# The Greatest Miracle in tyres

1. The Goodyear Double Eagle is a super-tyre in the highest meaning of the term.
2. Made without regard to cost or selling price it will give mileages beyond all previous conceptions of tyre performances.
3. Placed in service on a new car Goodyear Double Eagles will last as long as the average owner drives it.
4. Mileages from 20,000 30,000 are easily obtained, and so heavy and thick is the construction - with the toughest tread armour ever used - that punctures will be a very rare occurrence during the life of the tyres.
5. Built for operation under severe conditions.
6. Built to conquer thorns, rocks and ruts.

**GOODYEAR DOUBLE EAGLE Tyres and tubes are available for the following cars**

# The Maize Products Industry.

## Opportunities which are Neglected.

In the following article by Mr. E. E. Butler in the *Farmer's Supplement* to the Johannesburg "Sunday Times" the possibilities which lie before the Union of South Africa with regard to the use of maize products are explained. Many of the opportunities to conditions in Kenya and adjacent all the opportunities mentioned in the article may not be practicable at the present time in the Colony itself, should nevertheless prove of interest to the progressive farmer in this country.

South Africa is one of the great maize-producing countries of the world owing to the fact, no doubt, that maize is a crop natural to the country. As regards quality, our maize is second to none. It is therefore natural that this great crop should be grown in a condition which have given rise to a considerable and growing export trade of maize corn. But it is most unfortunate that our farmers are compelled by circumstances to export this product in the raw state, other than as a satisfactory figure, when equally undertake circumstances compel South Africa to buy back a large quantity of the same material in the finished state, as manufactured articles. During the numerous round-about journeys of the products the cost of transport and import duties on both ends are simply prohibitive, and so though maize from our soil is becoming more and more impoverished by the means. In fact, we have to look, the very mineral fertilizers required free of charge made the maize corn.

A huge export trade in raw maize is always obtainable a very large loss in food commodities of the soil, to say nothing of the equally important commercial aspects. If most of the maize could be turned into the manufacture of articles inside the Union, the problem would not be solved, however we do not possess the population to absorb the finished goods. We must have to make the best of a bad situation, and it would appear that if we would really do this the world would be all the better. We have by no means made the best of our position up to the present

of maize a day in 1929 handled 50,000 bushels a day in 1929. The present production of maize in this country is about 100 per cent more than in 1929.

The maize products usually manufactured consist of meal, glucose syrup, grape sugar, corn oil, stock feed and animal powder. In the United States these items practically all the maize made on a large scale, for which a reasonable demand exists in the world's markets.

The grain of maize, including the germ, and most valuable part of the whole plant but the hull, leaf, husk, cob, chaff and stalk, and in many cases the root as well, also yield numerous by-products.

The relative proportions of the grain are—

Per Cent.	Per Cent.
Tip top	1.43
Hull	5.20
Total primary	7.63
Stalk	11.15
Hoarv starch	43.04
Hoarv endosperm	34.19
Corn starch	17.88
Tip starch	10.18
Starchy residue	27.54
Starch	88.59
Germ or embryo	11.02
Total grain	101.01

Let us leave our plants on the fact that if the world buys our maize as it does so because it has to have it. It is worth more to us because so it will have to buy the finished article long as it we refuse to export the raw materials.

Opportunity.

Herein lies our opportunity, we may be able eventually to open up a export trade in the manufactured maize products in place of the present business. All the same time the farmer will not be the only one who will reap the benefits. The various factories and mills will be able to stand along with the farmer and the manufacturer will be members of one large co-operative society, and thus the growth of the people, more united than ever. As things are at present, agriculture and commerce do not go very much together for these two goals and that of the country. Their interests often clash, which distance results to the whole trade as well.

It is quite natural, however, that instead of depending on manufactured articles, our present circumstances may lead to the use of raw material at all in other lines of commerce, and it is to be expected that this will be used as much as a task as in the case of finding markets for the finished goods. We must remember that maize will not grow everywhere, while certain maize products are needed everywhere.

There is no other crop in the world that provides so great a variety of different finished articles as maize, and yet the maize products industry is at present a very small factor in South Africa. This is because we have not opened up prospects of a large export trade in finished goods. There is no waste made in the maize products industry, whether the raw material be of high quality or otherwise. Both qualities have their peculiar value for certain purposes, and it is not a very far fetched idea to suppose that a very few raw materials grown appropriate. This is the maize trade has a use.

The world's demand for maize products is growing by leaps and bounds. A plant in Chicago, for example, that handled 500 bushels

Difficulties Which Beset the Fraternity.

GOOD AND BAD ROAD.

The following article appeared in the morning columns of the Northern Vang...

It is a delightful to get back to good roads and splendid as the road is, it is not always safe...

The rule is adamant. Keep to the proper side of the road, and see to it that you are on that side when you take a corner or bend...

I mention this specially as those who return to have observed several instances only.

Composition of roads and kind of soil and beds necessitate the strictest observation of the rule of the road to keep well to the left.

Near my house there is an 8 band, which all the shagbark trees are planted in the middle of the road.

Here in the neighbourhood of Bulale and districts suffered very severely from congestion of traffic...

It is not going to express my own view, but I understand all the facts, but there does seem to have been some queer somewhere.

**Difficulties Which Beset the Fraternity. GOOD AND BAD ROADS.**

The following article appeared in the morning edition of the Northern Viceroy.

It is interesting to note that an absence of the first impression the motorist has to have anything to do with motoring is here as here as there. It is not surprising that one of the most common and most annoying accidents which occur is a heavy one.

