# OLDSMOBILE

ANNOUNCES

## FOUR-WHEEL BRAKES

A Product of  
**GENERAL MOTORS**

### AND LARGER, HEAVIER TYRES

**C**RANKCASE Ventilation, Oil Filter, Dual Air Cleaning, Two-way Cooling, Harmonic Balance, Dipping Head Lamps, Adjustable Steering Column, Single Piece Windshield, Rigid Type Side Curtains (instantly detachable), Trunk Rack, Larger Heavier (30 x 5.25) Tyres and **FOUR-WHEEL BRAKES** are some of the remarkable new features.

The great General Motors Corporation and Oldsmobile have determined that this Oldsmobile model shall completely and decisively

DE LUXE TOURING

**£**

**298**

Only the stupendous facilities of world's greatest automotive organization would have made this possible.

### 25 MILES AND MORE TO THE GALLON

outstrip any other make of car in its price class.

This Oldsmobile keeps faith with its policy pledged to progress.

See this new Oldsmobile yourself. Drive it on the road. Experience the delight of its easy control and responsiveness. Try it on the steepest hill you know. And then consider its astoundingly low price £298.

**ROSED CYLINDERS** The cylinders of the new Oldsmobile are finished to a hard, close finish by honing with fine abrasives of steel. This operation is followed by fine sand and greases that so adhere in the grooves that normally so the smallest blades part.

**CRANKCASE VENTILATION** Oil leakage is eliminated by crank case ventilation. This kind of oil does not pass through the crankcase as it draws through a breather pipe at the left side of the engine. It draws off with it air which is exhausted to the rear. This has passed into the crankcase and a small amount of oil may in which some is more efficient lubrication of piston and valves.

**DUAL AIR CLEANING** Fuel and dirt do not get so mixed from the air intake as in the old cars.

**OIL FILTER** An oil filter in the crankcase catches oil and dirt before it can get into the bearing surfaces.

**HARMONIC BALANCE** The Harmonic Balance device is a General Motors feature which acts as a vibration in the crankshaft. This device is not a part of the engine.

**FOUR WHEEL BRAKES** New Oldsmobile has a four-wheel brake in front and wheel brakes. The

front wheel brakes are self-energizing, internal, three-shoe, expanding type. The brakes are controlled by a hand lever and are water dirt and oil. The system is positive and reliably light in operation.

**HOLLOW-GEARED STEERING** The worm, spur and bevel steering mechanism is specially ground to save and also steering control. It permits finger control, steering into in congested traffic.

**EASY SHIFT TRANSMISSION** Users are practically motionless in operation, and gear changing easily effected without sound.

**SPECIAL COMBUSTION CHAMBER** New type cylinder head gives greater combustion efficiency, smoother running, greater economy and improved performance and is standard equipment of General Motors Research Laboratories.

**HIGH VELOCITY MANIFOLD** A new type of manifold reduces the high velocity from low velocity motor. This feature, in combination with a collector of new design, gives unusual power economy and means a gallon less may be obtained.

**DOUBLE VALVE POSITION** The double valve system, combined with these engines in a small and

small car engines, together with the new type cylinder head, gives a remarkably powerful and smooth running engine.

**DOUBLE-OFFSET LOW GRAVITY FRAME** This design provides excellent mounting of springs for greatest flexibility. There are 11 coil cross-members for extra strength, the rear member being 11 inches wide. The frame is built up of heavy steel rails to provide for greater easy riding, and unusual ability to hold the road.

**DIPPING HEAD LIGHTS** Head lamps have double filament bulbs.

The lights are controlled by lever on the steering wheel.

**INSTRUMENTS INDIVIDUALLY ILLUMINATED** Each lighting individually, the reflection in driver's eyes.

**INSTRUMENT PANEL SHIELD** A reliable instrument panel design is standard on Oldsmobile.

**TRIP-PROOF CAR LIGHTS** New designed car body design. Cutting off light level fully for the car. The light and fuel are both integrated with the steel housing.

## Progress and Approval

For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.  
 In 1925 the sales of Dodge Brothers Motor Vehicles reached the total of 200,000. Yet in 1926, 330,000 were sold—an increase of 70,000 vehicles.  
 New engineering records have been established by a succession of major improvements extending back to the first of 1926.  
 Never has Dodge Brothers' Motor Car reached so high in public favor, never before has it so richly deserved the world's good will.

## RIM PROPHECY OF CHINA TERRORS

THE REAL THING IS ONLY NOW BEGINNING.

Warships in Action at Nanking.  
VICIOUS ANTI-FOREIGN RIOTS; MISSIONS LOOTED & BURNED.  
Autumn by Warships Secures Tardy Release of Surviving Foreigners.

