Kagera Textiles.

STABLY INCREASING OUTPUT REPORTED.

The first annual general meeting of Kagera (Uganda) Textiles, Ltd., was held at Winchester House, London E.C.

Mr. H. A. Hensley (chairman of the company), in reporting the progress of the report and accounts, said: "The net profit for the period under review amounted to £30,000, the which has been already distributed in the shape of two dividends of 20 per cent each, totaling 20 per cent for the year, and leaving the balance of £10,115, carried forward to our next account."

"When I last met you, in January of this year, I informed you that our general manager estimated for that year that there was available for dividend provision without credit approximately 1,000 tons of cotton waste. The manager has now measured up the detailed material, and estimates that it contains a total of 1800 tons of material, the average value of the ground being 245s. per cwt. net. In this figure he has allowed all areas going on to the cotton yield of waste. In addition to these proved reserves, he estimates a further 500 tons to be available for sale, which have been opened up by additional working, making a total of 2,300 tons. It is stated that, of which approximately 200 tons have been sold and 1900 tons remain available for treatment without costing plant."

"These figures only refer to an area of approximately 24 acres, on Hill No. 1 (Newlands), and the total area of our cottons amounts to about 300 square miles. It is anticipated that in no season will further similar sized deposits should not be discovered as prospecting proceeds."

Current Year's Figures.

"This year we have recovered to the level of June 1919, and the output has been steadily increasing. In January 9 was 18 tons."

It is noted in the "Standard Official Gazette" that the "Kagera Cottons" factory will now be into operation on January 1, 1920.

TOPICS for MOTORISTS.

Squeaks and Rattles.

How to Eliminate Them.

The removal of squeaks and rattles from a motor car is an operation which is not generally understood by owners and many mechanics.

Body Squeaks. A matter of importance and lubricating oil should be forced between the body covers with a squirt gun, or allowed to seep in from the application of a brush.

It is also advisable to let up on the body bolts and pack them in with grease.

Loose doors are also the cause of rattles and in many cases may be overcome quickly by inserting pieces of rubber in between the door and the frame.

If the doors do not fit the springs properly they can usually be adjusted by using a shim between the body and door.

Minor Squeaks. Very often the sashpots bolts of motor supports squeak, causing annoying squeaks under pounding and uncomprehensible vibrations.

Brake Rods. The parts under the car that will rattle are usually to be located by shaking them.

Steering Gear. Turn the steering wheel from full left to right lock, and see that all bearings are properly lubricated.

Spring. Unless springs have been designed for lubrication, they should not be oiled.

Sanitary Ware.

When building or renovating, specify
Shanks' Fittings
and ensure quality goods of British manufacture at moderate prices.

A comprehensive range of Shanks' sanitaryware is on view in our showroom, Union Buildings, NAIROBI.

Our stocks of all fittings for the bathroom are the largest and most varied in the Colony.

ALL THAT IS NECESSARY

IS EMBODIED IN
THE NEW FORD CAR.

QUALITY. Only the best materials enter into the construction.
WORKMANSHIP. The limits of measurement are so fine that the most advanced machine practice must be employed in the manufacture.

DURABILITY. The severe strain to which Cars are subjected necessitates every p-ossible factor of safety in all parts. Therefore excess strength is the secret, and the whole Car has been subjected to the most rigorous tests conceivable.

PERFORMANCE. Rapid acceleration, endurance, power and the ability to maintain high speeds for long distances meet the conditions required in this Colony.

DESIGN. Except in the high-priced field there is no product to compare with the Ford Model 'A'. Added to this it has the advantage of very low first cost, maintenance and operation.

Local Government.

