UGANDA'S WEALTH OF GAME

More Interesting Animal Pictures from the Protectorate.

A FASCINATING GARDY.

It is difficult to present a complete picture of the game of the Protectorate in the first part of the year. The Department of Lands and Game has been busy with the physical features of the country, and at the same time has been engaged in the work of the Uganda Game Survey. The results of this survey are being published in a series of reports, and it is hoped that these reports will be made available to the public in the near future.

The status of the Buffalo in Uganda is very interesting field for research. In the past the Buffalo has been held by the natives on slight differences in the habits of the animal. The series of numbers of the Buffalo in the Protectorate is being kept by the Department of Lands and Game.

A STARTLING INCIDENT.
Buffalo are increasing in number. The large number of Buffalo in the Protectorate is being kept by the Department of Lands and Game.

UGANDA'S WEALTH OF GAME.

Continued from page 16.

To realize the full value of attempting to separate naturally occurring animals from the game of the Protectorate, it is necessary to have a series of studies of the various animals, and then lay them out to compare the results. The results of these studies are being published in a series of reports, and it is hoped that these reports will be made available to the public in the near future.

THE TARDY'S ANCESTOR.

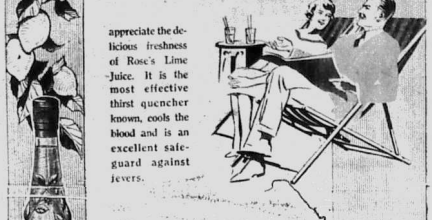

It is interesting to learn that the Kaffir Cat or African Wild Cat is the ancestor of the domestic cat. It is widely distributed throughout the world, and is found in the Protectorate in large numbers.

Whether a dog is entitled to any legal protection is a question which has been presented to the Supreme Court recently. Mr. Justice Gwynne presented the question of the dog bite to the Magistrate as a question of law, and the Magistrate gave a judgment which was appealed to the Supreme Court. The case is now before the Supreme Court, and the question is whether a dog is entitled to any legal protection. The Magistrate's judgment was that a dog is not entitled to any legal protection, and the Supreme Court has now to decide whether this is correct. The case is a very interesting one, and it is worth following.

The following is the text of the judgment given by Mr. Justice Gwynne. The case is a very interesting one, and it is worth following. The Magistrate's judgment was that a dog is not entitled to any legal protection, and the Supreme Court has now to decide whether this is correct. The case is a very interesting one, and it is worth following.

Progress at Geneva.

The cloud of pessimism which has obscured the work of the three-Power Naval Conference at Geneva is dissipated to a marked extent by the Report of the Committee of Technical Experts to which an extended reference is made in reports from London this morning. While the difficulties are finding a less for discussion of the limitation of certain programmes still remains the stumbling block, substantial progress has been made in the dispute over submarine clauses. The suggestions made by the three Powers were a great extent a matter of detail rather than of principle and the spirit of willingness to find agreement has been apparent in reaching a compromise on this material aspect of naval policy which will satisfy the intentions of the Washington Conference. It seems unlikely that a decision on cruiser tonnage made at Geneva but the results of the discussions initiated by the United States will have a negative value. There has been an admirable frankness, especially on the part of Britain and Japan in regard to their naval position in the world and the requirements demanded by permanent peace. It is regrettable and disappointing criticism appears in modification terms both in France and America, but in reason to hope that the moral values of the Geneva negotiations will not be lost upon the civilized world. The best of the sincerity of the Nations will arise when any agreement is brought forward for ratification. The intentions of the Government of Britain and Japan are quite clear; their representatives at Geneva would be unable to accept any proposals which would not meet with the approval of the Governments concerned. But there is a greater degree of uncertainty in America. Not only is the constitutional position much more delicate and the intentions of the House of Representatives and of the Senate much more difficult to forecast but there is in America a very virile "Big Navy" Party which has not hesitated to increase the difficulties of the Conference. It is a matter for great regret that associate themselves with Great Britain and Japan in what was at least an honest and clear-cut effort to reduce the burden of naval armaments. Disarmament as an ideal is impossible of attainment under present circumstances and indeed under any circumstances we can visualize but progress is a large field for adjustment, slowly and step by step, whereby the many involved in competitive navies can be released for international agreement for more pressing needs of resources and social and commercial improvement in the service of humanity. The Geneva Conference suggests that spirit of peace is being massed dead in the world; by restricted the success of the present conversation may prove to be, they have a definite value in clearing up the difficulties, by friendly discussion and free presentation, however halting, along the weary road to international unity.

