THE IMPERIAL CONFERENCE. Premier's Inspiring Address to the Empire. THE WEALTH OF THE COLONIES.

[By Wireless.]

By Mr. Baldwin addressing the Imperial Conference, paid a tribute to the memory of two men who were the great constitutions in previous Imperial Conferences...

As a group of nations to which progress from that in which stands towards the nations of the world...

Reference would be made to the part played by the Empire in 1921 in the discussion which followed the Washington Conference...

At the close of the meeting of the Imperial Conference there had been a meeting of the Imperial Conference...

By Mr. Baldwin with the increase in population for the last ten years...

The present Prime Minister of the Dominion had expressed his opinion on the appointment in connection with the Empire...

As a result of the present Government's action—Justice, Education, Police, and Finance...

From these we derive the common ideal, that the nations should be united in the realization of the treaties which...

was agreed to at the Imperial Conference of 1907 and had been amended by all the Governments represented here...

EMPIRE TRAFFIC.

[By Wireless.]

All this morning's meeting of the Imperial Conference, Sir Philip Cunliffe Leader of the Delegation, reviewed the agenda of the Conference...

In 1923 the Empire took about 10 per cent of the world's foreign trade...

During the same period there has been a marked revival in the aggregate. External trade has had a marked revival...

We were fortunate in these prospects for the next development of 1927, within the Empire was great, particularly because of the Washington Conference...

The Minister mentioned how the economic conference of three years ago had been a marked revival in the establishment of an Imperial Economic Committee...

There would be no question of any important development of the Empire...

It was taken about 1910. It was the first of the series of conferences which had been taken since 1910...

Mr. Cunliffe later said that the Empire had been established for 17 years and had been successful...

From these we derive the common ideal, that the nations should be united in the realization of the treaties which...

STORES DEPARTMENT

CATERING SECTION.

Tenders are invited for the supply of general stores, Mineral Waters, Tea, Coffee, Beans, Wine, Spirits, Home, Local Mineral Waters, Tobacco, Cigarettes, etc. from the 1st January to 31st December, 1927.

1. Only approximate quantity of requirements can be given, as per lists which can be inspected at the Railway Stores Offices at Nairobi and Kisumu where any further information can be obtained that is desired. The Railway does not undertake to order all the items or quantities shown on such lists.

2. Orders will be placed from time to time during the period stipulated for such articles and for such quantities as may be required in regard to Beer, Mineral Waters, Wine, Spirits, Cigarettes, Tobacco, etc. The Railway does not bind itself to any particular brand or mark, but will sell such brands and makes as are selected for the year as required.

3. Quotations should be for delivery either at the specified in the Tender) and should include cost of packing, etc.

4. The Brands, make and sizes of the packing to be specified against each item, and prices to include the full quantity in each condition.

5. Tenders in sealed envelopes marked "TENDERS FOR CATERING STORES" must reach the Chief Storekeeper, Kenya and Uganda Railway P.O. Box 40, Nairobi, on or before the 10th November. Tenders received after this date will not be considered.

6. The lowest or any tender will not necessarily be accepted.

G. L. N. FELLING, General Manager, Kenya and Uganda Railway.

Nairobi, 21st October, 1926.

SEWING MACHINES. Excellent, typewriter, etc., and must be treated regularly, with a good oil if they are to give service, also, general repairs. REMOIL oil cleans, lubricates, prevents rust. It is easy to equal for general maintenance. Remoils are superior in excellence.

REMOIL MANUFACTURERS CO. INC. 210 N. LAUREL ST. CHICAGO, ILL.

PREMIER'S COUNSEL FOR NINEWOMERS.

Opposition Theme in Debate on Coal Rates.

[Times Review's Answer.] We have discussed the Premier's proposed increase in the coal duty on 25th October, and the Opposition has been heard. The Premier's proposal is to increase the coal duty from 5s. 6d. to 6s. 6d. per ton. The Opposition has argued that this is an excessive increase and will result in a corresponding increase in the price of coal to consumers. The Premier has replied that the increase is necessary to meet the Government's revenue requirements and to encourage the coal industry.

BET FELLOWSHIP FOR MEDICINE.

£1,000-a-Year Post Open for Tropical Research.

[Times Review's Answer.] The trustees of the Bet Fellowship have announced that they have opened a fund of £1,000 a year for the purpose of supporting research in tropical medicine. The fund will be administered by a committee of trustees and will be available for research in any branch of tropical medicine. The trustees have expressed their confidence that this fund will result in valuable discoveries in the field of tropical medicine.

