlook the advantages of an article of such general utility as Cooper's Milk Oil Fluid.

Car Lubrication.

USE OF CORRECT GRADE OF OIL VITAL.

It is a well known fact that the life of a motor car depends upon the quality of the oil used. The oil should be of the correct grade for the engine and should be changed at regular intervals.

There is no doubt that the motor car has become an indispensable part of our lives. It is a machine that has revolutionized our mode of transport and has made it possible for us to travel more quickly and comfortably than ever before.

RUGBY IN SOUTH AFRICA. Notes on the Game in the Early Days.

POWER For Business-Like Farming

FOR nearly a century, the builders of this Company lines have been enlisted in the pursuit of happiness on the Farms, devising the machines that are lifting the millions of too hard labour off the shoulders of men and women.

Right across have been made since Cyrus Hall McCormick built the first Reaper on an acre in Virginia in 1831. Agriculture has been aided by the Mechanical Farm equipment that has benefited the world. During the past dozen years Tractors and Power Farming equipment have been creating new wonders. Great accomplishments have been for the new farmer who is ready to combine past experience with the best knowledge at his command on the farm.

Worried to assume that we expect the arrival shortly of our first shipment of the New McCormick Deering Narrow Track Sial and Office Tractors.

Absolutely the last word in Sial and Office Tractor construction. Its main features are identical with those found in regular McCormick Deering Tractors. Years of grinding work in sial and orchard sections have proved every feature.

Such proved dependability plus the narrow track makes this new Tractor extremely desirable.

Some Reasons Why Practical Men Select McCormick-Deering Tractors

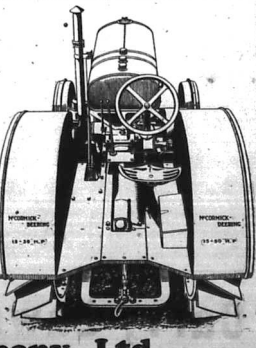

- Powerful Engines.** These tractors have water-in-head, heavy-duty engines. They are built to deliver an abundance of power over a long period of years. Working parts are thoroughly protected from dust and dirt.
- Removable Cylinders.** Each cylinder is cast separately and fitted into the engine block which makes it possible to place a worn cylinder easily and economically. New cylinders make practically a new engine.
- Crankshaft.** The heavy-duty crankshaft runs in large ball bearings.
- Thrifty Governor.** The throttle governor regulates the fuel to the load and keeps the speed practically uniform.
- Flywheel.** The piston are slim-fitting and have four times which insure good compression and most power from the fuel.
- One-Piece Main Frame.** The main frame is a single casting. There are no weak joints laboring together. It is designed and built. **Gear Run in Oil.** All gears run in a bath of oil.
- High-Grade Magneto.** The high-grade magneto supplies a hot spark for starting and in rain.
- Engineers consider** this the best type of ignition for a farm tractor.
- High-Grade Bearings.** An unusually large number of ball and roller bearings are used which are easily lubricated, reduce friction, and save power for productive work.
- Cooling System.** The thermosyphon system of cooling maintains uniform engine temperature.
- Accessibility.** Engine working parts are readily accessible by removing handhole covers and panels.
- The multiple clutch is large and improves power transmission of the power.**
- Oil Air Cleaner.** Air that reaches the cylinder must pass through the oil air cleaner which removes the dust and dirt.

OUR WOMEN'S PAGE

A Letter from Paris
(From Florence Constance)

A grey ladies' truck with an old world look. It is figured with red and green.

This year we are being offered the most exquisite materials that were ever created to keep us in the extraction. They are in shades of blue, green, and yellow, and are so delicately tinted that they are almost invisible when they are worn.

It is a pity that we are not offered more of these materials. They are so beautiful and so well adapted to the needs of the modern woman. They are so well adapted to the needs of the modern woman.

These are the materials that are being offered to us. They are so beautiful and so well adapted to the needs of the modern woman.

Dressy Sports Clothes.
What is known as a "fashionable" dress is a dress that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves. It is a dress that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves.

Brilliant Tintings.
Now a girl's hair is seen in shades of blue and green, and in shades of red and yellow. It is a hair that is seen in shades of blue and green, and in shades of red and yellow.

