HOW LIONS LEAPED TABORA.

Detailed Story of Exciting Incident.

AN ANNUAL EVENT.

Ensign and Mate Injured by Animals.

The Tabora correspondent of the *Telegraph* writes, in the following message a detailed story of the attack on the *Mercury*, by a lion and a leopard. The lion bit the ensign and the leopard bit the mate. The ship was damaged and the crew were scattered. The lion was shot and the leopard was captured. The ship was towed to safety.

A FURTHER REVEAL.

A domesticated lion, the pet of a British officer, was found to be a lion. It was shot and its skin was preserved.

THE EARLY HOURS OF FISHING.

It was attended by a large number of fishers. The fish were sold at a high price.

A MORNING STROLL.

One hour later the lions were seen in the streets of the town by many people. The lions were kept in cages.

THE LIONS WERE KEPT IN CAGES.

Two of the lions were kept in cages. The lions were fed with meat.

ATTACKS ATTRIBUTED.

One of the wounded animals sprang on to a native and biting him in the arm. A child was also bitten.

THE WOUNDED ANIMALS.

The lion was brought to the hospital. The leopard was also brought to the hospital.

THE WOUNDED ANIMALS.

Both dead lions were seen animals in the hospital. The lions were kept in cages.

RIOT AT FAMOUS INDIAN TEMPLE.

Eighteen Men Killed and 200 Wounded.

Police Arrest 150.

[Times-Burma's Agency.] Bombay, May 8. A rioting incident occurred during the passing of the Royal train from the Duke and Duchess of Cornwall to Calcutta. One of the cars was a compartment reserved for the Duke and Duchess. The carriage was shattered by a missile. This might have been caused by a stone or a bullet, but the opinion is generally held that it was a stone and was thrown from a crowd of some five hundred persons. The Duke and Duchess of Cornwall were uninjured.

MISSILE FLUNG AT THE ROYAL TRAIN.

A WINDOW SHATTERED.

DUKE & DUCHESS OF YORK.

The Duke and Duchess of York were seen in the train. They were accompanied by a large number of attendants.

TRADE UNIONS BILL DEBATE.

Criticism by Mr. Snowden and Mr. Lloyd George.

THE GENERAL STRIKE.

[By Wiggins.] May 8. The debate on the Trade Unions Bill was resumed in the House of Commons by Mr. Philip Snowden, the late Labour Chancellor. With regard to the clause dealing with the right to picket, Mr. Snowden said a general strike was not a necessary condition for the Bill to be passed. He said that the Bill would not be passed unless it was amended to provide for a general strike.

DOMINION GOVERNORS AND HOME.

Channel of Communications Changed.

[Times-Burma's Agency.] London, May 8. Mr. Lloyd George has announced that the channel of communications between the British Government and the Dominion Governments will be changed. The new channel will be through the Dominion Governments.

DODGE BROTHERS MOTOR CARS

What "Dependable" Really Means

To prove the superior action of your car and know that the engine will respond almost instantly, even in the coldest weather—to step on the brakes and find them immediately effective—that this thing is a "know" and that you will arrive without mishap from mechanical troubles—to know that your car will give you for years "without costly overhauling."

It is Dependability as the public knows the word to Dodge Brothers product—A Dependability which means body out among the most important basic elements underlying Dodge Brothers remarkable success.

FUEL ECONOMY.

The Greatest Possible Mileage.

HOW TO OBTAIN IT.

If the problem of obtaining the greatest possible mileage from a gallon of motor spirit were dependent entirely upon the factor expressed by the carburettor, it is safe to say that the fuel bills of motorists generally would be reduced very much more easily than actually is the case. Undoubtedly the condition of the carburettor is of very great importance, but nevertheless, in petrol consumption—or the reverse—may be said to be influenced to a considerable extent by the mechanical condition of practically every part of the chassis. Only two affect the carburettor primarily at all, and its makers are not unfairly blamed. But it should be recalled that every adjustment that detracts from the "trim" of a car means an necessarily high fuel consumption.

MATERIAL FACTORS.

We have no intention in this brief article of enlarging on a couple of a list of the chassis points that should be considered when the owner is trying to improve the fuel consumption of his car, and will content ourselves merely with reminding him that every moving part should slide or operate with the minimum possible friction if the carburettor is to have a chance of showing what it really can do in the way of economy.

Again, the condition and setting of the ignition is a most material factor in the problem of fuel economy, and we believe that many carburettors are blamed for inefficiency when, at any rate, part of the trouble is caused by the late occurrence of the spark or by the spark force not being so hot and fierce as it should be.

The ignition setting should be such that the spark can be ad-

To sum up this problem of fuel economy. Firstly, the whole chassis from braking to end should be kept in the best possible "trim." The carburettor should be so adjusted that it will draw the maximum power. Driver speed should be reasonably, instead of always "pushing" the car to its maximum, and unnecessary

The report of the Public Works Department in one of those which issued in printed form by the East African Standard has obtained from the Secretariat one of the early copies of the Director's report of the year 1926, which is the last on record. It gives the expenditure of the Department as sanctioned for £226,766, but the actual expenditure for the year was £277,000, being £50,234 over.

of the £213,000 public country roads, was £100,000 in 2020, which is about 47 per cent. The roads are reported to be in a state of repair such that the work done is more than sufficient to meet the requirements of the country. The total expenditure on the roads was £223,533 and involved 1,000,000 man-days of labour. The report also states that the Public Works Department was considerably more economical than in the year.

The witness for the Crown, which was very corroborative, was Mr. J. M. Sherrin, who was both having the Service Commission and the Public Works Department. He stated that he had seen the bicycle in the morning at 10 p.m. and called the attention of the police to it. He also stated that he had seen the bicycle in the morning at 10 p.m. and called the attention of the police to it.