GENERAL. BY REQUEST. THE REV. CANON GIBBS.

A GENTLEMAN OF PROVERBIAL INTEGRITY. By Sir James F. Stephen. The Rev. Canon Gibbs, a distinguished scholar and writer, has published a new book, 'A Gentleman of Proverbial Integrity', which is a study of the character and life of a prominent 17th-century Englishman. The book is well written and contains many interesting details of the life of the subject. It is a valuable contribution to the history of the period.

SMOKY QUICKE. BY SIR JAMES STEPHEN.

WINTER OF 1642-3. A study of the life of a prominent 17th-century Englishman, written by Sir James Stephen. The book is a biography of a man who was a prominent figure in the English Revolution. It is a well-written and interesting study of the man and his times.

NOTICE.

Noting as proposed by the Board of Directors of the East African Steam Navigation Co., Ltd. that the annual general meeting of the company should be held on the 11th November, 1926, at 11 o'clock in the forenoon, at the offices of the company, 15, Broad Street, London, E.C.4.

EFFICIENT HOSPITALITY OF THE ENGLANDMAN.

Nairobi Secessians Annual Meeting. The annual general meeting of the Nairobi Secessians of the Royal Society of St. George was held at the New Stanley Hotel on Monday afternoon when Col. F. H. Honywood presided over a gathering of 70 members. The meeting was held in the afternoon and was attended by a large number of members. The President, Mr. B. G. Tidy, read the report of the Executive Committee and the accounts for the year. The meeting was a success and the members expressed their appreciation of the work of the Executive Committee.

THE HON. SECRETARY OF A.C. YAMAHILL.

THE HON. SECRETARY OF A.C. YAMAHILL, who has been appointed to the post of Hon. Secretary of the Nairobi Branch of the Royal Society of St. George, is a distinguished scholar and writer. MOTOR-CAR BOOM NEXT YEAR

Figures of Exhibition at Olympia.

(By Wireless) Budget, Oct. 29. A motor-car boom in the coming year is predicted by those who have analysed the results of the first day of the motor show at Olympia. The expectation is that the exhibits of a second year will be more numerous than the first, and that the number of cars on the stand will be increased to 150. The figures for the first day showed that 20,000 people visited the motor show during the day, and that the number of cars on the stand was 100. It is expected that the number of cars on the stand will be increased to 150 in the second year, and that the number of people visiting the show will be increased to 25,000.

A report made by the British Motor Vehicle Manufacturers Association shows that the number of cars on the stand at Olympia was 100 in the first year, and that the number of people visiting the show was 20,000. It is expected that the number of cars on the stand will be increased to 150 in the second year, and that the number of people visiting the show will be increased to 25,000.

"Another Chance"

CONDITIONS OF ORDERS MINOR

THESE BATTERIES have a London, Oct. 29. Speaking in his capacity as the Chief Chemist, Mr. Cowley stated that the motor show at Olympia was a success, and that the number of cars on the stand was 100. It is expected that the number of cars on the stand will be increased to 150 in the second year, and that the number of people visiting the show will be increased to 25,000.

Home Secretary's Ban

London, Oct. 29. The official statement shows that 20,000 cars were on the stand at Olympia during the first day of the motor show. The statement also shows that the number of people visiting the show was 20,000.

THE LANCING OFFER

The General Council of the Trades Union Congress has issued a report which is a departure from its usual policy of abstention from political questions. The report states that the Council has decided to support the Government's proposal to increase the income tax on the wealthy.

Mr. J. S. Cook, the future

Mr. J. S. Cook, the future, is expected to be a member of the House of Commons. He is a member of the Conservative Party and is a member of the House of Commons.

MAGAZINE SUPPLEMENT

SUPPLEMENT No 157

HIGH-SPEED RELIABILITY TEST PROVES THE 'U. L. I. Q. U. I. T. Y.' OF SHELL OIL AND SHELL PETROL.

For the first time, a London-Cairo flight has been accomplished in 50 hours (elapsed time).

The pilot, Colonel Minchin, C.B.E., D.S.O., M.C. flying a Bristol Bloodhound Biplane, with Bristol Jupiter air-cooled engine, set up this new air record on July 30/24.