Wide Brims.
The wide brim is a hat that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves. It is a hat that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves.

Light Colors.
The light colors are a dress that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves. It is a dress that is made of a fine fabric and is decorated with a pattern of small flowers or a pattern of small leaves.

THE GENERAL STRIKE.

Scene at Waterloo station when the general strike commenced.

This bus was stranded in North London. The driver, who had over the road with a full load of passengers, was unable to get away because the bus was not allowed to pass. The bus was then abandoned by the driver. It is now in the hands of the police.

At Hay's Wharf, London Bridge, soldiers are seen detaining about 20 striking strikers who were attempting to force the admission of a bus. The bus was then abandoned by the driver. The picture shows the strikers being taken to the station.

A general view of the procession passing along the Embankment.

A food conveyer with military escort, passing through the Docks on its way to the Government Depot in Hyde Park.

The abandonment of Hyde Park is a strike street was one of the most striking features of the strike. The bus was abandoned by the driver because the bus was not allowed to pass. Thousands of pounds of stock were burnt and destroyed with a methodical precision.

Waterloo Bridge, where private vehicles crowded the road. The Mirror of Commerce is seen in the picture.

Members of the British Fascist party taking the procession to Hyde Park.

What Studebaker Saves Through One-Profits Manufacturer is passed on to you in many fine car features

In the quality Car, Illustrated, One-Profits saves
Studebaker to offer you important
features in equipment and construction not
reflected by car costing double its price. In complete
features:
No other car in the world of its size and weight
class is so well equipped according to the requirements
of the Road America Club.
Notice the high quality upholstery, the complete
set of the Road America Club, and best seats with
other cars costing much more.
Four body construction—first grade southern
hardwood and hard maple are used in the body
construction. Body joints are mortised, secured
with rivets. These joints are completely sealed
with a special compound.
Closely alloy steel—pay a premium to secure
steel of extra quality.
Completely mechanical construction—this feature
Studebaker 412000 a year for this feature alone. This
practice reduces engine vibration to a minimum
and thereby ensures long life and best operating
results.
Durable finish on Studebaker cars is satin smooth
and the color tones uniformly deep and true.
Paint glass of the highest grade is used in the
windows. It is mounted in live rubber, preventing
leakage, rattle, or strain.
Air and petrol filters plus an air cleaner prevent
foreign matter from entering the engine.
Complete equipment includes petrol gauge,
flexible mechanical windshield, rear view mirror,
coil ventilator, step light and dome light.
Flare-up protection on the steering wheel which
locks the ignition and steering control in case
of a fire.
Closely alloy steel—pay a premium to secure
steel of extra quality.
Completely mechanical construction—this feature
Studebaker 412000 a year for this feature alone. This
practice reduces engine vibration to a minimum
and thereby ensures long life and best operating
results.

DISTRICT NOTES.

Thomson's Falls.

[From Our Own Correspondents.]
Thomson's Falls, June 9.

For a goodly number of months, nothing much has been heard on the Sabaki side of Thomson's Falls which crosses from Upper Othman to the Sabaki River, and including the country round the famous Falls. It has been a state of affairs but not been known either by travellers or from lack of news, but on the contrary, by lack of state news from the writing of letters. The whole district has been very densely populated in its position, individually and collectively and the time for late for late when it will be one of the big cities growing in the future.

The district, until the first day, enjoyed much state news and there came a spell of dry pleasant weather with the usual brilliant blue sky. The wind varied to those usual blasts from the Sabaki, where much is being said to those gentlemen, much as usual.

THE RAILWAY.

On the 6th of the present month the opening of the Thomson's Falls Railway great activity has been going on and much labour is being employed in what area are being rapidly in current job. The work on the line is well advanced, the work on the rails are high that the road is being laid out on a level, the road is being laid out on a level, the road is being laid out on a level, the road is being laid out on a level.

IN HIS MAJESTY'S SUPREME COURT OF KENYA AT NAIROBI.

Othi Case No. 47 of 1920.

The Standard Bank of South Africa, Plaintiffs.