Annual Competitions and Rally.

Government House grounds were swarming with Gun Guides and Brownies on the occasion of their annual Rally. Elaborate preparations had been made for the occasion and the contest of the girls and boys received great consideration from Lady Darnley and her husband, who were present. The Rally was a most successful one and the Gun Guides and Brownies were well pleased with the results. RUINING THE BOIS DE BULOING. A RAILWAY VISITOR.

Beatty Spot Which Is Top Popular. Union Minister in Nairobi.

(From our Paris Correspondent)

The confusion of the Bois de Boulogne is not confined to all those who are ignorant of the Bois de Boulogne, but also to those who are not ignorant of the Bois de Boulogne.

The Hon. Charles W. Beatty, M.P., South African Minister of Railways and Harbours, arrived in Nairobi on Monday.

The visitor disembarked from the "Lombardy" at 10.15 and travelled by Nairobi by way of Mombasa and Voi.

Mr. Beatty left Nairobi for the Victoria and East Africa Exhibition at Kampala by car yesterday.

The visitor is purely unofficial. Mr. Beatty is on his way to England.

"Secret" Appointments. CIVIL SERVICE MYSTERY BOARD.

Higher appointments in the Civil Service are made by the Board.

Mr. Graham maintains that "the public should understand the secret which lies behind these appointments."

Reverly Timeslice. The Kenya and Uganda Railway administration has issued a series of orders.

And with good reason. After the Chamber had decided by a majority of thirty-eight votes that the Ministry of Public Works should be merged with the Ministry of Finance.

It was carried by a large number of votes, 300 members voting in its favour, against 135.

The subject, in all the same, is regarded rather apathetically by the Government.

LADIES' FASHIONS

A Letter from Paris

The hat of shaded concrete trimmed with open glass trim and the large chignon. Museum pinned to the shoulder of a white dress frock.

A return to plain white and from black dresses, was a surprise, inevitable after the outbreak of colour of the last few months. This year, if the production of dressmakers be true, there are to be black and white dresses on the ballroom, white frocks and variations on the sports grounds and "Magna" ensembles of after noon tea parties.

We shall have some rather things. Tennis habits are to be red and green and blue. Hats for work, afternoon frocks are to be delicately shaded, sometimes trimmed with open glass trim and flowers. Cotton dressmakers of pink, amber, green and Maroon tones, blue will appear in a number of frocks on pure white dress frocks.

Some of the new plays have shown on our stage, a woman in white frock on a modern drawing room. It traces an individuality with the feminine, such as one of looking and transmuting the sweater into a picture of simplicity.

One of the prettiest hats seen in the shops in a recent collection had a hat of shaded concrete trimmed with open glass trim and the large chignon. Museum pinned to the shoulder of a white dress frock.

The hat of the little frock by the cut and in the shade, were not but a kind of arbitrary or an echo of her was not to trim the white where, but with a ball this construction, with the hat of shaded concrete with quite an as of the eye.

It is not with plain white which is attractive itself, and in some a quiet confidence. The hat and part of a dress in a slightly of shaded concrete, a perfect example of a hat of shaded concrete, and made later in a white decoration. There, as we discussed that there was by plain and velvet frocks, and the beautiful weaves, who made an unusual pattern frock, which had soft, shifty, wavy, deep green hair band to head. It makes the loveliest of simple dresses and makes in beautiful black and white. It is another beautiful too, which needs no comment.

MODERN NERVES AND SEDATIVES

The woman who tries when a young girl, and who is to be of delicately shaded, sometimes trimmed with open glass trim and flowers. INDEPENDENT RATE SALTS

Spiced bath crystals are easy to prepare and quite inexpensive. They are made by mixing a few drops of oil of rose, lavender, or other perfume with a few drops of water and a few drops of alcohol. The mixture is then allowed to stand for a few days before being used.

TO MAKE JAVELLE WATER

To make Javelle water, mix one part of bleaching powder with two parts of water. The mixture should be allowed to stand for a few hours before being used.

STAMP GUN PUDDING

Stamp gun pudding is a simple dessert made with flour, sugar, and butter. It is prepared by mixing the ingredients and cooking them in a stamp gun.