We are only at the beginning of the trouble in China, the chief officials in Nanking are saying. They are saying that the position was continuing in Nanking and Shanghai it is only a matter of time before the British, French and American forces, who have been ordered to leave the river, will be ordered to return. The British destroyer *Wolsey* is now in the river, and the British steamer *Pyralis* has arrived with the first refugees from Nanking. To British and other American warships, brought very many refugees, practically all the ships on their way down the river but they are not yet in the river.

The British wireless news from London says that several British and American destroyers are now in the river. The British destroyer *Wolsey* is now in the river, and the British steamer *Pyralis* has arrived with the first refugees from Nanking. To British and other American warships, brought very many refugees, practically all the ships on their way down the river but they are not yet in the river.

**THE ATILLYE DEED.**  
[From *Shanghai Daily News*].

An impressive endorsement of Chrysler Quality, value and leadership.

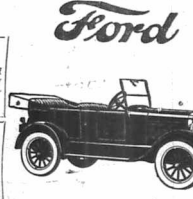

Out of the dusk that enveloped automobile engineering and design in 1923, Chrysler flashed like a comet his brilliant light energized the whole automobile world and brought to life a new era of automobile advancement.

The fifty million dollar sales record of Chrysler's first year has grown into a staggering volume of \$249,190,000 paid for Chrysler products in the past twelve months.

## Weekly Produce Market Report.

Market Report from London, dated 19th Feb.

### COFFEE.

The market, although quiet, is at present almost steady in the coffee. Ceylon coffee, although of a substantial fall, although so far as any good quality points, the market is firm, but for inferior grades these are only available with difficulty. These generally have shown some slight further weakness, but the lower grades of prices have not been touched, there being a fair Home Trade demand for all superior qualities. No quote.

### MAIZE.

A further decline of 10 per cent. is reported at 3/11 for April shipment, 3/10 for May, 2/11 for June, 2/11 for July, 2/11 for August, 2/11 for September, 2/11 for October, 2/11 for November, 2/11 for December.

### WHEAT.

With no change to report, in the price may be taken as 42/- in store London.

### TOBACCO.

No change has taken place since our last report, 80/- per cwt. being quoted on 10/- in store London.

### RAISINS.

4 1/2 per ton may be taken as 4 1/2 per ton average price.

### SUGAR.

We report no change to report a further weak market. There is no sign of any interest by the sugar consumers, and offers which have been put forward have been taken, being both no response. There is no reason to be seen for a continuation of the present weak market.

months for the present under review, and would be of interest from that quarter might have the effect of driving the American buyers, but certainly at the moment, there is very little speculative interest to support the market.

A further decline of 10 per cent. is reported at 3/11 for April shipment, 3/10 for May, 2/11 for June, 2/11 for July, 2/11 for August, 2/11 for September, 2/11 for October, 2/11 for November, 2/11 for December.

# OLDSMOBILE

ANNOUNCES

## FOUR-WHEEL BRAKES

A Product of  
**GENERAL MOTORS**

AT NO PRICE INCREASE

AND LARGER, HEAVIER TYRES

**C**RANKCASE Ventilation, Oil Filter, Dual Air Cleaning, Two-way Cooling, Harmonic Balancer, Dipping Head Lamps, Adjustable Steering Column, Single Piece Windshield, Rigid Type Side Curtains (instantly detachable), Trunk Rack Larger Heavier (30 x 5.25) Tyres and **FOUR-WHEEL BRAKES** are some of the remarkable new features.

DE LUXE TOURING

**£**

**298**

The great General Motors Corporation and Oldsmobile have determined that this Oldsmobile model shall completely and decisively

outstrip any other make of car in its price class. Thus Oldsmobile keeps faith with its policy pledged to progress. See this new Oldsmobile yourself. Drive it on the road. Experience the delight of its easy control and responsiveness. Try it on the steepest hill you know. And then consider its astoundingly low price £298. Only the stupendous facilities of world's greatest automotive organization would have made this possible.

**25 MILES AND MORE TO THE GALLON**

**RONED CYLINDERS** The cylinders of the new Oldsmobile are finished to a hard, glass surface by honing with the abrasive stone. This operation is indicative of the care and precision that is evident in the quality that extends to the simplest hidden part.

**CRAKCASE VENTILATION** Oil dilution is eliminated by crankcase ventilation. One-third of the air that passes through the combustion is drawn through a levered port in the left side of the engine. It draws off with it water vapour, unburned fuel that may have passed into the crankcase, and a small amount of oil vapour which results in more efficient lubrication of piston and valves.

**DUAL AIR CLEANING** Dust and dirt from the road are removed from the air before it enters the combustion chamber.

**OIL FILTER** All oil is filtered as the engine runs, ensuring crystal clear oil being delivered to all wearing surfaces.

**HARMONIC BALANCE** The Harmonic Balancer developed by General Motors Engineers eliminates any vibration in the crankshaft. This ensures quiet, vibration-free performance at any speed.

