A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price.

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed shew the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are MORE THAN DOUBLE those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model — The Greatest Buick Ever Built.

MOTING TOPICS

SLEEVE VALVES.
Probably the Better of the Two Systems.

ADVANTAGES EXPLAINED
Sleeve valve mechanism for internal-combustion engines has been in use for many years, but has not yet attained the popularity of the poppet valve.

DESIRABLE FEATURES
Research workers discovered during the experimental stage that the internal expansion in the engine design was desirable.

CAST IRON SLEEVES
The first sleeves were made from cast iron, consequently they were somewhat heavy.

SLEEVES EXPLAINED
The sleeve valve mechanism for internal-combustion engines has been in use for many years, but has not yet attained the popularity of the poppet valve.

THE maximum revolution that could be attained... During the experimental stage, however, valuable experience was gained on the best method of clearing sleeves in the correct direction.

FEWER PARTS
Comparison of the number of necessary valve parts in the sleeve-valve with those required for the ordinary poppet type affords striking proof of the advance achieved in design and construction.

TO BE LET

Choosing a Shirt
Look what a lot of things there are to be considered. There is the quality, its material, its fit, its quality—above all, perhaps, its future pleasure. No wonder men make mistakes! They are much to be pitied as they pass judgment on choosing a shirt.
The "Consulate" then isn't the shirt you follow you with a general guarantee that it will be the best you can get, and that it has been made and washed and worn again and washed again, and so on.
You buy the "Consulate" shirt whenever you go to a tailor's shop, in connection with a business, or in connection with a workshop, all made by the same skillful hands. You buy the "Consulate" shirt when you buy a shirt.

THE ELECTRIC HARE

New Scheme for Racing Gryphons.

A LONDON GROND

Gryphon racing will see its electric hare scheme made a reality in London probably in the latter part of the year.

The contemplated ground is within five miles of Charing Cross and is intended to provide accommodations for 100,000 persons.

The scheme, as outlined by Colonel Henry Day, M.P., was made known to the public at a London race for the electric hare.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

follows on the latest development of the sport. He writes:

A POPULAR SPORT

Gryphon racing as outlined in American—has changed its character. It is now a sport for the masses.

A representative of the American race which was the parent of the sport in London probably in the latter part of the year.

The contemplated ground is within five miles of Charing Cross and is intended to provide accommodations for 100,000 persons.

The scheme, as outlined by Colonel Henry Day, M.P., was made known to the public at a London race for the electric hare.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

SPOTTING A WINNER.

How the Turf "Trot" Operates.

SPERMADILIT SECRETS

A writer in an English journal has given an interesting account of the operation of the "turf" in London.

The contemplated ground is within five miles of Charing Cross and is intended to provide accommodations for 100,000 persons.

The scheme, as outlined by Colonel Henry Day, M.P., was made known to the public at a London race for the electric hare.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

He is naturally not very keen on a drink in the morning, but on occasions he has been out at almost any time in the morning.

Although there was practically no news on the morning, but it is no news in the morning.

I had a letter one morning about 10 o'clock, and suggested to him that he was looking rather tired, and he said he had been up very early that morning.

The contemplated ground is within five miles of Charing Cross and is intended to provide accommodations for 100,000 persons.

The scheme, as outlined by Colonel Henry Day, M.P., was made known to the public at a London race for the electric hare.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

It is intended to make the best equipped in the world.

It will race well and will be a new and interesting race.

The electric hare will be used in the same way as the horse hare and is intended to make the new track the first of its kind in London.

Whiteaways NAIROBI.

A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price.

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed shew the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are **MORE THAN DOUBLE** those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model—The Greatest Buick Ever Built.

CROSS Power KEROSENE

Pulling Power For Every Tractor

KEROSENE is a power fuel for tractors which has been perfected by Shell petroleum chemists in cooperation with the world's recognized authorities on internal combustion engines.