WHEN YOU STOP ON THE NASH THROTTLE AT A TRAFFIC LIGHT, THE CARS BEHIND YOU ARE VERY apt TO BE LEFT FAR BEHIND.

Nash has the power and has it more over, at low speeds, when you need it most. There's many a traffic jam or accident averted by the Nash ability to get away without delay.

And notice how smooth and quiet is the powerful speed of Nash once liberated at the start of a green light. The motor never gives you a hint of laziness—never "talks back" at you even though you are asking for its last ounce.

You quickly tire of a car that is sluggish, listless, slow in getting into motion. You grow more attached to a Nash every day because you are proud of its performance.

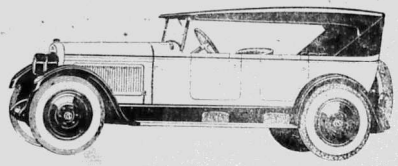

There are many reasons for this. The Nash advantage. Nash has the very powerful Nash Cyclotron 7-bearing motor. The Straight-Line Drive of Nash gives extra power. The 7 big bearings add still more power by proper crankshaft support, and improve performance with its super-smoothness. And then the whole car is more carefully and precisely built and balanced than cars in the Nash price range apparently need to be.

Before you try your new motor car try the acceleration of other cars, then come in and ask for a Nash to try. The contrast will show you decide immediately you would rather have the Nash!

Successful Home Baking

ANY A YOUNG BRIDE hesitates to make hot breads, rolls, cakes which made her mother's home famous. These dietary loaves are so delicate, so light, so fragile, that they seem too difficult for any unexperienced cook. And yet the one secret which will pass on the young bride. The lightness and goodness of really hot bread is the result of using Royal Baking Powder. Royal makes your biscuits, scones and other hot breads or cake taste so much better.

MEALY BUG IN CITRUS.

The pest in citrus. An interesting article written by Mr. T. A. Campbell, Director of Citrus Industry, California, published in The Citrus Grower, California. The article discusses the mealy bug, its life cycle, and its damage to citrus trees. It also provides information on how to identify and control the pest.

In 1911 it was discovered that a number of orange groves near the San Joaquin, California, were infested by a pest which had not been previously reported in California. This pest was identified as the mealy bug, which had been introduced from the West Indies. The mealy bug is a very destructive pest of citrus trees, and its control is a major problem for citrus growers.

THE APPROVAL OF THE LAW

The approval of the law. In California and Indiana, the law is being approved. The law is designed to improve the agricultural industry and to provide better protection for farmers. The law is expected to be passed in the near future.

In Southern California, the citrus industry is facing a major problem. The mealy bug is causing significant damage to citrus trees, and the loss of fruit is estimated to be in the millions of dollars. The citrus industry is calling for government action to control the pest and to provide compensation for the losses.

At about a year later than the California discovery, Mr. C. G. Oakes, the well-known authority on insects, discovered a strange mealy bug on redwooded citrus.

Large trees in great numbers in California and Indiana, the law is being approved. The law is designed to improve the agricultural industry and to provide better protection for farmers. The law is expected to be passed in the near future.

The mealy bug is causing significant damage to citrus trees, and the loss of fruit is estimated to be in the millions of dollars. The citrus industry is calling for government action to control the pest and to provide compensation for the losses.

At about a year later than the California discovery, Mr. C. G. Oakes, the well-known authority on insects, discovered a strange mealy bug on redwooded citrus.

We are proud to announce the most beautiful CHEVROLET

As a climax to the most outstanding automotive success of recent years, we are proud to announce the greatest of Chevrolet's many achievements - The Most Beautiful Chevrolet in Chevrolet History.

Mechanically finer, entirely new in line, contour and color, this most beautiful Chevrolet offers style, distinction and elegance hitherto undreamed-of in low priced cars.

However complete, however enthusiastic, no mere description of the new Chevrolet with its host of improvements can adequately portray the new measure of individuality, quality and value it introduces into the low priced field.

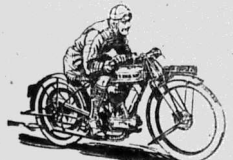

So we urge you to visit our special showing of the new cars. And we ask you to come, not in the customary casual mood, but to carefully examine and look into the new improvements and refinements. It will be well worth your while.

Explorers Use This Car Because It is Dependable

Phoenicians and explorers whose lives depend upon the reliability of the transportation they use, employ Dodge Brothers Motor Cars almost exclusively.

