NAIROBI, TUESDAY, MARCH 6, 1934.

MUSSOLINI'S REPLY TO THE TYROL GRIEVANCES.

All German Newspapers in the Area Suppressed.

DRAMATIC DECLARATION TO AUSTRIA.

Warning to League of Nations against interference.

The continuation of Signor Mussolini's remarkable reply to the Austrian grievances and alleged anti-Italy in respect of the ceded territory of the South Tyrol, contains several dramatic statements.

Referring to the Austro-German movement for the union of the Tyrol, he declares: "We will make it known to Austria that the whole of Italy, her quick and her dead, stands at Brenner."

The Brenner Pass is the strategic gateway between Italy and Germany.

All German newspapers in the Tyrol area have been suppressed.

Finally Signor Mussolini has a significant word for the League of Nations. He declares that if it thrusts itself into the labyrinth of so-called minorities, "it will never come out alive."

In the first part of the speech he said he would not speak again on the subject—he would act.

A REMARKABLE SPEECH.

(FROM SIGNOR MUSSOLINI'S SPEECH.)

It is the German word, he said—provided that Italian security was never even vaguely called into question.

After referring to German agitation for the re-annexation of the Italian South Tyrol, the first portion of which was reported yesterday in our Italian edition, Signor Mussolini declared that the Italian people would undertake by the Tyrol, which had been handed over to Italy.

Gold Determination. Austria hereby agrees to the German proposal and the German proposal will be made to the League of Nations.

**EXPRESSING** a fresh flowering of genius in motor car design, the new 1928 Buick is the very spirit of fleetness, poise, power and luxury, caught in lines that reveal no compromise with the past. Built upon a highly developed chassis and powered by the new direct firing, high compression, Valve-in-Head Buick engine, it presents a combination of excellence that far exceeds anything hitherto offered in the fine car field—a fact amply endorsed by the public reception accorded this car and by the record breaking sales in Kenya.

 of this latest CORONA?**

**CORONA** has always been famous for its convenience and durability, but this new model has an added advantage—a wonderfully light touch. You would scarcely have believed it possible to build such a smooth, easy key action in a portable typewriter.

Notes the big machine features throughout—the wide carriage, the full length, two-color, self-reversing ribbon, the variable line space, the attaching device, the standard four-row keyboard and the many little refinements which you would not expect to find in a portable typewriter.

**PROBLEMS FOR FRENCH ELECTIONS.**

Stabilisation of the Franc Again.

**REINLAND EVACUATIONS.**

"STANDARD" CORRESPONDENT, Paris, Feb. 9.

The all-important question of the stabilisation of the franc is the foremost topic upon which the minds of the people of France. This issue, however, it is to all intents and purposes an obsolete issue, for the Spring campaign may be said to be well advanced.

It is to be expected that the speaker, not only his supporters but many of his opponents agree that the speech which M. Poincaré made as President of the Council on the financial task which he has set himself.

The Premier detailed the operations destined to lead to the legal stabilisation of the franc, and has been officially congratulated by the "council of Ministers on his exposition of a very complicated situation.

His speech, it is felt, will have considerable weight with the industrial classes as well as the financiers, for a fluctuating value of the national currency has brought many evils in its train. It is to be expected that a standard as long as the market remains open to a fall and though the franc is now steady no prudent business house will make arrangements for anything but the most distant future. There is, nevertheless, some hope, that once the election is over, the way may lead to a revision of 1926 prove a successful year to everybody.

**Evacuation and Disarmament.**

Another fact which makes the Spring elections more than ordinarily important is that negotiations with Germany for the evacuation of the Rhineland have been opened. Bound up with the execution of that operation is the question, quite naturally, the case is held that French troops should be kept in the Rhineland for a period of years to insure the peace of the continent. It is to be expected that the French will be in a position to make a strong case for their retention.

**BRINGING THEATRE TO REACH OF ALL CLASSES.**

Great New Scheme for London.

