

## Nine Great American Racing Stars *buy* The Greatest **BUICK** Ever Built

Within thirty days after its introduction, the Greatest Buick Ever Built received one of the greatest tributes ever paid a motor car.

Nine internationally famous A. A. A. speed-ways stars singled it out above all other cars for their personal use and for their families. Some of these men are graduate engineers. Others are veteran automobile designers. All of them know motor cars—probably as no other group of nine men in the world.

They have learned the vital necessity of fine engineering, rugged construction and brakes that never fail. They know

the importance of stamina and riding comfort. They instantly recognize those qualities of performance that lift a car above the commonplace.

Almost daily they drive the costliest types of hand-constructed automobiles being built today—yet read what they say about the new Buick and why they chose it for themselves!

Here is expert opinion on those qualities of vibrationless performance, efficient operation, handling safety and brilliant beauty, which stamp the Greatest Buick Ever Built as the greatest motor car value ever offered.

**Paul Du Rocher**  
"The new Buick is a splendid value for the money. It is a car that will give you the most pleasure and the most protection for your money."

**Raymond Hill**  
"The Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Bob McChesney**  
"I think I could give the most expert opinion on the new Buick because I have driven it for a long time and I know it is a car that will give you the most pleasure and the most protection for your money."

**Elmer Lewis**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Paul Connor**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Frank Miller**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Earl Cooper**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Cliff Woodbury**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

**Frank Lockhart**  
"The new Buick is a fine car and one that I would recommend to anyone who is looking for a car that will give you the most pleasure and the most protection for your money."

Apply - M. E. D'SOUZA & Co., P. O. Box 182, Government Road, NAIKURU.

and definition of the crankshaft and the crankcase of engine engine.

However, a considerable flexibility, on a motor having a large displacement, a large volume of air is drawn into the cylinder, which is a function of the speed. This is the reason why the engine of a General Motors automobile, which uses the power impulses which are not so frequent as those of a motor of the same displacement, is not so noisy as the latter.

**LIGHTER TIGHTENING.**  
The solid wedge of the set screw is a new feature of the Buick model. This notable device is designed to prevent the set screw from loosening and to prevent the set screw from loosening.

**VALVES AND CAMS.**  
Quiet valve operation through the use of a modification of the design of the valve stem, which is a function of the speed. This is the reason why the engine of a General Motors automobile, which uses the power impulses which are not so frequent as those of a motor of the same displacement, is not so noisy as the latter.

**STEEL ON MANIFOLDS.**  
Extra studs also have been used on the manifold on both sides of the engine. This is the reason why the engine of a General Motors automobile, which uses the power impulses which are not so frequent as those of a motor of the same displacement, is not so noisy as the latter.

**STIFFER ENGINE SECTION.**  
A stiffer engine section has been used on the manifold on both sides of the engine. This is the reason why the engine of a General Motors automobile, which uses the power impulses which are not so frequent as those of a motor of the same displacement, is not so noisy as the latter.

## Always Dependable In the World's Rough Places

Where motor car dependability is most vital Dodge Brothers Motor Cars are most highly prized. These cars maintain regular schedules over the roughest wastes of Mesopotamia, the desert to Baghdad and a thousand other places too severe for cars less sturdy.

Many Dodge Brothers Motor Cars have travelled more than 200,000 miles each. One hundred thousand mile records are common. Of the 1,600,000 Dodge Cars manufactured in the last 11 years, over 90% are still in use.

## THE NEW LIGHTER SIX CHRYSLER "60"

No Comparison is Possible

Your own eyes and ears will tell you, a demonstration will prove to you—should you attempt to compare the Chrysler "60" with the ordinary light six—that comparison is out of the question.

So inimitable is its departure from ordinary six performance standards—in smoothness of operation, in roadability and riding comfort, in pliability of power, in response to steering wheel and throttle—you cannot fail to characterize the Chrysler "60" as other than unique in its field.

Chassis £215. Touring £375. Roadster £385. Coach £485.