Stefansson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, on three different occasions, penetrated the innermost wastes of Mongolia in a Dodge Brothers Car.

The car's dependability is proverbial; and its exceptional riding comfort permits long travel over bad roads without fatigue.

EA CHURCH CONFERENCE

AN EAST AFRICAN PROVINCE.

Unanimous Decisions That Time is Ripe for Formation.

BASIS OF AGREEMENT.

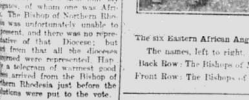

The East African Church Conference which met in Nairobi on July 8 and concluded on July 12 reached by a unanimous decision that the time had now come to form an East African Province.

[By the BISHOP OF UGANDA.]

The Conference which has just concluded its Session in Nairobi of the first time represents the history of the Colony, and the progress of the Church in East Africa.

WHEN?

When your liver is sluggish, and your bowels constipated, appetite variable, you need a course of Chamberlain's Tablets.

TRADE ENQUIRIES TO—Messrs HOWE & MCGOWAN LTD., NAIROBI.

FOUNDED IN 1888. SOUTH AFRICA. Published every Friday. Will keep you in touch with AFRICAN AFFAIRS.

Will be posted direct for 1/6 per annum post free. South African Representative. 1-11, 1-12, 1-13, LONDON, E.C.

THE BASIS OF AGREEMENT.

The basis of the agreement was the unanimous decision of the Conference that the time had now come to form an East African Province.

PROVINCIAL ORGANISATION.

The Diocese of East Africa was divided into three provinces: the Province of East Africa, the Province of East Africa, and the Province of East Africa.

THE PROPOSED SOLUTION.

The proposed solution was the formation of an East African Province, which would be a province of the Anglican Church.

THE PERSONNEL.

The Conference met under the presidency of the Bishop of Northern Rhodesia, and the members of the Conference were the Bishops of East Africa, East Africa, and East Africa.

The six Eastern African Anglican Bishops who attended the week's Church Conference. Back Row: The Bishops of Malawi and Upper Nyasa. Front Row: The Bishops of Caprivi, Bechuanaland, Nyasaland, (Chairman) and Uganda.

The vast debt due from the African Church to the Anglican Society in which it now is engaged...

The Province is working in full accordance with the Metropolitan See of the Anglican Church...

It is to be hoped that the Anglican Diocese of East Africa will be able to do more for the African people...

CRITICISM OF PORT CONTROL.

Official Silence on Details of New System Leads to Confusion.

PRINCIPLES OF WORKING.

The new system of control of the working of the Port of Kilindiini came into force on July 1. The unexpected experience of nine days are recorded in the Standard... Confusion has arisen out of the failure of the authorities to issue fully detailed explanatory regulations...

(From Our Members Correspondent.)

Have we reached the end of our Port Control troubles? Months had passed, with very many attempts, the clearing of July 1st that meant date when, as an absolute change...

THE COMPLAINTS.

It is now time to give a review of the arrangements made into effect. The first complaint was that the new system was not being carried out to its full extent... The second complaint was that the new system was not being carried out to its full extent...

There were several complaints... The first was that the new system was not being carried out to its full extent... The second was that the new system was not being carried out to its full extent...

ATTACK AND DEFENCE.

Now, what do those speaking these views see? Let us look at the facts. First, the complaint is that the attitude of the Port Manager is not satisfactory...

FIVE PRINCIPAL POINTS.

1. The Port Manager is not doing his duty. 2. The Port Manager is not doing his duty. 3. The Port Manager is not doing his duty. 4. The Port Manager is not doing his duty. 5. The Port Manager is not doing his duty.

A PERSONAL SURVEY.

Now, your correspondent, with a few brief observations, has to say for himself. He has a look at the Port Manager's attitude and finds it not satisfactory... He has a look at the Port Manager's attitude and finds it not satisfactory...

THE FRENCH GRAND PRIX WAGON

DUNLOP

Well-Base Rims and Tyres (Standard Size)

The French Grand Prix race early this month, resulted in another sweeping victory for the DUNLOP WELLS-BASE RIMS and DUNLOP WIRED TYRES. The winners speed was 73 M.P.H. and the strain inflicted on the tyre in such a gruelling race at this speed was terrific. Yet DUNLOP stood up to this proving the absolute safety of the DUNLOP WELLS-BASE RIMS and the extraordinary tenacity of the DUNLOP TYRES. This is the experience which is built into all DUNLOP products.