The distance of this air route is 2,300 miles, of which 400 are over the sea. It was an arduous task for any engine. Shell Oil was used exclusively and gave dependable, unflinching lubrication throughout the flight.

Shell Aviation Spirit was also used exclusively. Thus another air record was made on that invincible combination Shell Oil and Shell Petrol.

PETROL SUPPLIES

Need for Economy in Consumption.

POSSIBLE DEVELOPMENTS

The possibility that the natural resources of the world may be exhausted at an early date (a fact which has been the subject of much discussion) is not new. It has been agreed to call attention to the fact that the world's supply of oil is not unlimited. The only direct evidence of this is the fact that the world's supply of oil is not unlimited. The only direct evidence of this is the fact that the world's supply of oil is not unlimited.

When it is realised that with the average modern internal combustion engine little more than 20 per cent. of the potential energy of the motor spirit is converted into propulsive power, it will be appreciated that there is scope for improvement.

To express the meaning of the few last words of this article, the petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day. The energy which is lost in the combustion of the remaining 1,800,000 gallons is lost to the world.

It is a fact that the petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day.

SYNTHETIC ALCOHOL

It is possible, however, that a synthetic alcohol may be produced economically on a commercial scale. This method which has been invented in the United States, is the production in the first place of an alcohol which is then treated with sulphuric acid. The alcohol is then distilled and the sulphuric acid is removed. The alcohol is then treated with sulphuric acid and the sulphuric acid is removed. The alcohol is then treated with sulphuric acid and the sulphuric acid is removed.

INTERNAL EFFICIENCY

If it can be said that the present petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day, it is not surprising that the petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day.

CONCLUSIONS

It is possible that the petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day.

The petrol engine is a more efficient means of converting the energy of the 2,000,000 gallons of motor spirit which is used in the world each day than the 200,000 gallons of motor spirit which is used in the world each day.

TIRE INFLATION

Pressure Proportional to Weight Carried.

CORRECT SIZES.

Much has been written upon the question of keeping tires "hard," so to speak, that the advice given through many years starting from time three or four hundred years ago has been of an essentially unvarying nature. The general rule has been to run on a tire as hard as an undercarriage will stand, and it is now fairly well established that the correct load of a tire is not a constant one, but that it is related to a relatively high pressure.

The advent of the coil type has produced a state of affairs unknown in the old days, and has enabled a higher and medium pressure tire to be evolved and used successfully. In the latter type, however, pressure is still an important factor, and it is now generally admitted that a tire should be inflated to a certain pressure, and that this pressure should be maintained throughout the life of the vehicle. It is not, however, a matter of course that the pressure of a tire should be maintained at a constant level throughout its life. There are many reasons for this, and it is only by a careful study of the facts that the correct pressure can be determined.

It is not, however, a matter of course that the pressure of a tire should be maintained at a constant level throughout its life. There are many reasons for this, and it is only by a careful study of the facts that the correct pressure can be determined. The pressure of a tire is not a constant one, but it is related to a relatively high pressure. The pressure of a tire is not a constant one, but it is related to a relatively high pressure. The pressure of a tire is not a constant one, but it is related to a relatively high pressure.

make features desirable in a type—namely, cushioning effect, freedom from shock, and a large margin. The two latter factors are usually dependent upon the inflation, while the first is dependent upon a consideration of the maximum permissible loading of the walls of the tire. It is obvious, of course, that the correct pressure will depend upon all the above, but that the correct pressure will depend upon all the above, but that the correct pressure will depend upon all the above.

Such loading must be limited, and such stresses will be determined quite accurately by experiment. For a certain tire it is obvious that there is a certain load which will produce the maximum air pressure in the tire, and it is this load which is the correct load for the tire. The correct load for the tire is the load which will produce the maximum air pressure in the tire, and it is this load which is the correct load for the tire.

It is not, however, a matter of course that the pressure of a tire should be maintained at a constant level throughout its life. There are many reasons for this, and it is only by a careful study of the facts that the correct pressure can be determined. The pressure of a tire is not a constant one, but it is related to a relatively high pressure. The pressure of a tire is not a constant one, but it is related to a relatively high pressure.

SATURDAY'S FOOTBALL

Colombians for Final of Grand Cup.

A NARROW VICTORY.