The drafting of the Local Government (District Boundaries) Ordinance, 1928 which is contained in a special issue of the Official Gazette published this week and the salient points of which we give today briefly means the application of a system of local government in Kenya which we venture to think will be welcomed by all who are interested in the administrative development of the country. Following closely on the lines recommended by the Fochas Commission's report and based to a large extent on the wide experience of local government matters possessed by the chairman of the Commission, the machinery suggested for the working of the proposed new system should prove generally satisfactory, although it is possible that in actual practice it will be found necessary to introduce improvements or modifications to meet certain local conditions. Generally, however, the measures deserving of the sympathetic consideration of the grant of local government to districts which have hitherto had comparatively little say in deciding matters of special interest to themselves will be those in which the local government has power which in turn will necessitate a big growth in interest and responsibility. It may be that there is still apprehension on the part of settlers in some widely scattered and thinly populated districts that local government should be imposed upon them before they are ready for it; as well able to carry out the duties

Two Clarets of Quality and Value.

which it will demand, but it is unlikely that the Commissioner for Local Government will recommend the application of the Ordinance to any district whose circumstances are plainly such as to preclude the probability of the system working properly in that area. It may be recalled that the first issue of the Fochas Commission's enquiry into the subject was expressed in some parts of the Colony that the grant of local self-government would lead to additional taxation which might prove a burden. Whilst it is probable that some financial provision over and above that which districts today receive from the general revenues of the country will be necessary, it will be more than compensated by the privileges and progress which the new order will bring in its train. However, it is proposed that the District Councils should in large measure determine what first local taxation should take and in view of the provision of the Ordinance the present endowment proposals to provide the majority of the local governing body there is no likelihood of the imposition of any form of tax which does not meet with general approval. The danger of too wide experimentation with local taxation and the possible amount of a great many different schemes throughout the country is guarded against in the Ordinance by the limiting of the methods to three. The Bill follows the system in vogue in Britain in the rules adopted for the election of members. The provision for opportunity to retire from year to year is especially for the local electorate to express its opinion on the policy pursued by the bodies existing at the same time, something that which is desirable in the carrying out of progressive work.

Mombasa Orders. The Mombasa Oil (Regulation) (No. 1) (Amendment) Act, 1928, in this respect, on August 1,

Italian Government.
The Italian Government has announced that it will not be a party to the proposed settlement of the East African question. It is reported that the Italian Government has decided to abstain from the settlement of the East African question. It is reported that the Italian Government has decided to abstain from the settlement of the East African question.

After the Rain.
As a result of the heavy rain which fell on Wednesday afternoon and evening, many of the gutters and drains in the city were overflowing. The water was generally running at about the rate of 10 to 12 inches per hour. At about 10 o'clock, a heavy shower fell on the Sixth Avenue road at work. The water was generally running at about the rate of 10 to 12 inches per hour. At about 10 o'clock, a heavy shower fell on the Sixth Avenue road at work.

Over the Top!

The snows coming from the north on Wednesday evening and on Thursday morning, were very much heavier than usual. The snow was generally running at about the rate of 10 to 12 inches per hour. At about 10 o'clock, a heavy shower fell on the Sixth Avenue road at work.

Under the Standard Clock.

The Board of Management of the Mombasa Hospital for the Sick, has decided to purchase a new clock for the hospital. The clock is to be of the Standard Clock type, which will be of great service to the hospital.

At the Races.

The races at Nairobi were held on Wednesday evening. The racing was very much improved in quality and interest. The favourite was the colt named "The Standard," which won the main event of the evening.

STANDARD HEADLINE.

August 14.
Meeting of the Legislative Council on August 14, 1928. The Council met at 10.30 a.m. in the Chamber of Commerce.

August 15.
The Council met at 10.30 a.m. in the Chamber of Commerce. The Council discussed the proposed amendments to the Local Government Ordinance, 1928.

LOCAL GOVERNMENT IN KENYA. Functions and Powers of District Councils.

A NEW BILL.

A Bill, designed to give effect to the recommendations contained in the Report of the Local Government Commission, 1922, is now before the Kenya Legislative Council...

These qualifications are being put into the Bill dealing with the powers of the Councils...

It is proposed to give the Councils the power to make bye-laws for the regulation of the streets, and to provide for the appointment of officers and the appointment of officers...

Regus Askari.