Admission whether made four days after the 1924 Appeal. The complainant said that he had seen the bicycle in the morning at 10 p.m. and called the attention of the police to it.

Enclosed. Witness went on to say that he was surprised by the blow, and that he had seen the bicycle in the morning at 10 p.m. and called the attention of the police to it.

The Lady's Story. Mr. Elie Roberts said that he was staying at the Norfolk Hotel and was returning to the complainant's house at 10 p.m. and saw the complainant's bicycle in the morning at 10 p.m. and called the attention of the police to it.

NEW WORKS. Capital work carried out during the year 1926, was £226,766, but the actual expenditure for the year was £277,000, being £50,234 over.

CONTRACT WORK. The report states that practically all the public buildings were in a state of repair. The total number of European man-days worked was 1,000,000.

STOOD DRINK. Mr. Justice Sherrin: "Do you explain the fact that he took the bicycle away? It has been taken away for money and it has got out."

CONTROLLING WAGES IN THE CLOVE INDUSTRY. Strong Powers for a New Body.

KENYA A LEGISLATIVE COUNCIL

H.E. THE ACTING GOVERNOR OPENS THE MAY SESSION.

Port Controlled Scheme Detailed.

HEAVY INCREASES IN THE EXPORT OF AGRICULTURAL PRODUCE.

Progress of New Public Works.

OVERCOMING THE DIFFICULTIES IN THE WAY OF A COMPLETE CUSTOMS UNION.

His Excellency the Acting Governor gave very little of importance to add to the public knowledge of the results in his opening address to the Legislative Council yesterday.

The most important reference in the future consisted of the Port of Kilindini. The Acting Governor revealed the main features of an agreement which has been reached between Railway representatives and the shipping companies regarding methods of working. One feature of this agreement is that handling charges will not be levied on the goods of the country.

Reference to the Defence Force was exceedingly brief. The Defence Force is being reorganised into a Defence Force Bill was introduced into the Colony next year.

Housing and Roads.

The May session of the Kenya Legislative Council opened in the Hospital Hall, Nairobi yesterday morning when H. E. the Acting Governor presided over an elaborate attendance of Members.

There was, however, a somewhat disappointing representation of the general public on the opening occasion. After the session had been opened with prayer the Proceedings of the Council were read up to the 20th April, the year terminated to certain conditions. Members of the Council, both European and Arab, Elected Members.

Answers to questions which were asked yesterday were reported under separate headings elsewhere in this issue.

Following is the text of the address made by His Excellency the Acting Governor, Mr. H. E. Deane, at the opening of the session.

We meet under conditions which present a picture of a country, though I never wholly able to prosper, but one which we must not hesitantly certain that there will be some things which we must do to weather the way.

The year was very favourable for the preparation of land and other measures passed in March and April, while the rains have been abundant. Coffee is being planted in large quantities. Present indications point to a bumper crop of coffee.

It is to be hoped that this Conference will further co-ordination and co-operation of effort. It is to be hoped that this Conference will further co-ordination and co-operation of effort.

OUR GUNS HAVE PROVED THEMSELVES!!!

Read the following unsolicited Testimonials.

I have shot over 40 Elephants with your No. 4. I found it the best rifle on which aimed. Animals and superior to 318 or 300 Magnum. Your No. 4 Patrol is the best Gun on the Market. (Sgt. F. E. VIVIAN, Game Department, Tanganyika.)

I have been at the killing of 6 big Elephants and 5 Rhinos during the past month. I consider your D.W.M. ammunition "The Best" and would use no others. (Sgt. J. A. HEWITT.)

I have the pleasure in telling you that I have just dropped a huge Elephant with your No. 4. We had 6 rifles out of which I took five, five of them being yours. I had no time to test the others with me. I had wonderful results and I find your D.W.M. ammunition very satisfactory. (Sgt. H. J. JAYES, Govt 266, Nairobi.)

DODGE BROTHERS MOTOR CARS

What "Dependable" Really Means

To press the starter button of your car and know that the engine will respond instantly, even in the coldest weather—no stirrup on the brakes and start on a long journey effects—no start that you will arrive and know that you will arrive without annoyance from mechanical troubles—no know that your car will serve you for years without costly overhauling.

This is Dependability as the public applies the word to Dodge Brothers product—a Dependability which stands today on the most important basis—dependability.

LAKE KIVU.
Description of the District.
ZANZIBAR BRANCH.

The following circular letter has been addressed to members of the K.E.A.A. by the Hon. Secretary, Mr. J. P. G. van der Horst. The Lake Kivu district and the region of the Malindi Mountains are without exception the most beautiful and interesting parts of Africa. The first of these is Lake Kivu, and there is even a line across which I believe offers occasionally to submerge the mountains. The scenery is indescribably beautiful, and is very similar to that of the West Coast of Scotland.

Under the name of the "Port National Affairs" on the slopes of Mount Mangan, preserved as a sanctuary for the gorilla and other fauna in the interior. This project, which is largely the result of American interest and cooperation, is the preservation of African wild life. In the future it is expected that large numbers of gorilla.

MOTURING TOPICS

TRADING POSSIBILITIES
I have only mentioned above the possibilities of this region from the motorist's point of view, but the 32 miles of road which are required will open up excellent trading possibilities with the Belgian Congo. So for 120,000 acres of land in this district have been granted for Agricultural purposes—specifically coffee—besides the Administrative offices, there are already 35 European employed at the mines, which number will be greatly increased in the future. The imports required by the mining community are tools, agricultural machines, coffee machines, mail goods for native traders, motor kerosene, motor cars, motor kerosene and kerosene, gunny bags, etc., besides the fuel and oil also required for the mines. Should the road be opened to traffic, these goods can be supplied cheaply and expeditiously.