Being an exceptionally volatile power kerosene, Cross provides complete combustion in tractor delivery the maximum amount of power with low fuel consumption and minimum carbon deposit.

Your tractor will run better and deliver more power on CROSS.

EPHOS. THE FERTILISER.

A consignment of Ephos will be shipped at Kilindini about the 29th March and orders are now being accepted at Shas. 14/- per ton for 15-ton bulk delivered to any station under the control of the Kenya and Uganda Railways. An only a limited quantity will be available. Farmers of Coffee, Wheat, Maize and Cane and those who wish to be able to look their calves before the arrival of the steamer after which the price will be automatically increased as storage, cartage and other charges will be added.

The Manufacture of Ephos is as follows—
 Your virgin soil in Kenya is generally soft, and you will find that your crops are deficient in phosphorus. This is because you have not adequately the state of the soil. Ephos gives you the phosphorus which is necessary to make your soil successfully fertile of all kinds. In one acre you may treat more than 2000 lbs of soil with Ephos. It is a very powerful fertilizer and is made from the best material. It is a very powerful fertilizer and is made from the best material. It is a very powerful fertilizer and is made from the best material.

We have no hesitation in saying that it will last long before Ephos will be the only quality fertilizer which will be used in the country.

MOTORING TOPICS

AMERICAN CARS.

Tendencies Regarding Construction.

CONTINGENT DESIGNS.

Some of the most interesting points in the study of designs for the different types of cars are the differences adopted in the construction of the chassis and the engine. These differences are very obvious, and are the result of the conditions in which they are used in each country, as well as by the fact that motorists of different nationalities have different ideas of what a car should be.

The recent New York show gives us a good opportunity to study the chassis of the American cars. The chassis of the American cars is almost a complete unit in itself. It is a complete unit in itself, and is a complete unit in itself.

PREPARING THE WAY.

It will be interesting to see how the American cars are prepared for the road. The American cars are prepared for the road in a way that is different from the European cars. The American cars are prepared for the road in a way that is different from the European cars.

ENGINE LUBRICATION.

One point seems to have received little attention, and that is the question which is the most important in the design of a car for which lubrication is a factor.

INCREASING FRAME RIGIDITY.

The four-point engine suspension, which is the most common, is being replaced by the two-point suspension. This is a change that is being made in order to increase the rigidity of the chassis.

RAISING THE FUEL.

The fuel tank is being raised in order to increase the clearance between the tank and the chassis. This is a change that is being made in order to increase the safety of the car.

THE CHINESE SITUATION.

The Dispatch of Sir Francis Aglen.

WITHIN THREE MONTHS.

[From Our Correspondent.]

London, Dec. 29 (A. F. S.).

All the public attention is directed at the moment to the demand of the Chinese Government for the repatriation of the Chinese Overseas. At first it was supposed that there was a disposition to talk about the repatriation of the Chinese Overseas as a purely Chinese affair, but people are rather surprised to find that the step China is which her rights to view that however negotiable the Chinese Overseas which are published here today by way of explanation: "Great Britain and China." The statement that the Inspector-General of Maritime Customs had all the other countries had and promised to be drafted for the meeting-General.

"That at some future date in which it has been pointed out that Great Britain has been given the right to the Chinese Overseas which is in the hands of some one in London to successfully stir up an Englishman." This is the first time since the formation of the British Empire that it has been placed in a position to be placed in the hands of some one in London to successfully stir up an Englishman.

According to the British Minister at Peking, the statement that Great Britain has been given the right to the Chinese Overseas which is in the hands of some one in London to successfully stir up an Englishman.

is not one which is suitable for the League. It was not intended, you will see, that the Chinese Government was to take charge, and the Yamen will after having acquired the necessary to manage Chinese affairs in light manner, and do injury to the Chinese people. They will be the Chinese Government.