1. Desmond Gray O'Mahony, versus 2. Denis O'Mahony, and 3. Harold Perrier Ltd., Defendants.

TAKE NOTICE THAT

Pursuant to an order of His Honour the Judge of the Court of Kenya at Nairobi, dated the fourteenth day of April 1920, we have been directed to sell the property and shares referred to in the following Schedule, by Public Auction, and in accordance therewith

WE SHALL SELL BY PUBLIC AUCTION

all the following property, situated at Nairobi, on Wednesday, 17th July, 1920, at 2 p.m. precisely, the property described—

SCHEDULE OF PROPERTY.

ALL THREE TWO PERCENT SHARES OF bond units of the Union Gold Fields in the Union Gold Fields of the Nairobi Province, Joint Office Number 620 and 502, containing 6,687 acres or thereabouts, together with immovable property and improvements situated thereon. Leasehold 99 years from 1st September, 1916. Government Rental, Shs. 7720 per annum.

ALL THAT THREE ONE PERCENT AND containing 500 acres or thereabouts in the Union Gold Fields known as Farm Number 491111, together with immovable property and improvements situated thereon. Leasehold 99 years from 1st March, 1911. Government Rental, Shs. 122 per acre per annum.

500 SHARES in MARGOLI LIMITED of Shs. 10 each of which Shs. 1000 is deemed to have been paid up in each of the Shs. 25 fully paid up of Shs. 15; each in the B.E.A. Nairobi Co. Ltd. 2,000 fully paid up SHARES of Shs. 15; each in the MAPTA Ltd.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed in his correspondence in these columns, and in all cases the name and address of the writer must accompany a letter, not necessarily for publication, but as a guarantee of good faith. Correspondents are invited to state their own views on matters of controversy.

FOUR TKS ELEPHANTS.

To the Editor, "E. A. Standard."—I have received this week your issue which I have read with some interest. I am glad to see that you have taken on one side, and one on the other, a job on behalf of the King of England. Why is it that "official" English, such as the language of the Government, are again and again the pronouncements of His Majesty's Government, are again and again, should be taken to justify the view of the world community. Nothing appears to be going on behind the scenes, but only "official" English.

THE KING'S ENGLISH.

To the Editor, "E. A. Standard."—The King's English is a good day to be on the job on behalf of the King of England. Why is it that "official" English, such as the language of the Government, are again and again the pronouncements of His Majesty's Government, are again and again, should be taken to justify the view of the world community. Nothing appears to be going on behind the scenes, but only "official" English.

LAKIMIA LAKE EXTENSION.

To the Editor, "E. A. Standard."—The origin of this question is the desire of your people for the first time of deriving any benefit from the Royal Settlement. Later, the question arises in the common mind, whether it is desirable to extend the area under the project.

NATIVE INDUSTRY.

To the Editor, "E. A. Standard."—It is well known that the Government are interested in the development of native industry. The question is whether it is desirable to extend the area under the project.

THE EAST AFRICAN STANDARD.

BRIDGE QUERY.

To the Editor, Sir: I received your issue of the 5th inst. and find a little discrepancy in the rules of the club governing the play of the cards in the game of bridge. The rules of the club are as follows:—The player who has the deal is to deal the cards and to deal the cards in the game of bridge. The player who has the deal is to deal the cards and to deal the cards in the game of bridge.

Obituary.

MR. H. W. DADDY, FELLOW OF THE INSTITUTION OF CIVIL ENGINEERS, died on the 11th inst. at his residence, 10, Grosvenor Gardens, London. He was born in 1825 and was a member of the Institution of Civil Engineers for many years. He was a successful engineer and a public servant.

Wood Sales.

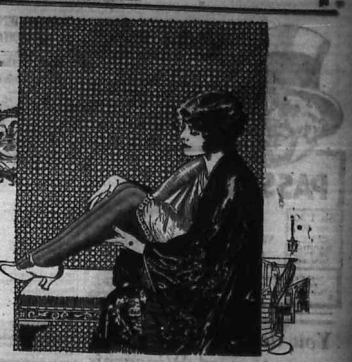

Meurs Delany & Co. cable their Kenya agents, Messrs W. C. G. & Co., that the wood trade in the East African Protectorate has been very successful. Competition is keen and prices are high. The demand for wood is increasing and the supply is being increased.

