

Outstandingly **The Greatest** **tyre** the world has so far seen

COMING from a company the size and character of Goodyear, the statement which heads this advertisement is doubly significant. It is issued only after testing its complete truth and weighing its full meaning in terms of the highest public interest.

This is the greatest tyre Goodyear has ever made!

By the resources and skill devoted to its manufacture, by the experience, research and authority represented in its advanced design, we believe we may properly say also it is the greatest tyre the world has so far seen.

This is the new Goodyear balloon tyre with the new-type All-Weather Tread!

SAVING EXPENSES. Some Unnecessary Waste.

How to keep them down. There are many little ways in which a few shillings a year can be saved, and when added up, they amount to quite a respectable sum.

THE TIRES. Every owner knows that he should never buy tires specially made for one make of car and sticking to the one make of tire for the rest of his life...

THE BRAKES. Another form of waste which often occurs is that of the brakes which when they are not properly adjusted...

USE A SMOOTHER DAY. Another thing to remember in connection with tools is that they should be kept in good condition...

SAVING FURTHER CLEANING. It is quite a good idea to frequently clean the radiator and hoses to give them the best of treatment...

AGRICULTURE
FIBRES.
An Unstable Market.
 The economic disturbances of the war have so seriously affected the fibre markets that we are still offering them at a discount to supply and demand. The price level, which was very low last year, is now under the influence of the market.

ITALIAN HEMP.
 So far no section of the Empire has been able to supply the supply of a long, light-colored hemp, which is in great demand for the making of rope. The supply of perfect workmanship has been an unqualified success. The supply of the Empire has been able to supply the supply of the market.

MEXICO vs. AFRICA.
 It is not clear from the report of the development which has been going on, whether the Government is now turning to the up-to-date methods which have been adopted by the British Empire. The supply of the market is now being supplied by the market.

AFRICAN SOIL, climate, and labor conditions are unsuited, and the great development which has been going on, whether the Government is now turning to the up-to-date methods which have been adopted by the British Empire.

It is inadvisable to strike a pessimistic note at the moment, since the use of British African land is steadily growing at home and abroad, and promising a steady and substantial increase within the near future.

We Hear from London

(From Our Special Correspondent.)

London, June 9.

With the greatest part of the British Empire, very little legislation passed, and no considerable work was done, the Government had themselves in a less straggled position than they occupied at the meeting of the House of Commons in London.

It is a long time since the Government has been so busy with the House of Commons, and the House of Commons has been so busy with the Government. The House of Commons has been so busy with the Government, and the Government has been so busy with the House of Commons.

TURF FRONTS.

The Earl of Derby, whose ancestor founded the Derby race, has every reason to be proud of the fact that his race is the most popular in the world.

MEMIN GATE MEMORIE.

Many a man who has seen the Minin Gate in London, will be surprised to find that it is the same as the Minin Gate in London.

THE "QUADRIS"

the United Kingdom and the Dominion of Wales, and the Dominion of Wales, and the Dominion of Wales.

NEW BRIDGE LAW.

It is a long time since the Government has been so busy with the House of Commons, and the House of Commons has been so busy with the Government.

AN ANCIENT CASTLE.

What may be seen in the picture is the castle of the Duke of Devonshire, which is the most beautiful in the world.

WILLIAM THE NORMAN

Mention of Hastings Castle reminds me that the coming of the Normans to England was the beginning of the end of the Saxon rule.

Notice

Under the Nairobi Townships (Amendment) (No. 8) By-laws 1927, by Law 471 (1), Notice is hereby given that the Council have passed the following rules and regulations for the control of traffic and use of motor vehicles on the commercial area of Nairobi, such rules and regulations to come into force from the date of the publication of this notice.

(a) No car shall be permitted to stand in Government Road between the junction of River and Government Road, or in Harding Street between Sixth Avenue and Bazaar Lane so as to cause an obstruction, nor unless the left hand front and rear wheels are flush with the pavement or road-side. Any car left standing for more than one hour may be deemed to cause an obstruction.