The Yamen has the honor to refer to the Chinese Government's request to the continued employment of Chinese in the League of Nations in connection to the Inspector-General of Maritime Customs on which subject they addressed a letter to the Chinese Government. The Yamen has to observe that British trade with China amount that all other countries had and promised to be drafted for the meeting-General.

BEAPLANE SINKS IN LAKE NYANGA.

Accident At Kiwira.

THE CREW SAFE.

Mails Believed Not Damaged By Water.

Shanghai landed by the R. to enable Captain G. and his colleagues to begin work over the Kiwira mountains. His plane was damaged on Nyang, probably and

the machine was undertaking a climb of 10,000 ft. when the engine failed. The pilot, Mr. O'Keefe, was rescued and the machine was salvaged.

The mail was being saved but the post had to be delayed. The R. has been ordered to return to the lake to get the mail away.

As the machine is likely to come down in the lake, the mails, which are being returned to the post, will be delayed.

It is believed that the mails will be lost in the lake.

It is believed that the mails will be lost in the lake.

It is believed that the mails will be lost in the lake.

A LANDSLIDE TO THE BUICK SIX

Buick registrations in Kenya, Uganda and Tanganyika outnumber by more than two to one those of any six cylinder car regardless of price.

OFFICIAL Motor Car registrations for Kenya, Uganda, and Tanganyika, which have just been computed shew the remarkable sales record of Buick cars.

From the day the agency was established a little over two years ago Buick began to make history. Its astounding road performance under the most severe conditions created a demand that called for ever increasing supplies.

In an incredibly short space of time, Buick registrations in Kenya, Uganda, and Tanganyika have mounted until to-day they are **MORE THAN DOUBLE** those of ANY other six cylinder car, not

only in its own price class, but regardless of price.

The registration figures give proof — proof that leaves no room for doubt as to the overwhelming preference for Buick Cars. They indicate that there is literally a landslide of buying opinion toward Buick's unexcelled standards of engineering quality and value.

Yet, the most impressive phase of this outstanding success lies not in its magnitude — but in the ever growing satisfaction freely voiced by the hundreds of Buick owners in their cars, and the unbounded enthusiasm of those who have driven and purchased the new 1927 model—The Greatest Buick Ever Built.

MOTURING TOPICS

ROMANCE OF RUBBER.

Gigantic Strides Within a Century.

A BIRD'S EYE VIEW.

Eighty-five years ago the world was holding its breath in anticipation of the coming of rubber. The history has made such strides that more than 20,000,000 acres have been planted with rubber trees...

'Wild Rubber' as the product of the forest of Brazil was called. It was not until 1842 that the first plantation of rubber trees was established in the West Indies...

There were three main reasons why the rubber plant was so successful. First, it was a native of a tropical climate...

NUMBER AND COTTON

Nearly all rubber products are now partly of rubber and partly of cotton. The latter of cotton goes into the making of...

The rubber-cotton mixture is used for a wide variety of purposes. It is used for tires, hoses, and other automotive parts...

Complicated plants growing in the process of the rubber growing process. This was the first step in the development of rubber...

Barney Ooster, Ltd.
 In the Legislative Assembly, Mr. Ooster, Minister for Industries, Mining and Agriculture, asked the Hon. Mr. Ooster, Minister for Industries, Mining and Agriculture, whether the Government would be prepared to consider the following:—
 (1) Whether the Government would be prepared to consider the possibility of allowing the importation of machinery from the United States for the purpose of increasing the production of the rubber industry, and if so, what steps would be taken to that effect?
 (2) Whether the Government would be prepared to consider the possibility of allowing the importation of machinery from the United States for the purpose of increasing the production of the rubber industry, and if so, what steps would be taken to that effect?

Organic Troubles
 Considerable medical progress has been made in the treatment of organic troubles in the last few years. The discovery of insulin, for example, has enabled the doctor to control the diabetes mellitus. The discovery of the antibiotic penicillin has enabled the doctor to cure many of the bacterial infections which were formerly fatal. The discovery of the sulphonamide drugs has enabled the doctor to cure many of the bacterial infections which were formerly fatal. The discovery of the sulphonamide drugs has enabled the doctor to cure many of the bacterial infections which were formerly fatal.