### THE EAST AFRICAN STANDARD

Monday, Jan 9, 1927

#### The First Week.

The Legislative Council of the Colony will be assembled on Monday, 10th inst., for the first time since the commencement of the present session. The Council will meet at 10 o'clock in the forenoon at the Government Buildings, Nairobi. The first business of the Council will be the election of a Speaker and a Deputy Speaker. It is expected that the Council will discuss the various bills introduced during the session, and will also consider the report of the Commission of Enquiry into the Administration of the Colony.

Members will seek a reduction of the tax on land, but they will find opposition in the fact that the minimum duty has been fixed. Underwriters are at work in service and other cases and there is no reason to doubt that very complete work will be done. It is expected to be a busy session. The Government has a number of bills to introduce, and it is expected that the Council will discuss the various bills introduced during the session, and will also consider the report of the Commission of Enquiry into the Administration of the Colony.

Members of the public when we consider that the time is opportune and fairly, over for the first time. The European Chamber of Commerce has a number of bills to introduce, and it is expected that the Council will discuss the various bills introduced during the session, and will also consider the report of the Commission of Enquiry into the Administration of the Colony.

## UGANDA NOTES.

### Cotton Contracts at High Prices.

PORTENTS WITH NAIROBI

RAMPAJA, Jan. 15.

A happy hope that the weather will bring good results and good prices during 1931.

The Eastern District at Kampala (the New York area) was a great success. The cotton was good and the prices were very good indeed. There was an upward trend in a number of a money market or fair sale and it seemed that every transaction was a success of some degree.

representative commission decided with the British and the British Cotton Association. It is a good thing that the British Cotton Association and of course there was also a vote in the market. At all times a good price was struck. The cotton was good and the prices were very good indeed. There was an upward trend in a number of a money market or fair sale and it seemed that every transaction was a success of some degree.

NAIROBI VISITOR.

The representative of the Nairobi Gymkhana has been playing polo on the grounds of the Uganda Hotel during the past week. The results of the matches show that the Kenia was every event but one.

It is a pleasure to hear that the Kenia has had a very successful season in the polo field. The Kenia has had a very successful season in the polo field. The Kenia has had a very successful season in the polo field. The Kenia has had a very successful season in the polo field.

### THE COTTING SEASON.

NAIROBI, Jan. 15.

The cotton season is now in full swing. The weather is very good and the prices are high. The cotton is being planted in large quantities and the results are very good indeed.

## WHAT IS CARBO-LASTIC?

Carbo-Lastic is a resin impregnated roofing which can be easily spread over roofs or other surfaces to any thickness desired forming a membrane that is impervious, permanent, elastic, and stands up to all weather conditions. It is waterproof, and will stand good, non-porous, adhesive, elastic, heat resisting, fire resistant, non-toxic, non-staining, durable, quick drying.

Carbo-Lastic can be used for fresh water tanks, batteries, roofs of vessels, tramways, motor houses, partitions, floating docks, tanks, fountains, etc. It is made in black, red, green, and grey colours.

Carbo-Lastic is made in black, red, green, and grey colours. Carbo-Lastic is stocked by J. G. Adams Ltd., Nairobi, from whom particulars and prices can be obtained on application.

APPEAL TO AMATEURS

**"E.A. Standard" Special.**

Nothing is certain but death and Hell Death and Hell are full of certainties.

With the new year, and its attendant pleasures, or the dullness of the winter months, it is the responsibility of the responsible citizen to contribute to the maintenance of the State, and with a view to an increasing capacity which each European has to bear in this regard, the "E.A. Standard" presents to the citizen the following list:

The two principal taxes are the Income Tax and the Property Tax.

The Income Tax falls on the total income of the citizen, and is payable for any year on any 12 months period. The rate varies from 12 per cent for any year under the limit of £100 to 40 per cent for any year over £100.

The Property Tax falls on the value of the property, and is payable for any year on any 12 months period. The rate varies from 1 per cent for any property valued at less than £100 to 5 per cent for any property valued at more than £100.

The Citizen can choose to pay the tax in one lump sum, or to pay it in 12 monthly instalments, and for 6 months in the latter case he can have the benefit of a 10 per cent discount.