In a case before Mr. Gumble in the Resident Magistrate's Court, yesterday, a charge was laid...

EXEMPLARY PUNISHMENT FOR OLIVIA NATIVE.

Hours of a Recent Importation.

The new system of distributing milk managed by Dr. Deane, the Medical Officer, appears to have been successful...

THE MOIST MARKET.

At the recent market, the prices of various commodities were as follows: Sugar, 1/2; Tea, 1/2; Coffee, 1/2...

Plain White China Milk or Cream Jugs

See 1/2 to 1 pint. Shop /95 1/35 1/75 2/95 weekly. S. Jacobs, Ltd.

WHAT IS THE USE OF ZOOLOGY? A Famous Professor's Answer.

HERBERT TOE FRIDAY, AN APPEAL ("STANDARD" CORRESPONDENT).

The splendid gift of £10,000, made by the Government to the Kenya Colony, has been put to use in the purchase of a large tract of land...

Methods for the control of animal pests and plants, both in agriculture and in the forests, are becoming more and more necessary...

Zoologists are actively engaged now in the control of these pests, and are making large areas of land in the Colony...

Zoological Problems.

"They present many zoological problems, chief among them the control of animal pests and plants, both in agriculture and in the forests...

At present the industry is a very primitive one, and the Government has to take steps to improve it...

"This over and above the economic value of the industry, I believe the future importance of its influence on our knowledge of animal physiology, psychology, and pathology."

Boasting on Medical Science.

"Comparatively little is known of the latter subject, and the chief hope of progress is an exact science in its connection with the human body."

"Finally, it is important that the public should be made aware of the value of the industry, and that it should be encouraged to expand and improve."

Nombasa's Milk.

HOURS OF A RECENT IMPORTATION.

Motors Used by Wire Lavers.

DISSENTING WARNING.

One of the new remarkable accidents for many several last week when three workmen of a contractor were killed instantly by a wire lamer straddled across the road. Partridge was used at the work. The lamer was attached to some timber being landed on the ways by a crane belonging to an Abington firm of contractor.

The car, as you see, was driven by a shaver named Gibben, and occasioned the death of Henry Martin Gibben, son of Mr. H. H. Gibben, Director, and Mr. H. H. Gibben, Editor of the Standard. The lamer was used at the work of Mr. Gibben's firm.

It is to be hoped that the accident will be a warning to other contractors of the danger of such a piece of machinery.

The car is said to have been travelling quickly and apparently on a straight road. It is reported that the car was used by one of the two men employed in the land-lager operations.

The car is said to have been used by one of the two men employed in the land-lager operations.

1. The employers recognised the national authority of the T.U.C. and recommended that workers should belong to an affiliated union.

2. No combination of workers for trade union activities. Both sides agree to forget their differences over the general strike and bury the hatchet.

3. A National Industrial Council, composed of equal numbers of employers and members of the T.U.C. should be formed to settle disputes and prevent strikes and lock outs.

4. Encouragement of the tendency towards the grouping of industrial units within an industry.

These points, which are the basis of future discussion have been criticised mainly on the ground that the Trade Union Congress has no authority in establishing a virtual monopoly in the representation of employers and has extracted valuable consideration for its members of the affiliated unions which are apparently denied to other workers.

The Perfect Baby.

STANDARD CORRESPONDENT. London, July 19. We have had a specimen of a Perfect Baby by Miss Nona March, Secretary of the British National Baby Week. It is as follows:

Last night, well-fed, and very, without a trace of sugar, dried fruit. His feet are firm, and he is always thoughtful, and happy. He showed well, and a never fed during the night, though during the day he is fed regularly by the clock.

CHRYSLER gives you

more for your money in the four great price classes. CHRYSLER engineering, which never rests its efforts, has maintained its product as fresh and as new as it was at the very moment four years ago. This spirit of progressiveness has been responsible for the pioneering and development of every significant improvement in motor cars since the first Chrysler. And through the Chrysler plan of Standardized Quality these refinements have been made available to all Chryslers. This Chrysler has set up entirely new standards of motor car value and has given more meaning to 'price' and 'price class' in the industry.

