**HUDSON-ESSEX**  
 World's Largest Selling "Sixes"

Hudson's position as the world's greatest value is not merely a new attainment. For ten years the Super-Six has stood alone in mechanical supremacy. Basic patents have kept others from copying its motor. The smoothness and long life it gives are exclusive. No motor has yet equalled the Super-Six in smoothness and long economical car life.

Advantages that permit a lower selling price than is possible with more complicated types.

Essex, too, shares the Super-Six advantages. Yet it costs little more than low-priced "Fours." And it gives performance, comfort, fire appearance and lasting reliability never approached in this price class. No wonder these cars—Hudson and Essex—continue, year after year, the world's largest selling "Sixes."

All The World Has Taken The Incomparable Chrysler To Its Heart

The Chrysler TS is remarked every time it exhibits its dashing appearance on road or highway. The contrast between its handsome but one is lived then and there. But that desire is a nothing compared to the delight inchood later on. For the Chrysler is just as far beyond comparison in performance, roadability, ease of handling and durability as it is in looks.

LOCAL FOOTBALL. Railway Defeat Town on Saturday.

A CHARIOT MATCH. The first of the local sports for the 20th season was played on Saturday morning at the Railway Ground. The Town were victorious by two goals to nil. Although Railway won the match, and set a pace over the ground, the Town had just as much of the game, if not more than the visitors, the difference being that Railway took advantage of two of their openings whereas Town brought none of their opportunities to a successful conclusion. Observation was made here and there from the stands.
