The Popular British Football Player writes—

As an athlete, I have found Phosferine... has an amazing stimulating effect, and prevents any cramps, even whilst training, and keeps me splendidly in tight through the season.

Phosferine is A— as a nerve strengthener there isn't any thing to touch it, and after a most gruelling game, I have none of that 'punished' feeling, rather the other way in fact— fresh and in good condition, I am quite sure Phosferine keeps the system cool and strong enough to take care of itself safely against influenza, chills, cramps, etc.

SERIOUS EPIDEMIC OF ILLNESS IN KENYA.

The Worst in the History of the Colony.

ALL CLASSES AFFECTED. (E. A. Standard Special)

Just and July Mr. Malindi's sick work in the district. The boys at Malindi were very badly affected, and were lying in bed. Mr. W. Whitham, the Secretary of the Kenya Club, writes that he has seen many cases of the same kind.

There is no doubt that the disease has spread very rapidly, and that it is now being carried to other parts of the colony. It is very likely that the disease is being carried to other parts of the colony by the movement of the troops.

ELECTION OF A ROOF.

Incident Occurs as to Rescue Methods.

An inquiry was held Wednesday at the Court, in the presence of a jury, in which the following incident was discussed. The case was brought by the plaintiff against the defendant, who was charged with the duty of providing a safe and sound roof for the building. The plaintiff alleged that the defendant had failed to do so, and that as a result the building had been damaged by fire. The defendant denied the charge, and the case was referred to a jury for their verdict.

HEARD A SCREAM.

A man named Mr. [Name] was charged with the duty of providing a safe and sound roof for the building. The plaintiff alleged that the defendant had failed to do so, and that as a result the building had been damaged by fire. The defendant denied the charge, and the case was referred to a jury for their verdict.

The case was heard in the presence of a jury, and the defendant was found guilty of the charge. The court sentenced the defendant to a term of imprisonment, and the plaintiff was awarded damages. The case was a landmark one, as it established the principle that a landlord has a duty to provide a safe and sound roof for the building.

Electricity Dangers.

The evidence given at the inquiry into the death of a woman recently electrocuted in Nairobi again focuses attention on the danger to be apprehended from the electricity supply system in the city. In the case in question a boy was seen to climb over a log of a roof and, from the gutter, to reach the electric wires carrying current to the house. Unable to get himself from the electric wires he writhed in agony for several minutes until death mercifully released him. Although almost immediately after his incidence, the nature of the accident was known, the boy's rescue was delayed. Then, despite skilled attention, the people to the scene, the evidence showed that ten minutes elapsed before the electric current was broken and the man released. GOVERNMENT BETTING TAX BILL

Big Racing Turnover Aids of Reduction.

[FRENCH PRESS'S ADVISE.] London, July 16.—In the House of Commons the Government's betting proposal in final shape in the report stage of the Budget. Mr. Churchill said that the proposal would reduce the duty on bets to 10 per cent, and on racecourse betting to 2 per cent, instead of the 15 per cent proposed all round 3 per cent.

Mr. Churchill explained that the turnover of betting is larger than was previously anticipated and that the new proposal will yield £1,000,000.

GEAR CHANGING. Most Often Results in Accident.

A GREAT TEMPTATION. This article will not interest the man who habitually drives with an engine of great capacity, especially of starting speed. He is usually so confident of his own ability in shifting without changing down, that he usually does not know the consequences of the small quantity of oil which may be lost in a change of gears on a hill or a steeply ascending grade. It is a very important subject, and one which should be read by every driver.

The advantages of such small changes of speed, economical running, and fuel economy, are not sufficiently recognized, that those who are in the habit of driving on a hill or a steeply ascending grade, should be made aware of the consequences of such a change of gears.

AN IMPORTANT SUBJECT. When the gear is shifted, the oil which is lost is not only lost, but it is also a great deal of oil which is lost. It is a very important subject, and one which should be read by every driver.

HAZARDOUS. When the gear is shifted, the oil which is lost is not only lost, but it is also a great deal of oil which is lost. It is a very important subject, and one which should be read by every driver.

USE THE PERFECT COMBINATION. When the gear is shifted, the oil which is lost is not only lost, but it is also a great deal of oil which is lost. It is a very important subject, and one which should be read by every driver.

Making Tyre History. 'SUPERTWIST' is doing that in Goodyear Balloons.

The majority of the earlier users of Goodyear Balloon Tyres bought them because of the desire for greater riding comfort.

They are piling up mileage totals, and records for sustained freedom from trouble, that users say are revolutionary.

Back of the splendid achievements of these Goodyears is the new cord material SUPERTWIST developed by Goodyear to solve the special needs of the modern flexible-sidewall tyre.

Indeed, where service and road conditions ordinarily "use tyre rapidly," Goodyear Balloons a tyre making history.

Dodge Cars Preferred by Great Commercial Houses

One of the best proofs of what the world thinks of Dodge Brothers Motor Car is its widespread use—in large fleets—by great International Commercial Houses.

For instance, The Standard Oil Company uses 656 Fairbanks Motor Cars, 136 The General Clear Company, 206 The Public Service Companies, 252. It would require many more to print them all.