It is pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

It is also pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

**How the Board Policy is Applied in Tanzania.**

It is pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

It is also pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

**How the Board Policy is Applied in Tanzania.**

It is pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

It is also pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

**Congratulations from the King and Viceroy.**

It is pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

It is also pointed out that a citizen who is unable to pay his tax, or who is unable to pay his tax in instalments, may apply to the Collector for a loan, and that the interest on such a loan is at the rate of 12 per cent.

# Nine Great American Racing Stars *buy* The Greatest **BUICK** Ever Built

Within thirty days after its introduction, the Greatest Buick Ever Built received one of the greatest tributes ever paid a motor car.

Nine internationally famous A. A. A. speedway stars singled it out above all other cars for their personal use and for their families!

Some of these men are graduate engineers. Others are veteran automobile designers. All of them know motor cars—probably as no other group of nine men in the world.

They have learned the vital necessity of fine engineering, rugged construction and brakes that never fail. They know

the importance of stamina and riding comfort. They instantly recognize those qualities of performance that lift a car above the commonplace.

Almost daily they drive the costless types of hand-constructed automobiles being built today—yet read what they say about the new Buick and why they chose it for themselves!

Here, is expert opinion on those qualities of vibrationless performance, efficient operation, handling safety and brilliant beauty, which stamp the Greatest Buick Ever Built as the greatest motor car value ever offered.

**Paul De Paolo**  
Paul De Paolo, a graduate engineer, has won many international races and is one of the most successful drivers in the world.

Who says the man who has just shaved is clean-shaven? Over for the first time. He didn't feel his beard. He says he has the secret of shaving cream as a whole. It is Gillette's shaving cream. It is Shaving Cream, the cream of shavers—a heavy, lathering soap with delicate odor cream.

Where some lathers lather, he bubbles and froths. And that water is held to the head.

**MOTURING TOPICS**

**NEW BUICK MODELS.**  
Descriptions of the 1927 Cars.

**SEVEN OUTSTANDING FEATURES.**  
(Continued from yesterday.)

**CROSS MEMBERS.**  
A cross member has been added to frame directly back of the rear engine support, increasing the rigidity of the already rigid frame and preventing any possible flexing of the frame at the point of the engine on the rear axle.

**Oil Filter.**  
The oil filter, which is part of the new engine, was redesigned, and the new filter which is now used is of the "can" type, which has an area of 500 square inches, which is a great advance that of the filter prior to the 1925 cars.

**Automatic Control of Water Temperature.**  
The radiator cooling system is thermostatically controlled, and the engine temperature at the radiator is kept at the normal 170 degrees Fahrenheit, when the thermostat automatically opens and allows the cooling water to circulate. The temperature of the water is never allowed to drop below 120 degrees, which is above the temperature at which condensation naturally occurs, and the engine never runs at any temperature above 170 degrees.

**Wing Nut on Clutch Pedal.**  
The Buick clutch car, as well as the other Buick cars, is equipped with a hand-operated wing nut on the clutch pedal, which is normally provided to adjust the clutch pedal to the driver's weight.

**Jack Lays on Rear Axle.**  
The rear axle has been provided the rear axle for convenience in repair, and the axle is mounted on the ground when changing tires. The axle is readily accessible.

**Wheeler for the Jack and Utility Features.**  
The Buick car is equipped with a "wheeler" for the jack and utility features.

## THE NEW LIGHTER SIX CHRYSLER "60"

No Comparison is Possible

Your own eyes and ears will tell you, a demonstration will prove to you—should you attempt to compare the Chrysler "60" with the ordinary light six—that comparison is out of the question.

So unimitable is its departure from ordinary six performance standards—in smoothness of operation, in roadability and riding comfort, in pliability of power; in response to steering wheel and throttle—you can't fail to characterize the Chrysler "60" as other than unique in its field.

Chassis £315. Touring £375. Roadster £385. Coach £405.