**THE "DOMINION"**

"STANDARD" CORRESPONDENT, London, February 8.

"Comical and funny, and the most musical production, that money can buy for a suburban theatre."

Such, in brief, may be said to be the foundations of the greatest innovation in the theatrical world that has ever been attempted in England. The most elaborate arrangements have been completed for the erection of the "Dominion" at the corner of Oxford Street and Tottenham Court-road.

Mr Alfred Butt said the idea was to feature popular musical plays, staged as expensively and smartly as at present presented at Fanny Lane. "Some of these productions cost from £5,000 to £4,000 weekly, and we realise that it must be a very large house to accommodate such productions and make a profit," said Mr Alfred.

"Our desire is to increase public interest in musical plays among those who had £20, 40, for an evening beyond their reach. At the Dominion there will be 600 seats at 8s, 6d, and prices of admission would be graded down to 5s, 4s, 3s, 2s. The seating capacity of the theatre will be 1,200. The total cost £20, the grand total £172, and the upper circle 400. In addition, the whole accommodation will be 100 ft wide, with a depth from back to front of 100 ft, and the provision opening 18 ft.

When completed the Dominion will be the largest modern theatre in the country. The subscription will be 100 ft wide, with a depth from back to front of 100 ft, and the provision opening 18 ft.

meant in Berlin, and the which question will be considered at next month's meeting of the Council of the League of Nations in Geneva.

In the event of a new coalition with interest the suggestion of different nations towards discommoded. It is not to be expected that the French will be in a position to make a strong case for their retention.

#### IMPROVING OUTLOOK.

The Department of Agriculture, Tanganyika, forward the following crop reports with the following comments:—  
Kilimanjaro—The crop is a good one. The reason for this is that the country is a fertile one and the soil is rich. The weather is also very good. The crops are all well and the outlook is very bright.

#### Coastal Area: North.

Temp: Very dry and planting of crops delayed. Native plantations are now ready and awaiting rain for planting. Some rice planted in swamps is coming in well.

#### Coastal Area: South.

Temp: No rain. The short rain season crop is now being reaped and the yield is good. The outlook is poor for rice and millet. Rice: Very serious conditions now prevailing throughout the District following the prolonged drought, and all reports state that food crops are almost completely dried out. Fair demand for cotton seed.

UGANDA AGONY (LONDON), MARCH 6, 1929

A Mombasa Bridge Scheme. According to our Mombasa correspondent, an estimate has been made to a recent meeting of Mombasa Town Council. Committee that some steps have been taken to erect a bridge to connect the island with the mainland which will be served by the bridge. It is agreed, of course, that the bridge will form a useful adjunct to Mombasa communications and help to speed up our part to discourage private enterprise against the construction of the bridge. With illustrations from photographs by the Author and Martin Johnson.

It is doubtful whether anyone has ever had better opportunities than Mr Percival for studying big game in its own East African haunts. As Ranger in the protective (now Kenya Colony) for over twenty years, Mr Percival's book is packed with information on the habits of his quarry which will be of interest to the naturalist and the sportsman pure and simple. The photographs by himself and Mr Martin Johnson—with which the book is illustrated—are unique.

**EXPRESSING** a fresh flowering of genius in motor car design, the new 1928 Buick is the very spirit of fleetness, poise, power and luxury, caught in lines that reveal no compromise with the past. Built upon a highly developed chassis and powered by the new direct firing, high compression, Valve-in-Head Buick engine, it presents a combination of excellence that far exceeds anything hitherto offered in the fine car field: a fact amply endorsed by the public reception accorded this car and by the record breaking sales in Kenya.

**STANDARD'S CORRESPONDENT**  
London, Feb. 27.—A special day and night guard has had to be mounted over the Herby (Worcestershire) quarry in which the three-eyed Pleistocene man awaiting removal to the South Kensington Museum.

