Reflections on the General

On policie back at the annual conceil meeting of the Gold Child. blell list wash, there are several points of interest which are the conceil meeting of the Gold Child back and the conceil which are the conceil to the game. Secondly, I was gratifie to see that the retiring committe had the full confidence of th had the full considence of the members, and the result of the election of the new committee showed that members were very satisfied with the way previous committees had carried on the work of the club. Twelve members were put up to fill seven vscancies on the committee, and the result of the ballot showed that the first four posit that the first four positions were filled by the only four retiring members of the last committee who now sought re-dietion, whilst of the three remaining positions two were filled by mem-bers of previous committees, that no member who had served on the committee of the Club previously, was not returned.

The Spirit of Loyalty.

It speaks well for the general well being of the Club, to see such a spirit of loyalty prevailing, Members of the committee and feel they have the full support of the Club, for the way they have handled the Club's affairs in the past and for their were in the fature.
