**APPEAL FOR FUNDS TO BUILD AN ORGAN.**

The Bishop of Uganda (Dr. Wilson) has issued the following appeal—

When in 1910 the old Cathedral at Namirembe at Kampala was struck by lightning and burnt to the ground, the treasury of the See made an instant appeal to the benefactors of Uganda and Uganda at home, and in generous response the benefactors of the old Bishop Tucker the sum of £10,000 was subscribed towards the cost of a new and more permanent building.

To this sum the native Church (which added some £17,000, and the new Cathedral was not consecrated in September, 1919. The Cathedral now stands as a model of the best buildings in Africa.

Since that time the organ in the Cathedral has never been accompanied by anything better than a harmonium which with a congregation of over two thousand people is not only inadequate but inefficient. The organ in the Cathedral is essentially non-existent. There is a choir of over sixty voices who can, on occasions, sing hymns more readily well, but choir and congregation will require a lead, such as only an organ can give. There is no organ in the Cathedral, and the Uganda are a very musical race, and quite capable of responding to good teaching.

It is felt that the time has now come when an organ should be provided for the Cathedral. An organ, adequate to the building whose acoustic properties are exceptionally good, will cost some £1,500. European organists, working in an honorary capacity in connection with the Mission, and capable not only of leading the choir, but of giving recitals, is available, and a Christian motive in teaching a competent organist. There is no doubt that European music plays, and will increasingly play, a vital part in the religious life of the Uganda, and anything that can be done to develop this native gift along good lines is worth doing.

Towards the £1,500 required about £800 has so far been raised. The bulk of the money will, it is hoped, come from the Uganda themselves. But while the organ is still for want of them an entirely unknown quantity, it is difficult to expect more than a few to be enthusiastic about something which they have never seen or heard, and which they are told will cost so much—£1,500.

I therefore venture to appeal to friends in England who are interested not in money only but in the progress of the Church in Uganda.

**Mombasa-Tanga. EARLY OFFICIAL OPENING OF TELEPHONE.**

(STANDARD CORRESPONDENT.) The Mombasa-Tanga telephone will soon be open to the public and it is understood that some little ceremony may accompany the opening. The Mombasa branch in its connection has long clamoured for this facility, especially in view of the fact that the telephone is essential to shipping matters and has anticipated that a great fillip to business will result.

It is chiefly owing to the representation of the Mombasa Chamber of Commerce that the line is becoming a fact, and it is interesting to note that the Chamber should have some prominent part in the opening. It is anticipated that the President of the Chamber or, in his absence, the Vice-President of the Chamber, Mr. F. H. Clarke being in Nairobi attending on the Tourist Commission as the Chamber's representative, will also give the first words. Such a demonstration would be entirely in keeping with the work done by the Chamber, which has done so much for the whole commercial community.

# ZEISS

**FOR YOUR EYES:**  
Best spectacles to deflect eyes in the subtraction of the military corrective lenses by the modern Pentax Zeiss lenses which reproduce on the retina images of perfect clarity from an object to which the eyes are directed. This was the field of the Pentax Zeiss lenses and the clarity they provide to the binocularity of the eyes improves the leading of industry which comes from the binocularity of the old-fashioned lenses.

**FOR YOUR CAMERA:**  
The eye of your camera is its lens. Just as the full power of the eye relies all on astigmatism, so the camera in what the lens makes it. A better lens finds the independence of the lines of the camera or sensitive and increases our enjoyment of our photographic work. This is why the best camera works of all cameras fit their higher capacities with Zeiss Tessar, the finest and most reliable camera type to be used.

# Again CHRYSLER Originality Re-Styles the Entire Motor Car Field

ENTIRELY original in style conception - creations of Chrysler engineering and artistic genius - the new Chrysler "75" and "65" literally stamp as old-fashioned the bulky and cumbersome precedents in motor car beauty and performance.

To-day, the mode is Chrysler - the world over. The whole world is demanding the originality in the new styles created by Chrysler - the new performance which out-Chrysler even Chrysler - the values which other cars costing far more cannot match.