Many amateur geologists in the midlands, thrilled by the news of the find of the 1,000,000-year old three-eyed monster, have crowded to the spot. Some of the earlier arrivals succeeded in reaching the find and called for "novices." Large numbers of requests have been received from various countries for portions of the pleistocene skeleton, which is sixteen feet in length.

British Museum experts have great hopes that other valuable fossil animals may be unearthed on the same spot, and special excavations have begun. When the pleistocene is taken to the South Kensington Museum it will be the largest specimen of its kind in any land museum.

**"Whale and Co."**

**AMERICANS FIND A NEW BREED IN KENYA.**

**STANDARD'S CORRESPONDENT**

Monday, March 2.  
On cover the talk of the week spread made for first appearance on Monday about noon brought with her, for 200 tourists, those who had made two other expeditions to take over the visit, who went in Nairobi by special train.

On this occasion there was little excitement in view, possibly because it is already breeding contempt for such visits; this being the second of the kind. In any event, the visit seemed remarkably quiet. The text, for one thing, behaved themselves and did not, as on the previous occasions, cause some confusion among the authorities by refusing to fall into line and have themselves photographed by the day at a fixed hour.

Then there was an episode which greatly intrigued the men-at-arms, the visitors one of whom was alleged to have stated that he intended to introduce a new sheep in the States based on the writings and teachings of some of the black leaders of the island during the 'twenties. No fear, nothing has been heard of this since but it may, perhaps, really be the Black Machine brought up-to-date. 'Tis never known.

**A New Drink.**

One thing the American visitors did enjoy and that was the ready-made milk of the coconut. With a drink of this in the middle of the day, the tourists seemed to relax immensely and great was the demand therefor. The Nairobi staff, one hour, was greatly enjoyed, the visitors being particularly struck with the bottles, "just the bit!" New York on a similar scale but it seems that something is to be done.

Incidentally, it is worth mentioning that the men who pulled the special train to Nairobi found the hill near Nairobi, with its sharp curve, just a bit too much for a week, and it is to be expected that the work done by pulling and slowing it is not on record, what one American visitor thought of it.

**Parrot to Broadcast.**

**LATEST ADDITION TO B.B.C. STAFF.**

**STANDARD'S CORRESPONDENT**

London, Feb. 27.—The B.B.C.'s latest potential talker is a three-year old West African parrot. I say "three," without prejudice, for nobody seems to know whether the bird is a lady or gentleman. That is why I say "three-year old" instead of "from his behaviour the parrot is a boy," or "a girl."

He is at present living in a large new cage in the room occupied by the Director of Education and his secretary. There, in a lot of luxury and refinement, he gets a depicted, but of grey feathers, with a lab of scarlet feathers, one eye, and a dangerous looking hooked beak the other. He is supposed to have a vocabulary of twenty words, but he has not spoken yet.

**Monday Weather.**

**COOL EVENING FOLLOWS HEAVY RAIN.**

[STANDARD CORRESPONDENT.]

Mombasa, March 6.

At the moment of writing, conditions here are delightfully cool, the thermometer registering a mere 80 degrees as against the 92 in the sheltered shade in the day.

These conditions follow a very heavy shower which burst upon the island this afternoon, preceded by a light shower which laid the dust. This afternoon the rain was of the common tropical variety and not unlike about 8 P. The clouds rolled up in mass formation, hanging low and accompanied by the dull rumble of thunder. In a few seconds the island was drenched and King Purush held unimpeded sway. Present indications point to further showers which are badly needed down here at present.

**Port Facilities.**

**GROUND AVAILABLE FOR PRIVATE GODOWNS**

[STANDARD CORRESPONDENT.]

Mombasa, March 6.

The probabilities are that the Harbour area will very soon be completely cleared to give its whole front with one complete view of the sea.

Under the new construction scheme, a large portion of the ground, cleared for the removal of the cliff face is to be devoted to the erection of private godowns for the use of commercial people. A fair amount of space is available and it is anticipated that most of the commercial houses will secure accommodation within the actual port area in view of the present difficulties in getting permanent to rent goods of certain classes under certain conditions to private godowns on the island.

