THE POLITICAL OUTLOOK IN KENYA.

No. 3.

IMPLICATIONS OF THE DEMAND FOR A EUROPEAN ELECTED MAJORITY.

Difficulties Inherent in the Exercise by a Governor of a Large Reserve of the Power by Veto.

The third of a series of articles on the political outlook in Kenya for a European elected majority over all other parties in the House of Representatives.

In the opinion of the contributor, that demand entails a reshaping of the part of the constitution which take full responsibility for government.

There is also a demand for the position in which a Governor would be placed in a situation where a reserve of large powers is placed in a Governor's hands.

DANGERS OF INTERIM PERIOD

(CONTINUED)

The interim period is a dangerous one for Kenya. It is a period of transition, a period of uncertainty, a period of doubt. It is a period when the old is being discarded and the new is not yet established. It is a period when the people are in a state of confusion and the Government is in a state of indecision. It is a period when the interests of the people are being sacrificed to the interests of a few. It is a period when the future of Kenya is being decided. It is a period when the people are being misled and the Government is being deceived. It is a period when the people are being oppressed and the Government is being tyrannical. It is a period when the people are being exploited and the Government is being corrupt. It is a period when the people are being deceived and the Government is being dishonest. It is a period when the people are being oppressed and the Government is being tyrannical. It is a period when the people are being exploited and the Government is being corrupt. It is a period when the people are being deceived and the Government is being dishonest.

GRAHAM BROTHERS TRUCKS AND BUSES

LOW COSTS

Low costs are a feature of Graham Brothers Trucks, Commercial Cars and Buses throughout their long, profitable lives. Initial cost is extremely low for such high quality trucks. Graham Brothers build more trucks than any other exclusive truck maker in the world.

Operating costs are low because of the low fuel consumption of the famous Dodge Brothers engine.

Maintenance costs are low because Graham Brothers Trucks, Commercial Cars and Buses are made of fine materials, seldom need repairs—and because genuine, fairly priced repair parts are always available when they are needed.

MOTORING TOPICS

The Standard. For steering and ignition, the doors, open type motor, rear deck, and small door into the storage compartment.

Racing at Brooklands. The Sport Coupe is mounted on the Standard Director chassis, powered with the famous Dodge Motor, 18-horse power. Ratings of the Society of Automotive Engineers show this Coupe as the world's most powerful Grand Prix car and well-known advantage of the brilliant performance as much as to be desired in a smart sports car.

In the Back Blocks. The value of Brooklands as a racing venue is enhanced by the fact that more than 1000 cars of every make are on the road, and many of these are of the latest type. Equipment is complete, and related buildings and other services for the engine and chassis are available in the most convenient manner.

DESCRIPTION OF NEW MODELS. The increasing popularity of the four passenger coupe is reflected in the announcement of the new Standard Director of America, which will appeal to the motorist who does a smart, sporty job of motoring for his own use. It embodies the latest ideas of a two passenger coupe with the additional room offered by a comfortable driver seat for an extra passenger. The full-length steel body is finished in two bar-protecting shades of green. Frontal view around the upper half and the four-spoke wheel design is new. The front end is more a rounded off at the interior of the front fender, which has a large oval hole for the radiator. The passenger is seated by the side of the driver, and the front seat is upholstered in a material which is comfortable and durable. The front end is more a rounded off at the interior of the front fender, which has a large oval hole for the radiator. The passenger is seated by the side of the driver, and the front seat is upholstered in a material which is comfortable and durable.

STANDARD CORRESPONDENT. London, Sept. 18. At an time it seemed as if the Essex Motor Club Brooklands meeting, which had been postponed owing to rain from August 23rd, would have to be put off but the weather cleared away midday and remained dry until about 4.30. In the fourth section of the Essex Junior Long Hauling, for cars of 1000 c.c. Max. P. H. Scott of London drove a 1927 Standard Director of America, which was the first time she had been made to run on a 1000 c.c. motor. W. W. Johnson of London drove a 1927 Standard Director of America, which was the first time she had been made to run on a 1000 c.c. motor.

THE POLITICAL OUTLOOK IN KENYA.

(Continued from page 1).

It is clear that a representative government in a colony must be a reality and a source of confidence for those who regard this system as the only one which is able to bring about the best possible results in the interests of the people of the colony.

The British Government in 1946 took the initiative in this regard and set up a Commission of Enquiry into the Government of Kenya. This Commission reported in 1947 and recommended that a representative government should be set up in Kenya.

The British Government in 1946 took the initiative in this regard and set up a Commission of Enquiry into the Government of Kenya. This Commission reported in 1947 and recommended that a representative government should be set up in Kenya.

Complete Responsibility

The Commission of Enquiry into the Government of Kenya reported in 1947 and recommended that a representative government should be set up in Kenya.

A British Mission

The British Government in 1946 took the initiative in this regard and set up a Commission of Enquiry into the Government of Kenya. This Commission reported in 1947 and recommended that a representative government should be set up in Kenya.