HELP FOR WHEAT INDUSTRY.
Government Carries Out Report of Professor Bilson
CENTRAL PLANT BREEDING STATION.

Elected Members Criticise Fiscal Principle of Cesses.

THREE ADDITIONAL OFFICERS.

Legislative Council on Saturday afternoon at 2 o'clock, to discuss the report on wheat prepared by the late Professor H. E. Bilson. The wheat is the most important crop of the Colony, and the Government has been carrying out the report of Professor Bilson on the wheat industry. The Director of Agriculture, Mr. H. E. Bilson, has been carrying out the report of Professor Bilson on the wheat industry. The Director of Agriculture, Mr. H. E. Bilson, has been carrying out the report of Professor Bilson on the wheat industry.

There was a number in the active presence for the Department of Agriculture to carry out essential things for the benefit of the wheat industry. After such a consideration the conclusion was reached that it was advisable to make an organization to care for the wheat and make it desirable, and that that should be done in the form of a board or committee. The Director of Agriculture, Mr. H. E. Bilson, has been carrying out the report of Professor Bilson on the wheat industry.

Under the scheme proposed three technical officers, two plant breeders and one seed analyst, will be appointed. The Director of Agriculture, Mr. H. E. Bilson, has been carrying out the report of Professor Bilson on the wheat industry.

A Lesson from ENGLAND

The women of England land of beautiful complexion—know that one of the secrets of skin loveliness lies in the choice of a toilet soap. Their preference is Pears' Emulsive, because its herbs and oils help so much to give firm texture and clear healthy tinging to the skin.

Better Than Ever

Following their traditional policy of constant improvements with no yearly models, Dodge Brothers, Inc. during the past year have again vastly bettered their motor cars. Never in a similar period have so many fundamental and popular improvements been made.

As a result, sales for 1926 were more than 30% above 1925.

Tea

Is there a reader of these words using other than Brooke Bond Tea? His reading will be well rewarded if for the future he will change to this remarkable blend.

Brooke Bond Tea

RED LABEL BEST GRADE BROOKE BOND EAST AFRICA LTD.

From the special Correspondence of the Standard from London. The House of Commons on the 12th of February passed the bill which provided for the issue of a new legislation in regard to the proposed amendments to the Income Tax Act. The bill was passed by a majority of 150.

The latest interest on the part of the Government in the matter of the proposed amendments to the Income Tax Act is to be seen in the fact that the Government has decided to issue a new bill which will provide for the issue of a new legislation in regard to the proposed amendments to the Income Tax Act.

MR SIMPSON'S BILL. These were some of the bills which were introduced in the House of Commons on the 12th of February. The bill which provided for the issue of a new legislation in regard to the proposed amendments to the Income Tax Act was one of the bills which were introduced.

THE PRINCE'S VISIT. Prince Elizabeth, the daughter of the Duke and Duchess of York, is to visit the East African Colonies, Palestine, and the Queen's visit to the East African Colonies is to be the greatest since the death of the late King George V. The Prince's visit is to be the first since the death of the late King George V.

A REFORMER. Many consultations are being held in the East African Colonies, and the reformers are working for the improvement of the colonies. The reformers are working for the improvement of the colonies, and the reformers are working for the improvement of the colonies.

of the people in the colonies. Not a day passes without some of the reformers being heard of. The reformers are working for the improvement of the colonies, and the reformers are working for the improvement of the colonies.

A BROTHERLY MESSAGE. The East African Colonies are now in a state of peace and prosperity. The East African Colonies are now in a state of peace and prosperity, and the East African Colonies are now in a state of peace and prosperity.

AN INTERESTING MESSAGE. A prospective bride has had a very interesting experience. The prospective bride has had a very interesting experience, and the prospective bride has had a very interesting experience.