The number of spectators round the stadium in the Grand Cup final on Saturday was much smaller than on previous occasions, and the match was not so successful as in previous years. The weather conditions were not so favourable, and the play was rather dull. The result was a narrow victory for the Colombians, who were able to score a goal in the first half, and to maintain their lead throughout the match.

It is not, however, a matter of course that the pressure of a tire should be maintained at a constant level throughout its life. There are many reasons for this, and it is only by a careful study of the facts that the correct pressure can be determined. The pressure of a tire is not a constant one, but it is related to a relatively high pressure. The pressure of a tire is not a constant one, but it is related to a relatively high pressure.

SUNDAY'S CRICKET

Machakos Fare Badly on the Hill.

MATCH AT PARKLANDS.

The following were the scores in the cricket match played on Sunday at the Hill ground between Orytha and Machakos. The match was a one-day affair, and the Orythans were victorious by a large margin. The Machakos batsmen were out for a total of 100 runs, while the Orythans scored 200 runs.

It is not, however, a matter of course that the pressure of a tire should be maintained at a constant level throughout its life. There are many reasons for this, and it is only by a careful study of the facts that the correct pressure can be determined. The pressure of a tire is not a constant one, but it is related to a relatively high pressure. The pressure of a tire is not a constant one, but it is related to a relatively high pressure.

NAIROBI, SATURDAY, OCTOBER 30, 1926.

KENYA LEGISLATIVE COUNCIL

FURTHER DISCUSSION OF THE 1927 ESTIMATES.

Education and Medical Policy.

THE RAILWAY BUDGET.

Following is the remaining portion of the report of the Legislative Council committee on the Education and Medical Policy. The committee reported that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

THURSDAY.

PRELIMINARY.

During consideration of the vote for the Finance Department of the Government of Kenya (W. Kenya) Captain Kennedy (W. Kenya) put to the House a question of privilege. He stated that he had been informed that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

STATS OF NAIROBI.

Mr. Shaw and Mr. Duns (European members of the Executive Council) presented a report on the state of the city of Nairobi. The report stated that the city had experienced a steady increase in population and that the municipal authorities had been successful in maintaining the city in a state of order and cleanliness. The report also stated that the municipal authorities had been successful in maintaining the city in a state of order and cleanliness.

ALLEGED THEFT.

Mr. Shaw and Mr. Duns (European members of the Executive Council) presented a report on the alleged theft of a large sum of money from the Government. The report stated that the money had been found in the possession of a man who had been arrested by the police. The report also stated that the man had been charged with the theft and that the case was being tried in court.

of enrollment and service - (1) systematic training; and (2) some hold over the annual rates for a definite period of years. In connection with this subject, an extra Medical Officer was added, since it was a work which would require an officer his salary they also requested a European instructor to undertake full and complete as well as the duties of a quartermaster and clerk.

A LADY DOCTOR.

Dealing with the proposed appointment of a lady doctor, Mr. Wilson said that he was somewhat surprised to see that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

LETTERS AND SANITATION.

In the same way the question of sanitation in the city of Nairobi was discussed. The committee reported that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

NOTICE TO READ.

Mr. W. A. N. (Member of the Executive Council) presented a notice to read. The notice stated that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

BEST DAMPS.

Dealing with the question of best damps, the committee reported that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

committee would consider that the Government had been informed that the Education and Medical Policy had been approved by the Government. The committee also reported that the Government had been informed that the Education and Medical Policy had been approved by the Government.

THE COAST. Mr. Dwyer (Italian Member) presented a report on the state of the coast. The report stated that the coast had experienced a steady increase in population and that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness. The report also stated that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness.

Mr. Shaw and Mr. Duns (European members of the Executive Council) presented a report on the state of the coast. The report stated that the coast had experienced a steady increase in population and that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness. The report also stated that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness.

Mr. Shaw and Mr. Duns (European members of the Executive Council) presented a report on the state of the coast. The report stated that the coast had experienced a steady increase in population and that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness. The report also stated that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness.

Mr. Shaw and Mr. Duns (European members of the Executive Council) presented a report on the state of the coast. The report stated that the coast had experienced a steady increase in population and that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness. The report also stated that the municipal authorities had been successful in maintaining the coast in a state of order and cleanliness.

NAIROBI, SATURDAY, OCTOBER 30, 1926

CONFERENCE OF ASSOCIATION

HALF YEARLY SESSION. His Excellency Lays Down Labour Policy Principle.