And remember, that these companies select their automobile equipment after thorough competitive tests. Long life, economy and dependability in hard service are the qualities demanded—qualities in which Dodge Brothers vehicles are selected without ever anywhere in the world.

Your most expensive Power—the power you do NOT use

From engine or motor, power is transmitted through motion to material, transforming it into finished product. Frictional loss means wear. You may pay out money for power, only to waste it, pay more money for repairs and replacement.

Some of this waste and destruction can be eliminated by Overcot Lubrication.

If you want to save power, repair and stoppage, get in touch with the Vacuum Oil Company of South Africa Ltd., the leading authorities on scientific lubrication.

CHAMPIONSHIP ENTRIES

CLOSING DATE Arrangements are well in hand for this year's local tennis championships, and interesting competitors are anticipated. The Wimbledon meet, July 21 is the closing date for entries.

If runner is correct many of the Kenyan players are going to try to break the record of eight straight victories, and the committee of aspirants for championship honors is not likely to be less than on previous years.

It will be remembered that last year season tickets were issued which entitled spectators to watch the games at any time, and it is probable that the same arrangements will be made for the present series of events.

The Famous Super-Six Advantages are Exclusive to Hudson and Essex

HUDSON COACH £425

HUDSON-ESSEX World's Largest Selling "Sixes"

Hudson's position as the world's greatest value is not merely a new attainment in mechanical supremacy. Basic patterns have kept others from copying its motor. The smoothness and long life it gives are exclusive. No motor has yet equalled the Super-Six in smoothness and long economical car life.

Advantages that permit a lower selling price than is possible with more complicated types. Essex too shares the Super-Six advantages. Yet it costs little more than low-price comfort, fine appearance and lasting class. No wonder these cars—Hudson and Essex—continue, year after year, the world's largest selling "Sixes."

Because of its simplicity, the Super-Six has always enjoyed manufacturing ad-

THE COACH

The Coach

The handsome colorful lower body and black upper body in lasting and lustrous finish with vivid striping give the Coach an individuality. The body in this latest Oldsmobile Six model has been made longer and lower than previous given extra strength at vital points by steel corner braces. The body has low, long and graceful lines and is given youthful contour by double moulding genuine plate glass and the patented Fisher V.V. ton. All windows operate by quick-setting handles. The two doors are 36 inches wide and are of the Pullman chair type, double hinged to fold forward under the dash. Seats and seat-backs are spring cushioned. Upholstery is genuine cord plush of a pleasing neutral tone. The Coach has an automatic windshield wiper, dome light, foot rest, heavy rug in the rear compartment and rubber mat in the front compartment.

Our Service

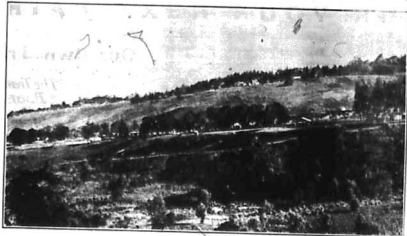

Ask an Oldsmobile or Buick owner about our service. From him you will learn of the thorough and painstaking attention given to every detail of repair and adjustment. Before new cars are delivered they are assembled with the greatest care by experienced men. After turning up, they must pass rigid tests before they are handed over to the purchaser. Every car serviced by us must pass the same rigid tests and close examination as new are carried out by highly skilled technical men of long and successful experience. Our Station personnel you will find alert and obliging. Their expert advice and service is available to owner. They are highly paid, loyal men, working under ideal conditions in a building specially designed for the climate and the work. Their efforts are guided by one ideal—to give the finest service humanly possible, for the particular high grade of work and craftsmanship for which they are rapidly and deservedly becoming famous.

KENNEL NOTES
Margaret Collyer

My dog kept going in when all her kennelmates in connection with 'Lizard' were dead, and certainly not because she was a 'Lizard'.

The 'Red dog' (Irish Terrier) was being introduced into the kennel from the 'Lizard'...

A wonderful dog they are, small as they are, they are so full of life...

My mother's side of the family, I am sure, is a very good kennel...

But I can't go with me all the time, he has to go to school...

It is a very good kennel, I am sure, and I am sure it will be a very good kennel...

PETROL STORAGE AT MACHAKOS.
 Mr. J. P. Finlay (Indian Commissioner) has been notified by the Government that the Government will not accept responsibility for the storage of petrol at Machakos.

Don't be a Slave to LUMBAGO
 Make your back strong and healthy. The first sign of back trouble is aching in the lower back. It is caused by the muscles of the back becoming weak and stiff. This is due to the fact that the muscles of the back are not used enough. The muscles of the back are the muscles that support the weight of the body. If they become weak, the spine will curve and the back will ache. This is the first sign of lumbago. It is a very common ailment, and it can be cured by the use of the "Don't be a Slave to Lumbago" medicine. This medicine will strengthen the muscles of the back and make them supple and healthy. It will also relieve the pain and stiffness of the back. It is a very effective medicine, and it is the only one that has been found to be so successful. It is the only one that has been found to be so successful. It is the only one that has been found to be so successful.
