NAIROBI RACES.
Another Large Attendance at the Course.

DOVDEALE WINS THE E.A. STANDARD CUP.

A Great Performance by Capt. S. Tryon's "Assam."

There was even a larger gathering of race fans at the Nairobi race course on Saturday, than on the first day of the meeting. The track of the day was rather unfavorable but, although the race conditions were not so delightful as yesterday.

There was little outstanding interest in regard to the races of the day, the only horse winning being essentially a favorite on account of his name, winning standing outside of the meeting, several races, in which Capt. S. Tryon's "Assam" a two-year-old foal, led the three-year-olds over the four-furlong course in 62.15 seconds.

Of the winning entries, Major H. F. Webb was the only owner to indicate the odds, Mr. C. Ross, owner, who had a good day in being three winners.

The following were the detailed results of the races:

First Race.
COURT HURDLE CUP 2 miles.
Major H. F. Webb's "Assam," 10/1 (Mr. Ross).

The post had 11/2 for web, 11/2 for bate.
The race was a very close one, the two horses being neck and neck until the last furlong, when "Assam" pulled away to win by a length.

The Pathfinder

INTO the unknown — through tangled thorn scrub — across the rock strewn wastes of the Northern Frontier, Marlin Johnson has driven his fleet of motor cars in quest of photographic studies of African game animals.

On account of the ravages of thorns and rocks on tyre equipment, camel caravans were at first necessary in order to penetrate certain districts.

Finally Goodyear Heavy Duty Cords were suggested and tried out with overwhelming success. The old camel transport was discarded, and miles and miles of these remote areas were covered in motor car with ease and with an entire absence of tyre trouble. It is gratifying to feel that Goodyear tyre equipment has contributed to the realization of a long cherished dream of this world famous photographer.

Research into Native Welfare.

A LABOUR MEMBER'S
QUESTION IN THE COMMONS

Mr. BENNE BOWEN (Labour Party) asked the Secretary of State for the Colonies in the House of Commons recently if a copy of the reply of the Governor of Kenya to the subject of research into Native Welfare and a proposal that a special Commission be appointed to investigate the same, if it can apply to other territories under British rule.

He would like to write a letter to the Secretary of State on the 24th of February in the House of Commons, in the direction of the Secretary of State, in which he would state that such a proposal should be undertaken. As his suggestions on this subject, it would be premature for him to make any definite statement.

He would like to ask the Secretary of State for the Colonies if he has any information on the research in the regions of the East African Protectorates. He would also like to know based on the further information furnished in paragraph 10 of that Report?

This beats everything!

So says the man who has just used little shaving cream for the first time. He says he feels his beard will abide it like a bird. But it's more than a bird that is the finest shave we record. (Make your own shave) and a soft smooth shave—don't use any other shaving-cream but Gillette's shaving-cream.

Where some makers hold together and then fall apart, Gillette's is one that stays together and is not sticky.

Where other shaves are too wet, too thick, or too dry on the face, but this Gillette's is the best of the best. It's the only shaving-cream that will give you the best of both worlds—a soft smooth shave and a clean, cool, and comfortable shave.

MOTORING TOPICS

OIL CAUSES

Many Wrong Impressions Exist.

WHAT THEY TELL US.

The question of oil pressure as shown on the indicator gauge is one of considerable interest to the motorist, but although lack of proper information, many wrong impressions exist at the present time. The following will clear up many misunderstandings and explain correct principles.

A large proportion of practitioners come equipped with fairly simple systems of lubrication, and the interests of both driver and motorist are that the engine should be thoroughly lubricated.

In the fore foot system of lubrication there is a constantly moving piston in the crank web in the shape of a T, fitting in the water jacket.

WHAT THE OIL GAUGE REVEALS.

What actually does the oil gauge reveal? Let us analyze. In the fore foot system of the oil gauge is connected to one of the distributing oil pipes leading from the pump, and the pressure register on the gauge shows the pressure in oil flow.

The Pacific

INTO the unknown - through tangled thorn scrub - across the rock strewn wastes of the Northern Frontier, Martin Johnson has driven his fleet of motor cars in quest of photographic studies of African game animals.

Finally Goodyear Heavy Duty Cords were suggested and tried out with overwhelming success. The old camel transport was discarded, and miles and miles of these remote areas were covered in motor car with ease and with an entire absence of tyre trouble.

On account of the ravages of thorns and rocks on tyre equipment, camel caravans were at first necessary in order to penetrate certain districts.

It is gratifying to feel that Goodyear Tyre equipment has contributed to the realization of a long cherished dream of this world famous photographer.