DEATH
BOYER.—At the Nairobi Burial Home on August 11, Fred, son of John Boyer, Funeral and Mortuary Undertaker to-day at 11 a.m.

African Standard

COASTAL EDITION
SATURDAY, AUG. 12, 1922

Sir Edward Denham.

Sir Edward Denham's congratulatory letter to the Government on his appointment as Governor and Commissioner of the Colony of Uganda is being widely read. The Colonial Secretary, however, had a wide comprehension of the responsibilities of Acting Governor. During the month following the death of Sir Edward Denham and his departure for the United Kingdom, Sir Edward Denham's distinguished record of service to the Government was widely known. It is a tribute to his judgment and foresight that his services were recognized by the Government. Sir Edward Denham was a man of high character and high ability. He was a man of high character and high ability. He was a man of high character and high ability. He was a man of high character and high ability.

to lay the foundation for development in many directions which had been delayed up to that time by circumstances which were the result of an unhappy period of depression. It is welcome for the Governor Denham that he has been able to continue his work in the Colony of Uganda. It is a tribute to his judgment and foresight that his services were recognized by the Government. Sir Edward Denham was a man of high character and high ability. He was a man of high character and high ability. He was a man of high character and high ability.

national will be missed very greatly. The establishment of the growing and increasingly popular Old Gold movement and the practical interest in the work of the N.C.A. will long be remembered, though it will be well served and although it will be well served and although it will be well served and although it will be well served.

Gibbs Shaving Cream gives personal attention to every hair

Gibbs extra-soft lather—rich, creamy, soothing—fills the weight of the cream and—combs, washes, and softens every hair in the beard. No dry appearance is shown. Each lather weighs for the softness of the cream, for the slightly-puckered skin of the shaving lather.

Gibbs Shaving Cream or Soap gives every hair the same thorough-going attention. The result is clean, skin-soft, and shows that leaves the face silky-smooth—and refreshed. The Cold Cream for Glibe lather soothes, beds, cools and conditions the skin while you shave.

Iron Bark Poles

White moves in three moves

PROBLEM No. 98.
By G. G. H. Healy.
Black 4

White 4
White moves in three moves.

SOLUTIONS

Problem No. 97 (Herald's).
Key: 1. Q-h4. If P-g7, 2. K-g5.
If K-g7, 3. Q-g8 mate.
If K-h7, 2. Q-g8 mate.
If K-h7, 2. Q-g8 mate.
This problem is very tricky and has
defeated Captain Tanner, the

**THE "INTERNATIONAL"
MATCH**

Europeans win the Lever Cup.

There was a large number of
presses in attendance at the
tournament last Saturday evening and

Hamilton Laing & Co. Ltd.
WESTLANDS BAKERY
OPEN SATURDAY
WRAPPED BREAD, CAKES, ETC.

great interest was taken in
the actual match between the
Indian and European champions.
The Indian players were very
fine. The Indian players were
Brokers Ltd. for the first time
last year. The Indian side
of the European team, after the
match, played in 1924.

The first night was very
lively. The Indian side was
strongly favored by the spectators.
The first night was very
lively. The Indian side was
strongly favored by the spectators.

White (White 4)

In this position White played
R-B3 and Black replied B-B4 to
capture R. White now
played B-B5 check, whereupon
White played R-B6 check and Black
must play K-K1 stalemate.
The next move Black was
killed when he played B-B5.
White then played K-K1 and
Black was mated. White won
the match.

Bridgroom Attacked at the Station.

OPPORTUNITY TO MARRIAGE.

In the Boudoir Magistrate's yesterday four Indians were charged with conspiring with a woman which took place at the Nairobi Station under this week. Mr. Shapley appeared for the second accused and the third appeared for the first, third and fourth accused.

