NATIVE INDUSTRIAL EXHIBITION.
KARAKA'S FORWARD POLICY.

On Friday the 27th the new hall and class room of the Homa High School was duly opened by Mrs. Henslie, wife of the Medical Officer of the District, in presence of the Karaka Assembly and the chief and a number of European visitors.
 Mr. Henslie delivered a speech in English impressing upon those present that education was the key to all progress, and aimed by offering silver medals for competition amongst the pupils next term.
 Afterwards the Karaka followed with an excellent speech in which he praised home the Father's remarks.

Mrs. Henslie then declared the building opened and wished the work all properly and success for the future, and closed by expressing the hope that more educational efforts should be started.
 The Rev. A. D. Fisher was given in attendance that only a small side of the 250 remained on the building, which was returned by a present of £10 from female present.

In the first week in the New Year Homa had its first Native Exhibition. For months past the Karaka and his chiefs were collecting exhibits of all kinds, and when placed on view large crowds they made a very remarkable show reflecting the highest credit upon all his helpers. Visitors found it difficult to believe that the whole thing was done by natives. Mr. Gray Eden, the Provincial Commissioner, accompanied by Mr. Anderson the District Commissioner and Mr. Henry from Maseri, opened the exhibition on January 21st, in the presence of the Karaka and his chiefs, all the Homa missionaries and thousands of natives. Every industry of the country was well represented in a number of well chosen and it was most interesting to see how the different things were made.

The ancient regulations of the first time displayed poultry and several great exhibits amongst the Homa's most of whom had never seen a "carriage thing".
 Inside the exhibits and the regularity the Karaka had arranged for a series of small representing old customs now dead in the country and instruction of all.
 The Karaka hopes to have an exhibition next year so as to encourage industry in the country.

Personal interrogations. Stewart's Frank Answers.

CONTENTION OF DEFENCE

Leipzig, Feb. 9. Bertand Stewart, charged with espionage, was asked and responded as he answered freely and unhesitatingly a prolonged and singular interrogation as to his means, his relations and his equipment. He said he had £12,000 a year and a private fortune of £120,000 and a membership but he knew nothing of naval affairs. When the judge said that every German who knew that communications were attached to the navy, he congratulated the German upon exhibiting their civilization better than Britain and expressed a strong desire to fight for the German Empire.

Leipzig, Feb. 9. Bertand Stewart is charged with seeking to obtain information of the German part of which he admits having tried to get but the defence contends that the proceedings were not secret therefore the attempt to obtain it was not an offence.