Therefore, the greater amount of convenience that will result from firms having godowns close by, just with the harbour berth nearby.

It is likely that in the very near future, building will be commenced on these godowns but it is just possible that some of the best business houses may build on for a bit to see how the lot will jump in regard to the realisations passed at the recent meeting of the Mombasa Chamber of Commerce—realisations demanding that permanent to give to some good agencies within the island area in private godowns.

## CAMP TO CARO AIR ROUTE CO-OPERATION.

### South African Travellers a Hindrance.

#### DIFFICULTIES OF PROGRESS.

The State of Johannesburg is usually popular as a knowledge by Mr. Samuel Evans, chairman of the Crown Mills Ltd., on the subject of air communications between South Africa and Egypt.

Mr. Evans points out that an air route linking the gulf between the Sudan and the South African railways from an Khartoum to Broken Hill, would be only about 2,000 miles long. It is estimated that it would cost about 2,000 miles long. It is estimated that it would cost about 2,000 miles long. It is estimated that it would cost about 2,000 miles long.

The United States air mail has been a success with efficient railway services. It is a success with efficient railway services. It is a success with efficient railway services. It is a success with efficient railway services.

## Major Sir John Bayly

Major Sir John Bayly, Director of the South African Railways, is a prominent figure in the railway industry. He has been instrumental in the development of the railway network in South Africa.

### TO CONTRACTORS AND OTHERS.

For the purpose of providing a better service to the public, the railway authorities are planning to introduce a new system of air services. This will involve the construction of new air routes and the purchase of additional aircraft.

The railway authorities are also planning to improve the existing railway network. This will involve the construction of new lines and the modernization of existing lines. The estimated cost of these improvements is £10 million.

Mr. Evans suggests that a special questionnaire be sent to the railway authorities. This questionnaire should contain information about the current state of the railway network and the needs of the public.

It is a success with efficient railway services. It is a success with efficient railway services. It is a success with efficient railway services. It is a success with efficient railway services. It is a success with efficient railway services.

Mr. W. D. Harris, Divisional Engineer at Bulwer, estimated that the construction of the all-weather road proposed by Mr. Evans would cost about £200,000. This road would be built across the gulf between the Sudan and the South African railways.

## IN THE HIGHLANDS OF TANGANYIKA

Where Nature Compensates for Loneliness of Life.

### THE GERMAN FACTOR OF THE FUTURE.

### The Amazing Lessons of a Refugee in East Africa. Italy.

(Special to the "H.A. Standard" by Daisy Lawrence News).

In the history of Tanganyika there is no more interesting story than that of the German refugees who have been settling in East Africa since 1914. It is a story of the struggle for survival in a new land, of the hardships and the triumphs of a people who have been forced to leave their homes and their country, and to seek a new life in a distant land. The story of Tanganyika is a story of the struggle for survival in a new land, of the hardships and the triumphs of a people who have been forced to leave their homes and their country, and to seek a new life in a distant land.

### Obituary.

**MR. RICHARD KEATON.**  
The death has occurred at his home in Letchford Way, England, of the Hon. Mr. Richard Keaton, the elder of the two brothers and one of the most prominent figures of colonial history has been known and loved by his friends and acquaintances. Mr. Keaton was a man of high character and high ability, and his death is a great loss to the community.

### People of the Mountains.

The Past people, native of the mountains, have a strong love for their land. They are a people of high character and high ability, and their death is a great loss to the community.

When the ship is disabled and the crew is in danger, the captain has a duty to do. He must ensure the safety of his crew and the cargo, and he must also ensure the safety of the ship itself. This is a great responsibility, and it is one that must be taken very seriously.

### John's Progress.

John's progress in his studies has been remarkable. He has shown a great deal of interest and ability, and he has made a great deal of progress in a short time. This is a great achievement, and it is one that should be commended.