(b) No cars shall be permitted to stand in Victoria Street in the vicinity of the Supreme Court, within the area demarcated by the notice boards prohibiting parking. Cars standing in the rest of Victoria Street must be flush with the pavement with the left front and rear wheels nearest the pavement or pavement reserve.

(c) No car shall be permitted to stand at all except for the bonafide loading or unloading of goods in any of the following streets, roads, lanes or passages:

(a) Between public fronting Government Road and Harding Street and Government Road and Victoria Street, excepting the junction road south-east of the Law Courts between Government Road and Victoria Street, and the junction of the railway lines parallel to road on either side of Government Road.

(b) In the centre road of Sixth Avenue between Government Road and the Railway crossing.

(c) Cars can only be parked at places adjacent to the Sixth Avenue side roads parallel to the main road at the places demarcated for that purpose.

(d) No motor car is to be double parked on any street, road or lane within the commercial area.

(e) The recognised car parking places are only for the use of private cars.

(f) No trade vehicle, whether or cart, milk cart, tractor, motor wagon or van, shall use the road which is a continuation of Elliot Street to Whitehouse Road, through the Railway subordinate quarters, between Fifth Avenue and Whitehouse Road. Provided that the prohibition shall apply to any such vehicle which can be proved to be proceeding to a definite address within the Railway subordinate quarters area.

By order of the Municipal Council. L. GILBERT, TOWN CLERK.

The Greatest
tyre the world has

so far seen

COMING from a company the size and character of Goodyear, the statement which heads this advertisement is doubly significant. It is issued only after testing its complete truth and weighing its full meaning in terms of the highest public interest.

This is the greatest tyre Goodyear has ever made!

By the resources and skill devoted to its manufacture, by the experience, research and authority represented in its advanced design, we believe we may properly say also it is the greatest tyre the world has so far seen.

Explorers Use This Car Because It is Dependable

Pioneers and explorers, whose lives depend upon the reliability of the transportation they use, employ Dodge Brothers Motor Cars almost exclusively.

Stefansson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, the foremost explorer, penetrated the innermost wastes of Mongolia in a Dodge Brothers Car.

The car's dependability is proved, and its exceptional riding comfort permits long travel over bad roads without fatigue.

FURTHER IMPROVEMENTS.

It is expected that a special issue of the new Ford car will be made in the near future. In the meantime we are able to give in full the statement by Mr. Henry Ford regarding the policy of the company in its last introducing a new model car, the Model.

"The model T Ford car was a pioneer," said Henry Ford. "There was no extensive public field of motoring when we first made it. There were very few good roads. This car laid the way for the motor industry and started the movement for good roads everywhere. It is still the pioneer car for many parts of the world which are just beginning to be motorized. But conditions in this country have so greatly changed that further refinement in motor construction is now desirable, and our new model is a revelation of this."

ORIGIN OF THE FORD SERVICE.

"Besides the model T, staff members of the Ford Motor Co. during the past 20 years ago used the idea of service. Many of the best manufacturers produced on the continent of Europe, but they had not shared him the highest possible price for accessories. Our company adopted the same theory. We believed that when a man bought one of our cars we should keep it running

for as long as we could and at the lowest average cost. That was the origin of our service. The model T was the car of the largest field in motoring, the car which was used by the greatest number of people. The model T was a great advance in its handling, the power, the ease and the mechanical power is increased.

Manufacturers make some kind of motor car, but 20 years ago only the automobile was used by the greatest number of people. This model T was a great advance in its handling, the power, the ease and the mechanical power is increased.

"With the new car we provide to continue in the light car field which we created on the same basis of quality, power, economy, low cost, and low price. We have given high quality, low price and economy. We have given to the world the best of the new model T car. It is still the pioneer car for many parts of the world which are just beginning to be motorized. But conditions in this country have so greatly changed that further refinement in motor construction is now desirable, and our new model is a revelation of this."

NO TIME TO WASTE.

"Only a comparatively few cars will not do a fine job of running

for the next month or so. It is a pity that the new model T car is not being used by the greatest number of people. The model T was a great advance in its handling, the power, the ease and the mechanical power is increased.

REVIEWS.

In view of this statement it is interesting to indicate how some of the principal press of the world view the new policy. The Wall Street Journal says: "With the announcement..."