STANDARD SPECIAL CORRESPONDENT.
London, September 8.
The former Viceroy of India has been a lion to the Government. So long as he has been in office, the Government has had a peace at the bar lately as a result of his demagogic. He was so busy, he had refused the title of Chamberlain, however he retained a private one. He has been a great success in his political life.

THE POLITICAL OUTLOOK IN KENYA.

No. 3.

A COMPOSITE LEGISLATURE AS AN ALTERNATIVE TO A WHITE MAJORITY.

Implications of Communal System in Representing African Interests.

The fourth article in this series deals in greater detail with the composition of a Legislative Council with an official majority.

There are two alternatives—the Kenya settlers, view the other as an official majority based on communal representation which by the distribution of practically all offices to Europeans and majority agreement on all questions. It is suggested that this latter view may be regarded as the most realistic one.

The question raised is whether such a composite Council, with its obvious advantages, would give the wrong impression to the African, or whether it would be a step towards a European Elected majority.

There is also discussed the representation of African interests in a committee of Ministers in Council, the system now proposed in South Africa after years of criticism of an indirect form of voting the Natives have found evaluation of the dangers of the situation.

SAFEGUARDING WHITE CIVILIZATION.

CONTINUED.

It is a well known fact that the African population in Kenya has increased rapidly in the past few years. This has led to a number of problems, particularly in the area of land and housing. The Government has taken steps to address these issues, but it is essential that the white population also be protected. This is not to say that the African population should be restricted, but rather that the Government should ensure that the interests of both groups are protected. This can be done through a number of measures, including the establishment of a Land Commission to oversee the allocation of land, and the implementation of a housing program to provide affordable housing for all. It is also important that the Government ensure that the white population has access to the same opportunities as the African population. This can be done through the implementation of affirmative action programs in education and employment. By taking these steps, the Government can ensure that the interests of both groups are protected and that the country remains a stable and prosperous one.

THE DISASTER TO THE 'PELIKAN'.

Damage Not Repairable at Kisumu.

STANDARD CORRESPONDENT Reporting the accident to the Pelikan reported in the Standard several days ago, the following telegram has been received from the Standard correspondent at Kisumu: "Capt. Ghobson landed safely and delivered the mail. The new pilot on a trial flight landed smoothly, the Pelikan which is not repairable here. Capt. Ghobson is returning to Nairobi tomorrow morning."

International Trade.

Whiteaways, Nairobi.

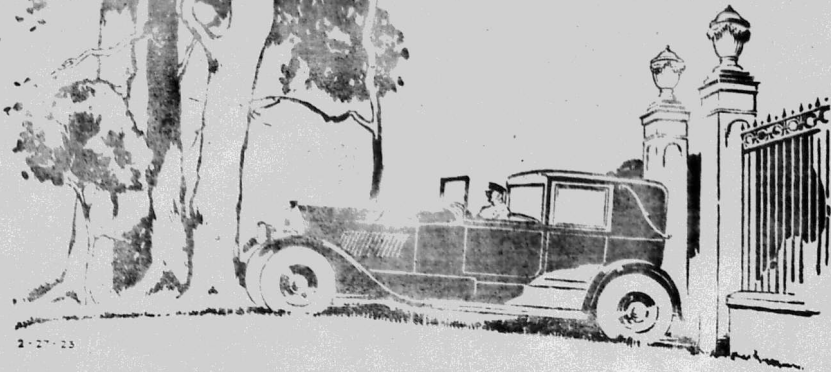

LOOK through the annals of achievement in the rubber industry and on every important page for more than a quarter of a century you will find record of Goodyear's contribution to the art of tyre building.

Beginning back in the days of the very earliest pneumatic cover, Goodyear has focused its manufacturing skill and facility for development on the motor car tyre, culminating in its most recent and perhaps greatest accomplishment—the new safe, tractive and slow wearing Goodyear Balloon with the new type All Weather Tread.

New Idea.

At the first meeting there after plans for the extension were put up for approval and sailing, but it was felt out of deference to the new president these plans should be deferred until the next meeting. They were never passed.

Along this time it was found that the Executive had made some interesting ideas of what would be the best method of raising the money for the extension. It was found that the best method would be to raise the money by the sale of shares in the extension. It was found that the best method would be to raise the money by the sale of shares in the extension.

Principles not Persecutions

It is a common mistake to think that the only way to solve a problem is by force. It is a common mistake to think that the only way to solve a problem is by force. It is a common mistake to think that the only way to solve a problem is by force.

"WINGET"

Open Drum Concrete Mixer
The Guaranteed Mixer
With the Guaranteed Mix

These are the only open drum type mixers on the market which mix instead of separating. This is due to the patent BURN-LANCASTER drum with the SEMI HELICAL BASE. "WINGET" mixers have other over-whelming advantages over any others on the market. Come and see a S1-6 in stock, or write for literature.