### The Dance of Death.

The dance of death is a metaphor for the end of life. It is a dance that all of us must eventually participate in, and it is one that should be taken very seriously. It is a dance that is full of meaning and purpose, and it is one that should be embraced with courage and faith.

### AN "INFERNO" BEHIND THE SCENES.

Behind the scenes of the dance of death, there is a world of suffering and pain. It is a world that is full of darkness and despair, and it is one that is often hidden from the eyes of the world. It is a world that is full of meaning and purpose, and it is one that should be embraced with courage and faith.

### Magistrate's Position.

The position of a magistrate is a difficult one. It is a position that requires a great deal of wisdom and judgment, and it is one that is often misunderstood. It is a position that is full of meaning and purpose, and it is one that should be embraced with courage and faith.

### Mr. C. Abbott.

Mr. C. Abbott is a man of high character and high ability. He has a great deal of experience and a great deal of wisdom, and he is a man who is often sought after for his advice. He is a man who is full of meaning and purpose, and he is one who should be embraced with courage and faith.

### Entertainments.

The theatre royal is a place of great entertainment and enjoyment. It is a place where people can come to see a great play or a great performance, and it is a place where people can have a great time. It is a place that is full of meaning and purpose, and it is one that should be embraced with courage and faith.

**Why Dental Science Endorses Gibbs Dentifrice**

Because its frequent foam suggests to every true devotee of the tooth-briding germ, erasing it from the mouth.

Because Gibbs Dentifrice polishes the teeth so thoroughly, smoothing the lustrous without scratching or wearing—so even at the dinner table shows the teeth most to the gaze and the enamel is thinned.

Because Gibbs Dentifrice makes the gums firm, rosy and healthy. To use Gibbs Dentifrice twice a day is to keep sound, pretty teeth for a lifetime.

You'll enjoy the delicious flavor and refreshing effect of Gibbs Dentifrice—so will the Ladies.

**AN AUTOMATIC SERVICE IN EAST AFRICA.**

**Rhodian or Official Deals with Federation.**

**IDEAL POINT SHOULD BE A REALITY**

Mr Frank Malpas, an ex-Rhodian Civil Servant, has written for the "Oxford Review" (Feb. 1952) an article which amounts to a scathing attack on the attitude of the Rhodesians.

For the purpose of this article Mr Malpas' intention need not be taken too literally, but should be taken as meaning some form of central government for the area; the actual form cannot yet be defined.

The area of its greatest interest is the Rhodes, Uganda, Kenya, Tanganyika, Nyasaland, Northern Rhodesia, Southern Rhodesia, and the Bechuanaland Protectorate. In the following notes on international relations, Mr Malpas is concerned with the Rhodes, because of its different history and constitution, and Southern Rhodesia because it is self-governing. The remainder are chiefly known as the East African group.

It is worth commenting that he stated that there is much talk of federation between Northern Rhodesia and Southern Rhodesia, the greater one an enumerated uniting the Rhodes, because of its different history and constitution, and Southern Rhodesia because it is self-governing. The remainder are chiefly known as the East African group.

Further the Rhodesians are so much in common with his fellow Rhodesians and Tanganyika that he has written a book on Southern Rhodesia. Mr Malpas is also clearly concerned with the Rhodes, because of its different history and constitution, and Southern Rhodesia because it is self-governing. The remainder are chiefly known as the East African group.

The consideration of general rather than of local issues—Rhodesia is linked only with the Rhodes, because of its different history and constitution, and Southern Rhodesia because it is self-governing. The remainder are chiefly known as the East African group.

Another, and very important, reason frequently raised by the King of Bechuanaland is the fact that the Rhodesians are not a homogeneous people. The Rhodesians are not a homogeneous people. The Rhodesians are not a homogeneous people.

On the face of it this outline will seem to contain a number of contradictions. It is not clear how the Rhodesians can be both a homogeneous people and a heterogeneous one.

## A Game Rangers Notebook

### A Blayne Percival

Edited by E. D. CUMMING.