Inspector Stewart said that what had apparently happened was that the second accused had married a Hindu widow, and that the rest of the party had opposed the marriage. When the second accused went to the Railway Station to leave Nairobi with his bride a fracas ensued in which the first, third and fourth accused attacked him. The second accused had to protect himself, and was also arrested. In view of these facts he asked for permission to withdraw the charge against the second accused.

Mr. Malik said he wished to mention the fact that the bride was the first one of the clients of the firm. The girl had married without the father's consent, and that had been the cause of the trouble. He admitted guilt on behalf of the three accused.

FINAL CONCERT BY VISITING OPERETTA.

(FROM A CORRESPONDENT.)

Next Friday evening, August 13th, the Italian and English Operetta will give their farewell concert at the Theatre Royal, and as there is very little time left, it is expected that a number of extra seats will be reserved in some of the boxes, in order to accommodate the large number of visitors who are expected to attend this final concert. The Operetta will have had the privilege of performing at the Theatre Royal for the first time, and the concert is expected to be one of the most successful of the season.

The Operetta will have had the privilege of performing at the Theatre Royal for the first time, and the concert is expected to be one of the most successful of the season. The Operetta will have had the privilege of performing at the Theatre Royal for the first time, and the concert is expected to be one of the most successful of the season.

Homings.

THEA PLAYERS TO SETTLE IN ENGLAND.

(STANDARD CORRESPONDENT.)

The 'Wang on' took a number of Kenya passengers from Nairobi to London, and Mrs. E. J. Hillebrand stated that she and her husband had just returned from their office tour recently, left by her. The prospect is really a promising one, and she is confident that the theatre will be a success in the East. Mrs. W. H. Hillebrand is the actress who played the part of the heroine in the play 'The Girl Who Came to Supper' at the Theatre Royal.

The Operetta will have had the privilege of performing at the Theatre Royal for the first time, and the concert is expected to be one of the most successful of the season. The Operetta will have had the privilege of performing at the Theatre Royal for the first time, and the concert is expected to be one of the most successful of the season.

Diessl-Electric Train.

AN INNOVATION FOR BRITAIN.

The first all-electric train in the British Isles has been put into service on the London and South-Eastern Railway between Liphobury and Maidstone.

It is fitted with the light-weight Diesel-Diesl engine which has been developed by the Messrs. British Diesel Engine Co. Ltd. of London. The engine is of the 150 H.P. type, and is driven by a Diesel engine which has been specially adapted for the purpose. The train is expected to be a great success, and will be a great boon to the railway.

more for your money in the four great price classes

CHRYSLER engineering, which never ceases its efforts, has maintained its product as fresh and as new as it was at the very outset four years ago.

This spirit of progressiveness has been responsible for the pioneering development of every significant improvement in motor cars since the first Chrysler. And through the Chrysler plan of Standardized Quality these refinements have been made available to all Chryslers.

This Chrysler has set up entirely new standards of motor car value and has given new meaning to "price" and "price class" in the motor car industry.

TOPICS FOR MOTORISTS.

Misalignment of Wheels.

A Dangerous Fault

Rear wheels should be equal in every way, that is, rear wheel adjustment should be perfect... The common cause of rear shaft misalignment are improper adjustment of the radius rods, bent axle housing, bent axle shaft, loosened front hub brake spring bolts, which allow one side of the axle to slide forward or back...

Testing Rear Wheels.

The method of testing rear wheels for misalignment is the same as that of testing the front wheels... The method of testing to see if a wheel is out of alignment is to measure the front axle to each of the two rear wheel drums. The distance should be exactly the same on both sides.

Warped or Crooked Wheels.

Each front wheel as well as the rear axle should be true on its axis. The best method for testing this is to check each wheel on its

turn. If the wheel is not true on its axis, it can be distorted readily in this way. Wheels that do not run true on their axles are sometimes called wobbly wheels. Although they do not seriously affect the car, they do bring out the very worst in the machine that is on the axle... The principal disadvantage of a warped or crooked shaft is that it constantly tends to rattle itself, due to centrifugal force. This tendency increases with the speed of the car.