**FOUR WHEEL BRAKES** New Oldsmobile adds—without increase in price—four wheel brakes. The

front wheel brakes are self-energizing, automatic, three-wheel, expanding type. The brakes are entirely enclosed in protective space, protective and slightly light in operation.

**BALLOON-GLAZED STEERING** The worm, spiral type steering mechanism is specially geared for soft and easy steering control. It permits sharp, light steering even at compound bends.

**EASY SHIFT TRANSMISSION** Gears are positively engaged, and gear change is effected without sound.

**SPECIAL COMBUSTION CHAMBER** New type cylinder head gives greater combustion volume of steam, results in a remarkably powerful and quiet valve action, entirely without noise.

**HIGH VELOCITY MANTLE** A new type of mantle retains the high velocity given increasing speed. The feature is substantiated by a capacitor of raw diagen, given constant speed continuity. 1000 miles a gallon can now be obtained.

**DOUBLE VALVE SPRINGS** The double valve springs, similar to those employed in aircraft and

racing car engines, together with the positive valve control of valve, results in a remarkably powerful and quiet valve action, entirely without noise.

**DOUBLE-OFFSET LOW GRAVITY FRAME** This design provides parallel movement of springs for greater "rideability." There are no springs, the four members being a "linked" unit. The frame is provided low gravity, easy riding, and unusual ability to hold the road.

**DIPPING HEAD LIGHTS** Head lamps have double filament bulbs.

The lights are controlled by a new lever on the steering wheel.

**INSTRUMENTS INDIVIDUALLY ILLUMINATED** Both indirect lighting and individual illumination each instrument without glare or reflection in driver's eyes.

**INSTRUMENT PANEL FUEL GAUGE** A reliable instrument board panel gauge is standard on all Oldsmobiles.

**TRUNK-PROOF CAR LOCK** A new third-proof car lock is a feature. Turning off lockers positively locks the car. The vehicle itself is a built-in burglar is a vault the steel housing.

**For Dodge Brothers, Inc. 1926 stands as a year of unprecedented progress and success.**

In 1925 the make of Dodge Brothers Motor Cars reached the total of 200,000. Yet in 1926, 330,000 were sold—an increase of 70,000 vehicles.

New engineering records have been established by an encounter of major improvements extending back to the year of 1916.

Never has Dodge Brothers Motor Car reached such public favor. Never before has it so richly deserved the world's good will.

An impressive endorsement of Chrysler Quality, value and leadership.

Out of the dusk that enveloped automobile engineering and design in 1923, Chrysler flashed like a comet. His brilliant light energized the whole automobile world and brought to life a new era of automotive advancement.

The fifty million dollar sales record of Chrysler's first year has grown into a staggering volume of \$266,190,940 paid for Chrysler products in the past twelve months.

### Pool Sportsmen.

It is not only America that regards these sports as the most noble of the world. Men and women in every well-civilized country are proud of the fact that in 1923 the Commonwealth of Massachusetts and the State of Ohio were the first to have had some special legislation passed which gave them these sports an entirely new impetus. In fact, the pool is now becoming a world-wide sport.

### Tanganyika Highlands.

## THE "GEDES AXE" IN UGANDA.

### Railway Extension and Cotton Dred Problems.

#### FUEL OIL COSTS.

#### FOR ONE OUNCE CONSERVATION.

Kampala, March 22. — For the past week the Uganda fuel has simply strangled on the Kenya. Mr. Harold had said that there is not one opinion among the commercial community here which is at the least, in fact the only note that should be taken, is a continuation of the line from Mombasa to Kisumu, namely 300 at that place and then continuing through Kisumu to Kampala. Since the meeting of the Chamber of Commerce Committee with the Governor there have been a great many meetings which have given unanimous resolutions to this effect. Mr. Harold had said that a meeting was held at Mombasa on the 12th of the month (Monday) last Saturday. It consisted of the Chamber and commercial men with interests in Kenya and their opinions have been taken into all other public expressions on the most vital question. It would appear that the only point in favour of bringing the line to Kisumu is that it is a line of 300 miles and it is quite a long distance from the present terminus to Kisumu. The result of the meeting was that the line should be extended to Kisumu and then to Kampala. The result of the meeting was that the line should be extended to Kisumu and then to Kampala.

have of what we shall not have. It is true and was put to the test. The result of the meeting was that the line should be extended to Kisumu and then to Kampala. The result of the meeting was that the line should be extended to Kisumu and then to Kampala.

A Committee is sitting at the moment which Chairman is the Chief Justice of Uganda, Sir C. J. Griffin, K.C., which is expected to be the present position of the Government. The committee will be expected to report on the subject of the extension of the railway and the cotton dred problems. The committee will be expected to report on the subject of the extension of the railway and the cotton dred problems.

It is indeed not marked. And the question of the great number of gardens was discussed and the Association sent a copy of the letter to the Cotton. The result of the meeting was that the line should be extended to Kisumu and then to Kampala.