With illustrations from photographs by the Author and Martin Johnson.

It is doubtful whether anyone has ever had better opportunities than Mr. Percival for studying big game in its own East African haunts. As Ranger in the protectorate (now Kenya Colony) for over twenty years, his experiences have been both extensive and varied. Mr. Percival's book is packed with information on the habits of his quarry which will be of interest to the naturalist and the sportsman pure and simple. The photographs by himself and Mr. Martin Johnson, with which the book is illustrated, are unique.

## INVASION OF IRON REPORT

### HOLY WAR DECLARED BY KING OF HEDJAZ.

Large Force of Arabs Invade British Territory.

#### "UNOFFICIAL BULLETIN" FROM JERUSALEM.

Uselessness in London Regarding Intentions of the "Arabian Crowd."

A report from Jerusalem states that Ibn Saud, King of the Hedjaz, has declared war on the British territory of Irak and Trans-Jordan, and that a large force of Arabs is manoeuvring on the frontier.

Although the report which is described as "an unofficial bulletin" has not yet been confirmed in London, indications created by Ibn Saud's previous talk of a holy war has been deepened.

In a Treaty signed with Great Britain last year, the King of the Hedjaz specifically undertook to maintain friendly relations.

Ibn Saud has had an astonishing career and in a few years has emerged from obscurity to leadership of Islam in Arabia.

### PROVISIONS OF TREATY OF JEDDAH.

THROUGH BRITISH AGENTS, London, March 7.—A machine created by the King of the Hedjaz was reported by an "unofficial bulletin" transmitted from Jerusalem stating that Ibn Saud has declared war on Iraq and Trans-Jordan.

A large force of Wahabites, equipped with modern weapons, is reported to be manoeuvring in the Jordan area and some 22 companies have been sent to the Trans-Jordanian frontier. It is further stated that there is no official confirmation of this report.

It is pointed out that such a declaration would amount to a breach of the Treaty of Jeddah signed on May 29 last year whereby each of the contracting powers undertook to maintain friendly relations with each other and the King agreed to maintain friendly relations with Kowen and Bahrain.

### Commonwealth Statement.

(BY WIRELESS.)  
In the House of Commons the day Mr. Amery stated that the Government had been most careful to furnish Ibn Saud, King of the Hedjaz, with information regarding British action for the repelling of Arab forces and that it was satisfied that the British Government would not be repelled from the Hedjaz.

It was quite clear that the rulers would ultimately learn that they had penetrated into the Hedjaz and invade in various ways the lives and property of the children.

The Colonial Office spokesman stated that he was not in a position to say whether there had been any reports that have appeared in the Press in the effect that troops were being sent to Kowen from Iraq in connection with the Wahabite troubles—British Official Wireless Service.

### The Saudi's Career.

The Saudi's career of the Wahabites in the Hedjaz has been described as the greatest of the Arabian desert. He was a homeless refugee who set himself to founding the city of Mecca from the ruins of his ancestors from the successive five rulers who had been expelled from Mecca. At the beginning of the 18th century he was so well established in the Hedjaz that he was used as a base for unauthorised expeditions into the territories of the Arabian Desert. He has captured the Hedjaz and the Gulf of Persia, and the Sudan and the Persian Gulf has been across the

### ANTI-NATIVE MOVEMENT IN NATAL.

Scandal to Greytown Cemetery Scourge.

#### MANIPULATED CONSPIRACY.

Following the Greytown cemetery outrage, a meeting of Greytown Europeans has formed an organisation which contemplates an active campaign in Natal. The Union disclaims participation in the outrage.

### British Industries Fair.

Public Attention Focused on a Private Meeting.

#### ST. WIRELESS.

Captain Hastings Under Secretary for Overseas Trade, stated in the House of Commons that the results of the British Industries Fair in London and Birmingham had been extremely satisfactory.