The racking strain is liable to occur when a vehicle is being driven at a high speed and steering is constantly being used... King-Pin Tilt or Caster Effect. The front axle is tilted to one side to give the king pin the proper amount of tilt so that the tire center line of the king pin will follow the curve of the road.

Tenders are invited for 45 tons per month of mixed Beans for a period of 6 months from 1st October 1922 to 31st March 1923. Quotations to include cost of bags and also delivery by Railways Trucks at any Kenya and Uganda Railways and Harbours Station or at the General Railway Stores, Nairobi. CORRESPONDENCE

The editor does not accept responsibility for the correctness of the names and addresses of the writers... The present system of postage stamps is a disgrace to the country.

THE MUSIC PRIZE

It is a pity that the idea of the prize was not carried out... The prize was intended to encourage the study of music and to give a reward to the best composer of the year.

The afternoon I attended, the largest entry was I think the largest ever... The prize was intended to encourage the study of music and to give a reward to the best composer of the year.

When the prize was first given... The prize was intended to encourage the study of music and to give a reward to the best composer of the year.

It is a pity that the idea of the prize was not carried out... The prize was intended to encourage the study of music and to give a reward to the best composer of the year.

OUR WOMEN'S PAGE

A Letter from Paris

(By Yvonne Robert)

Little leads demonstrate how at times the latest form of costume is the Cut loose or swinging, but sometimes in line, it is worn over a bodice or sleeve or skirt. Sometimes the latter is a solid color and at other times that all manner of light or vibrant colors are used. In the tailor's art, it is natural that the fabric used in the dress should be particularly and selected. The material used creates practice in the fashion world and so a little more than these days.

much softer to its color palette and makes its up-to-date appearance in its various shades of faded green and its perfume of water-curtain. A favored and up-to-date costume of the moment is a simple, straight, full skirt, fast and worn in a simple, practical manner.

Pinks and corals of white crepe, spotted and bound in sayables, having a very graceful air upon a simple grey crepe de chine frock.

next ideas in the current look but still more recent is the mono-color suit. One's own mono-color is set into the back in jeans.

Fig Jellies.

Such too, course of powdered gelatine in one pint of water that twenty minutes one-half cup of water with fourteen ounces of sugar, four ounces of chopped figs, the juice of one orange and one orange, two ounces of Mandarin chopped almonds and the grated rind of the orange. Add the gelatine and stir for ten minutes. Pour the mixture into a thoroughly moist tin. Insert the leaves. Dust the figs with a mixture of equal sugar and water and stored in a cool place. Hold in being sugar and water. Leave for a few days. Do not keep these sweets for a long period.

HELTAPS.

Healtaps are much in vogue in the States. There is a new model which does not exceed 2 inches, and is known as the "one-inch" model, which is a variation of the two inches and covers between 2 and 2 1/2 inches. This is considered to be the latest height for the modern woman. Indubitably it has more than the proportionally fast feet but at the same time it allows for shoelets in walking. These shoes also conform to the new regulation height. But what the lack in height they make up in proportion, which sometimes is to back holders on the grip-sole. One of the

Fabric is playing a very important part in the creation of the new mono-color inspired dress which is completely the newly defined fact of combining the simplest with the super-fine and harmony. The super-modern good fabric. The which fabric are worked in the manner to the sophisticated and designs derived from nature and designs derived from nature. One has seen a fabric with a pattern of a simple black, covered prodigally with a pattern most graciously dark and veritable green, in fact, with every conceivable color other worn or painted into the picture. This influence is made a practical proposition by the adding effect of the color or the plain fabric, an effect that is successfully achieved with charming discretion and good style.

With the recognition of all these "Western" styles, the rather quiet fabric of the period have been given again with the new color of the moment. For instance, in some of the most all-world "Bullion" or silver stone. Parity with such party colors, it is

Oyster colored tulle, embroidered with pink and silver runs, makes a desirable little dance dress. With a Schu of pale pink net draped over the shoulders.

Many styles are included among the tailor-made. "Fussies and