You don't need to be ill to need Wincarnis

Wincarnis is not merely for invalids and those who can't run down in health. It's for you, too. For men and women who are fit and strong, and who want to keep you that way.

It is one of a class of food that is not a drug in Wincarnis. It's just a pure, rich and well-made food from choice grains with valuable extracts of beef and made into perfect confection, delicate in taste and most digestible. This is why it is so readily and remarkably accepted as a means for building up health, and why more than three dozen doctors have recommended and prescribed it.

WINGARNS

You have only to try Wincarnis to realize how possible and enjoyable it is. And its benefits are so many and so varied that you can't get a page cut home, complete, that will do justice to it. Details if daily, before, after, or between meals. There is life in every grain.

Here's one, find it for yourself. It's the best for you, and the best for your people, and the best for the world.

From all Chemists and Stores.

BEAUTIFUL PREPARATION
FOR THE BATH
Always in the most perfect condition.

A VISITOR'S IMPRESSIONS OF KENYA.

Alleged Weakness of Present Government.

In the last of the series of articles which I published in the *South African Press* by Mr. Francis Bond, a distinguished journalist who recently visited Kenya, the author expresses the opinion that to develop the country to its fullest potentialities, the Government should be reorganised on a basis of efficiency and economy. He says that the present Government is inefficient and wasteful, and that it is necessary to have a more efficient and economical administration.

To sum up my impressions, Kenya and the whole of the continent should be built up on the basis of efficiency and economy. The Government should be reorganised on a basis of efficiency and economy. The Government should be reorganised on a basis of efficiency and economy.

DRABWAGS OF NATIVE LABORERS.

So the natives have the monopoly of the labour market. It is the condition of the labor market that the natives have the monopoly of the labor market. It is the condition of the labor market that the natives have the monopoly of the labor market.

Trips Across the African Continent.

Kenya's growing attraction for Americans.

RHODESIA'S INCREASING PROSPERITY.

A Note of Warning on Loan Expenditure.

The need for caution in the Rhodesian Government's financial policy is stressed in a leading article in the *South African Press*. The article points out that the Rhodesian Government has been spending heavily on public works, and that this has led to a large accumulation of debt. It warns that if this policy is continued, the Government will be unable to meet its obligations, and that the country will be plunged into financial chaos.

Child Welfare.

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

THE NEEDED PROCAUTION.

The need for caution in the Rhodesian Government's financial policy is stressed in a leading article in the *South African Press*. The article points out that the Rhodesian Government has been spending heavily on public works, and that this has led to a large accumulation of debt. It warns that if this policy is continued, the Government will be unable to meet its obligations, and that the country will be plunged into financial chaos.

NATIVE CHIEF CARES.

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

CONCORDANCE

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

YOUTH CLUBS.

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

PRICKLY FEAR.

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

MANCHESTER.

The *Star*, "A Standard," writes that the Government should take more interest in the welfare of the children of the country. It points out that many children are suffering from neglect and abuse, and that the Government should take steps to improve their conditions. It suggests that the Government should establish more day nurseries and playgrounds, and that it should take steps to improve the education of the children.

The Service Company Limited

The NEW "His Master's Voice" Gramophone.

The new features are illustrated on the left. This invention has taken the musical world by storm and is hailed by such critics as Sir Landon Ronald, Sir Edmund Elgar, Albert Coates and you are in a ton call and he is a demonstrator to you, it will be convinced as many others of our clients have been, that this is indeed the best of Gram. phones.

The New Portable H.M.V. Machine.

This illustration of The New Portable H.M.V. Machine which embodies all the new features of modernity...

Sh. 200- ONLY.

JACOBS LIMITED. Sole Distributors for KENYA COLONY.

The New 'His Master's Voice' Instrument embodies entirely new discoveries relating to sound amplification. Hitherto the reproduction of faint notes (high frequency vibrations) has been almost too infrequently vibrated by the bass register (low frequency vibrations) the result being lack of balance.

TABLE GRAND MODEL No. 103.

Beautiful cabinet work and triple spring motor... In Oak... In Mahogany...

A superb machine with extra strong motor and the new reproductive attachments. In Oak... In Mahogany...