There were 2,000,000 square feet of exhibition space in London and 180,000 square feet in Birmingham. Both shows led previous records and reflected an increase of 100,000 square feet over last year.

The statistics were also reported from London 1935-36 and in Birmingham 1935-36. The fair was held in London for 100 days and in Birmingham for 100 days.

The fair was held in London for 100 days and in Birmingham for 100 days.

### MACHINE GUN PARTS SMOGGED INTO HUNGARY.

LEAGUE INQUIRY.

#### Italy Involved in a Balkan Episode.

(THROUGH BRITISH AGENTS.)  
Eight machine gun parts were smuggled into Hungary from Italy. The League of Nations is conducting an inquiry into the matter.

### Canada and Japan.

PLENIPOTENTIARIES TO BE APPOINTED.

#### ST. WIRELESS.

Replying to a question in the House of Commons, Mr. Amery, the Dominion Secretary, said that an agreement had been reached between the Governments of Canada and Japan whereby it was proposed to appoint plenipotentiaries to be appointed to represent the Government of Canada in Japan.

### The Rubber Industry.

BRITISH GOVERNMENT APPOINTED TO HELP.

#### ST. WIRELESS.

The Premier gave an assurance that the sale of Government stocks to the rubber industry would be a most important step to help the industry.

### A German Bomb.

CRITICISM OF TREATY TREATY WITH BRITAIN.

#### THROUGH BRITISH AGENTS.

In the House of Commons today Mr. Amery, the Dominion Secretary, said that the Government would give an assurance to the rubber industry that they would be given an amount of £100,000 to help the industry.

### Disarmament Conference.

RUSSIAN PROPOSAL THAT TURKEY GO TO GENOVA.

#### THROUGH BRITISH AGENTS.

The Secretary General of the League of Nations today announced that the Russian proposal that Turkey should go to the Disarmament Conference in Geneva.

### SAVOAKS WANT WHITE OFFICIALS TO GO.

Country Should be Run by Natives under Union Jack.

#### THROUGH BRITISH AGENTS.

The Administrator offered to resign to Masi prisoners had been rejected. A spokesman of the prisoners stated that they wanted Savoaks run by the Savoaks under the Union Jack.

### ARRIVAL OF THE R.A.F. IN NAIROBI.

MASSIVE WELCOME.

#### ST. WIRELESS.

It was a perfect R.A.F. meeting which is to suggest that the non-discriminatory policy of the R.A.F. was well received by the public.

## Whiteaways NAIROBI.

EXPRESSING a fresh flowering of genius in motor car design, the new 1928 Buick is the very spirit of fleetness, poise, power and luxury, caught in lines that reveal no compromise with the past. Built upon a highly developed chassis and powered by the new direct firing, high compression, Valve-in-Head Buick engine, it presents a combination of excellence that far exceeds anything hitherto offered in the fine car field—a fact amply endorsed by the public reception accorded this car and by the record breaking sales in Kenya.

Have You tried the touch  
 of this latest CORONA?

CORONA has always been famous for its convenience and durability but this new model has an added advantage—a wonderfully light touch. You would scarcely have believed it possible to build such a smooth, easy key action in a portable typewriter.

Notice the big machine features throughout—the wide carriage, the full length, two-color self-cleaning ribbon, the variable line-spacer, the steering device, the standard four-row keyboard—and the many little refinements which you would not expect to find in a portable typewriter.

### The Most Economical Baking Powder

OF COURSE baking powder which safeguards the success of your baking and gives you the maximum satisfaction from the loaf you have prepared.

After all the amount of baking powder which goes into a recipe is relatively so small and inexpensive that common sense dictates the use only of Royal Baking Powder which for over thirty years has been the standard of quality and purity in South Africa.

Royal Baking Powder is the life of the recipe.

Royal Baking Powder Co. 100 East 42nd Street, New York, U.S.A.