"The new model T car is a revelation of this. It is still the pioneer car for many parts of the world which are just beginning to be motorized. But conditions in this country have so greatly changed that further refinement in motor construction is now desirable, and our new model is a revelation of this."

CHEVROLET

New lines - New Colors and a host of other improvements

IN ADDITION to introducing a new order of elegance, style and distinction into the field of low priced automobiles, the most beautiful Chevrolet also represents a marked mechanical advance. Examine any one of the seven attractive models and you will find no improvements that you will be literally amazed.

Improvements that contribute to even longer life, greater dependability and finer performance! Improvements that assure more pronounced economy, easier operation and a keener sense of control satisfaction. Improvements that place Chevrolet far ahead of any other car in its price class.

We are holding a special showing of the new models. May we urge you to visit our showroom and study the cars? From the new and larger radiator shell to the new automatic stop light, you will find new and finer construction, new and more desirable features—features that will give you a new idea of what the buyer of the low priced car has a right to expect for his money.

ethology of those islands and the
fruit of his labors, in the
form of numerous publications
on a very valuable addition to
the literature on these subjects.
While his departure will be much
regretted, his many friends here
will wish every success in his
new appointment.

TRAVELERS FROM MADAGASCAR

The Government of Madaga-
scar is in a letter to the British
Consul in Antananarivo, Comoro
Islands, for the Zanzibar
contribution to the Madagascar
Office, Road Fund, states—

Trade Rev.

The National Council of Zanzibar
and Malindi, Comoro and
Uganda, recently received the
following cable from the London
Office.

Mr. Marston—The signed
order will be in spite of the
fact that the Government has
not been able to secure the
loan with five per cent. (Shahy
improvement) 7 1/2 per cent.
for 1916—255,260, a decrease of
£12,000,000. Imports £2,881,871.
£20 on imports £2,881,871.
Bk compared with May figures
for the first half year shows an
improvement in general tendency
both imports and exports
showing a steady increase.
Malindi: Yellow steady, not
showing heavy August arrivals.
Fries quoted 25/9 stable. Num-
ber 2 White, East Africa, quoted
8/9. Shams of afternoon. Col-
quits unchanged, best quality
firm. Cotton: cheap, owing to
necessity and satisfactory com-
pensation followed by sharp ad-
vance. American Government
order indicating 12 per cent.
average reduction. Market de-
clined by weather conditions and
export surplus. Malindi: 8/4
quoted. American Malt 4/6.
East African Cotton active, quoted
2/12. Coal: slow steady No.
1 about quoted 8/8 net.

The Scotchish State.

(From Our Own Correspondent)
London, June 22
Appearing for export for
primary hospitals at a service at
St. Peter's Church, York-street, W.
on Sunday, Dr. Graham Little,
M.P., said—

"The rightly and justness of
the State-controlled institutions
were exemplified for many of us
during the war, when the State
ran the military hospitals. I
may instance a very characteristic
instance. While I was acting as
physician to one of these hospi-
tals, I was practicing a certain
form of treatment which was
the use of drugs not included in
the War Office list. I pointed out
some time ago that the
treatment was not included in
that I considered the retention in
hospital of the patients so treated
was about half as long as if that
treatment were withheld, and
that it was both humane and eco-
nomical to permit it. I received
the astounding instruction that I
might be in a position to be
sent for officers but not private.
It was only a few days ago that
I would rather resign than
carry such a ridiculous ruling that
I was allowed my way."

A Marooned Sheep.

(From Our Own Correspondent)
London, June 22
A marooned sheep, which
found its way to a narrow strand
of low land which was the
Bantry, north-east of Southland,
in a stormy sea, was seen
yesterday by Mr. J. H. Colquhoun,
New Zealand Sheep Co. Ltd.,
in a position that it wandered at
low tide from a farm on Poulton
Island. In that case it would
have been a long and weary walk
of many miles as the tide pro-
gressed. The sheep was seen
by Mr. J. H. Colquhoun, who
was accompanied by Mr. Mc-
Donald, who was out fishing in the
cocks beds.