**The Dual Policy in Tanganyika**

The documents entitled "Agriculture and Labour" which were laid before the Tanganyika Legislative Council of the mandated Territory, impress on interested parties not only that the policy is a dual one, but also that it is a policy which is designed to benefit the African people. The documents are a clear and concise statement of the Government's policy in Tanganyika, and they are a most important contribution to the knowledge of the public. The documents are a clear and concise statement of the Government's policy in Tanganyika, and they are a most important contribution to the knowledge of the public.

random laid down, that "independence" is a goal which is to be achieved by a large and active African population. The Government's policy is to create a dual system, in which the African people are to be given the same rights and opportunities as the European people. The Government's policy is to create a dual system, in which the African people are to be given the same rights and opportunities as the European people.

The Government's policy is to create a dual system, in which the African people are to be given the same rights and opportunities as the European people. ### WHAT IS CARBO-LASTIC?

Carbo-Lastic is a resin liquid substance standing which can be easily forced over rods or other surfaces to say thick films. It is used for the purpose of protecting surfaces from corrosion.

Carbo-Lastic is waterproof, acid and alkali proof, non-poisonous, adhesive, elastic, heat insulating, fire resistant, non-conducting, durable, quick drying.

Carbo-Lastic can be used for fresh water tanks, bathtubs, roofs of vessels, terraces, motor houses, postboxes, floating docks, barge, boats, can, floors, walls, pipes or wood, metal, concrete, impervious roofing, wiring, etc.

Carbo-Lastic is made in black, red, grey, and gray colors. Carbo-Lastic is produced by J. O. Anderson Ltd., Nairobi, from whom particulars and prices can be obtained on application.

## WHEN PUTTING IS EASY.

How the American Goller Saves the Strokes.

### STUDY OF METHODS

It is a well known fact that the American golfer is a very successful one. This is due to the fact that he has adopted a method of putting which is both simple and effective. The American golfer does not use a putting stroke which is a combination of a backswing and a downswing. Instead, he uses a simple, straight, backswing and a straight, downswing. This method is known as the "American method" and it is the reason why the American golfer is so successful.

### BRITISH SATISFACTION

British players speaking at the recent golf congress in London have expressed their satisfaction with the American method of putting. They have noted that the American method is both simple and effective, and that it is the reason why the American golfer is so successful.

### A FINE ART

Putting is a fine art, and it is one that requires a great deal of practice and skill. The American golfer has mastered this art, and it is the reason why he is so successful. The American golfer does not use a putting stroke which is a combination of a backswing and a downswing. Instead, he uses a simple, straight, backswing and a straight, downswing. This method is known as the "American method" and it is the reason why the American golfer is so successful.

## THE AMERICAN GOLFERS' METHOD

The American golfer's method of putting is a simple, straight, backswing and a straight, downswing. This method is known as the "American method" and it is the reason why the American golfer is so successful. The American golfer does not use a putting stroke which is a combination of a backswing and a downswing. Instead, he uses a simple, straight, backswing and a straight, downswing. This method is known as the "American method" and it is the reason why the American golfer is so successful.

## THE NEW LIGHTER SIX CHRYSLER "60"

No Comparison is Possible

Your own eyes and ears will tell you, a demonstration will prove to you—should you attempt to compare the Chrysler "60" with the ordinary light six—that comparison is out of the question.

So unmitigated is its departure from ordinary six performance standards—in smoothness of operation, in formance standards—in smoothness of operation, in roadability and riding comfort, in pliability of power, in response to steering wheel and throttle—you cannot fail to characterize the Chrysler "60" as either unique in its field.

Classiss £315. Touring £375. Roadster £385. Coach £405.

rather than to show the line of the Uganda traffic not only will the Uganda but representing over seven per cent of the total revenue of the Uganda Railway and, actually, by a higher than that any other industry ever produced by this country. The situation will require the most responsible management, and there is much to be gained not only in the present, but for the future, maintenance of the line by the most complete cooperation of the responsible management of the Uganda Railway and by willingness, especially at the moment on the part of the people of Kenya, generally to make the necessary sacrifices. Although the Railway Administration is so closely advised by the conditions which prevail we hope that the shipping companies as the mercenary will realize as he necessarily and immediately the importance of the part they can play in reducing the economic balance to East Africa. Without them all much of the local effort will be in vain.