THE EAST AFRICAN STANDARD UGANDA ARDUS. THURSDAY, MARCH 6, 1926

The Cost of Living. Public attention, never far removed from the subject, is being directed again more closely than ever before to the high cost of living. During the past week, it has become known that the business state to be beyond their control, the price of wheat has risen considerably. It is a question of individual taste and national experts to decide whether or not too much grain is required and it is in their directing employment. It is not normal human behaviour, seen in fact will continue to be a necessary article of diet. The business have developed that the holders of the limited supply of slaughter cattle have increased their prices, that the veterinary policy in regard to the Native reserves enhances the normal difficulties, that the dry weather has reduced the number of stock in suitable condition and that, finally, if there were less unpaid accounts on their books the business would be able to carry the increased cost themselves without passing it on to the public. They also point out, a fact which has been stressed in previous columns, that the European community see too facilities for their bodies and that the frequenters of every annual have to be well at cheap prices to non-European. A correspondent has already suggested that if there is a sufficiently attractive differential in rates between the price of first quality oats and the rubies, there are many European families who would like to take advantage of it. Another correspondent today suggests reasonably that as by their share are small, organized commercial and they are in an excellent position to set an example in restriction of price by agreement. These things indicate that the price is seriously controlled by

the failure to experiment on the process in living costs. It is not until at a high price and a still higher price from the market. It is not until at a high price and a still higher price from the market. It is not until at a high price and a still higher price from the market.

let or set a high cost of living in the case of a necessarily high standard, and whether or not high living costs are always associated with the development of young countries are arguments for the politicians, economists, which are of little consolation to the public. What is wanted is something practical.

History of the White Boy. The White Boy.

WANTING TO PLANTERS

THEY A CORRESPONDENT. Of all the latest news which has been published in the White Boy's Bulletin, perhaps the most interesting is the one concerning the planting of coffee trees.

The history of the white boy in coffee production remains a tale of disaster for growers. It is a tale of disaster for growers. It is a tale of disaster for growers.

It was reported last year in this column in the Uganda Hills report. This created some concern and a closer search must be made. Some quantity of coffee has been planted in the districts where it was first planted.

Reclamation Urged. In view of the serious nature of its potential powers for mischief and the need in planting coffee in these countries a careful should be maintained for the appearance. The stress on coffee trees should be systematically raised to below the ground level. The indications of the fatal bark which has been the cause of the death of the tree and for the purpose of the coffee should be destroyed which the grub has obtained its way into the tree.

Interested trees should be dug out and the soil should be turned and a good reason should be made on the site of the tree for the adult beetle. The letter are distributed to their very low autumn or 'fall' and to those who have a dirty white collection. The best of course should be destroyed.

A considerable number of trees on any plantation are found to be attacked by the pest of the Agrotis. It is a pest of the Agrotis. It is a pest of the Agrotis.

NAIROBI WOMAN'S TERRIBLE ORDEAL

Double Outrage Story Told in Magistrate's Court

EVIDENCE FOR THE PROSECUTION.

Statements Made by Native Official and His Friends.

A young Englishwoman's ordeal when attacked and outraged by a native within a few hundred yards of a main road in Nairobi was described in the Resident Magistrate's Court yesterday.

For an hour and a half the complainant, who has only been a short time in the Colony, underwent the most terrible experience. Her clothes were torn off her body, she was repeatedly beaten and half strangled.

Yesterday, although obviously distressed, the victim of the assault gave her evidence clearly and distinctly and answered without hesitation the questions put by the Crown Counsel and identified the natives as her assailants.

The accused is a pair of medium size. He followed the evidence with apparent interest and at the conclusion when asked by the Magistrate (Mr. Gamble) if he had any questions said he had nothing to ask.

The case will be continued at 11 a.m. to-day.

MEDICAL EVIDENCE.

Dr. Wilson was heard before the Resident Magistrate yesterday in the case of a woman who was assaulted in Nairobi a week ago. The second is a case of a woman who was assaulted in Nairobi a week ago. The second is a case of a woman who was assaulted in Nairobi a week ago.