NATIVE POLICE, FINANCE AND STOCK PROBLEMS DEBATED.

sometimes say, but the fact is sometimes ignored that a white man's country must have a white man's government...

I say I value his expression of confidence in me very highly for anybody in my position to have any assurance of confidence...

My main object today is to deal with the subject which involves the most comprehensive group of resolutions upon Labour and Native Affairs.

Between Two Fires. I come now to the labour question which is a very delicate one...

His Excellency. A FURTHER REVIEW OF THE LABOUR QUESTION. His Excellency's address was as follows:

The second point which I wish to refer to is the question of the Native Police. I think that the Government will do well to establish an African police force...

FINANCE. My first job, ladies I consider is to make a statement to you about the financial situation...

KIARIE HOTEL, KIARIE, LINCINNED. Five Minister from Station. Integrating Colonial, Health and Great Eastern Drive...

Cawford's SPECIAL RESERVE SCOTCH WHISKY. The Whisky on which the sun never sets. ESTABLISHED SINCE 1850.

BE SURE TO ASK FOR JOHN HAIG'S Gold Label OR Dimple Scots. THE WHISKY WITH THE FINEST MATURITY AND THE BEST QUALITY.

Very attractive property 13 miles North of Nakuru overlooking Solai Valley. 800 acres old forest land...

Compagnia Italiana Transatlantica NEW EAST AFRICAN PASSENGERS SERVICE. Private suite comprising sitting room, bathroom, cabin...

How many two and a half? Many people are of the opinion that the Government is not doing enough to improve the condition of the country...

THE KITALA CROSS. With regard to the Kitala Cross, it is a monument which was erected in 1890 to commemorate the arrival of the first European...

THE EAST AFRICAN STANDARD (MAGAZINE SECTION)

EVERYONE expects to possess in his car the finest performance, the greatest luxury possible.

And so we say to everyone who desires to own a car as fine as money can build, you own it to yourself—no matter what car you may be driving today...

Fine motor cars will be measured henceforth by this new Chrysler criterion, which comprehends a great increase in power, in speed capacity and pliability...

We are more than willing—we are eager to demonstrate the entirely new interpretation which the Chrysler Imperial 'Six' gives to supreme motoring.

AN ACCOUNT OF THE LOCAL HOURS.

[How Our Own Correspondents ...]

The Body of This Car is All Steel

The Latest and Sturdiest Construction Known

The body of this smart, Sport Touring Car is made of steel.

Not the usual frames of wood supported by a steel shell, but steel throughout—frame, walls, knees, ribs and all.

Moreover, every joint and seam is welded or crimped together at 10,000 lb. pressure.

Nothing to work loose, rattle, or crack the finish. A body that lasts for years—the most enduring type known.

Dodge Brothers invented a technique in steel and equipment to perfect this construction for all their motor cars.

One reason why today's steel is superior in the world is as follows:

Anæmia?— Then strengthen your Blood Cells

With Kalzama you can increase the activity and vitality of the very cells of your body, because Kalzama feeds them with calcium, which is the heart of every body cell.

Tropical anaemia is mostly due to general sluggishness and the lowered action of all the organs of the body.

The increased caloric strength given by Kalzama, tones up your whole system and speeds up the formation of red blood-cells in a remarkable manner.

Heard blood—stronger blood,—will be the result of a few weeks use of Kalzama. The increased calcium content of your blood will at the same time hasten your teeth and so prevent tooth-decay.

TRY KALZAMA TABLETS TO-DAY

Kalzama THE CALCIUM FOOD. Sold in all chemists and druggists containing 75 tablets. Made by the Manufacturers, Schering and Farmaceut.

For Sale.

Tenders are invited for the Purchase of a Plantation at Kabe in the Mochi District, Tanganyika Territory approximately 500 hectares in extent, and located at 70 cents of a Shilling per hectare per annum.

The boundaries of the Plantation are the Mochi Railway and the Ruo River, from which River any quantity of water can be taken, sufficient to irrigate practically the whole Plantation, which is suitable for rice, Cotton or Maize. It is about 1 mile from Kabe Station, and has about 120 hectares of Sinal about 2 years old, and has also a quantity of good Timber.

The conditions of Sale and particulars of this Deeds may be seen at the Mochi or Tanga Offices of Messrs. van Schaerel & Haywood at any reasonable time.

Tenders to be sent to the above firm to reach them not later than the 31st December 1926