It is far from obsolete to say that the motorist in East Africa, for example, the motorist has to allow for the simple things to cover his own safety. The time he takes to get on the road is not the time he takes to get off it. It is not surprising that one of the most common and most annoying accidents which occur is a heavy one.

### Those Winning Smiles

What's there so tooth-convincingly, toothy—  
 about this new way with gleaming white teeth

Keep your fingers across your teeth and you will feel a tingle. This film, in the light of recent dental findings, is a necessity to pretty teeth and healthy gums.

This chemical cleans and tones white teeth dull, "old color," and the chief cause of the common tooth and gum diseases. It clings to teeth and

glosses them by the millions used in it. They, with tartar, are the chief cause of pyorrhea.

Film must be removed each day. Do dentists urge the special film-removing dentifrice called Pepsodent.

No other will make teeth so sparkling white.

**Annual Patent Test**

To prove results buy a tube of Pepsodent, the quality dentifrice — for sale everywhere. Or send for 10-day 5c test to Dept. M, R. 222, KERR & H. WARD & CO., 144, P.O. Box 106, HATFIELD, KEENE COLONY.

**Any product bearing the name of CROSSE & BLACKWELL may safely be taken on trust. It is as good as only 100 years of experience can make it.**

### AGRICULTURE.

(Continued from page 6).

Starch—It stands second from a principal product. It is both corn and potato. It is the most valuable by-products made by distillers. It is used in the manufacture of starch. It is used in the manufacture of starch. It is used in the manufacture of starch.

(1) Brazilian from corn yields 22 1/2 per cent starch to the grain.

(2) Hickory King yields 48.71 per cent starch in the grain.

(3) Hickory King yields 41.37 per cent starch in the grain.

(4) Chester County yields 44.38 per cent starch in the grain.

From these figures it will be seen that the starch content of the grain is really very important. It is the main reason why the starch content of the grain is so important.

Starch

The soft nature of the Brazilian corn, which contains much starch, makes it very hard to store. It is very hard to store. It is very hard to store.

## Real Appreciation.

Nairobi.  
 March 19th, 1929.

Messrs THE MOTOR MART & EXCHANGE, Limited.  
 P.O. Box No. 178.  
 NAIROBI.

Dear Sirs,

After spending four successful months on safari in your splendid and delightful country, we are now taking our departure for Home, and are resorting to this means of expressing to you our thanks and appreciation for your many kindnesses and splendid service.

You will, no doubt, be pleased to know that the three CHEVROLET TRUCKS and the CHEVROLET TOURING CAR which we obtained from you upon our arrival have been every bit as good as we were told they would be. In fact, we are so pleased with them that we are sure that they will give us many more years of service.

IN NO INSTANCE HAVE WE HAD TO UNLOAD FOR WANT OF POWER OR STABILITY. Shortly after starting out, we learned to depend upon them, and they have been a source of comfort and convenience.

Again assuring you of our appreciation and wishing you the best of success.

With kindest regards,  
 Yours very sincerely,  
 (Signed) A. F. LEURANCE,  
 District  
 District.

**Flies Bring Disease into Your Home**

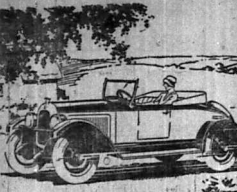

Flies carry a few germs into your home. Disease rides in on its back. Your own health and the health of your community depend on you kill these such enemies of Man. Destroy them the easiest, quickest, safest way—using FLY.

FLY drives the house in a few minutes of disease-bearing flies. This means the house in a few minutes of disease-bearing flies. This means the house in a few minutes of disease-bearing flies. This means the house in a few minutes of disease-bearing flies.

Do not confuse FLY with ordinary insecticide. Germs kill but power houses disinfectants. FLY kills the largest and most dangerous of insects in the world. The FLY kills the house fly.

# The Fall of King Amanullah.

## His Intrigue on the Indian Frontier.

**A Good "Tip"!**

**Crawford's LIQUEUR**

SCOTCH WHISKY

**A. & C. CRAWFORD**  
LEITH - SCOTLAND

A remarkably outspoken article in the "Weekly Dispatch" by Sir Michael O'Dwyer, ex-Lieutenant-Governor of the Indian Punjab, reveals how the King Amanullah's treacherous attack on British India.

He says:

"A year ago all London entertained a very right reception to the news that King Amanullah had taken over the Government of Afghanistan, on the result of his attempt to invade the East. Amanullah had had the support and aid of his Queen here in London, and safety."

Accompanying with the fallen Amanullah and his Queen—whose grace and charm won so many admirers (while he fondled for Western fashions and costumes abroad, and wore his turban in Afghanistan)—were his blind and his three outstanding sons. In Amanullah's 10 years' reign, which were the main periods of his downfall.

### Uproar in Kabul.

1. He usurped the throne by force, expelling his father-in-law, the Emir Abdur Rahman, and his six sons. Amanullah was proclaimed Emperor in Kabul, and in the same month he crossed the Afghan frontier into British India. He had only a few days to show in the hills with the Germans and Turks and the British.

2. He made a most treacherous attack in April, 1919, within two months of the announcement of the structure of the new British Government in Kabul, which was to show in the hills with the Germans and Turks and the British.

3. He made a most treacherous attack in April, 1919, within two months of the announcement of the structure of the new British Government in Kabul, which was to show in the hills with the Germans and Turks and the British.

**At this stage it came to our knowledge that Amir Amanullah was concentrating large masses of troops towards the North-West Frontier with a view to making an advance on our defenses and adding new men to the many successful invasions of British India.**

Amanullah and some of his other ready leaders to the conspiracy. Supporting this theory towards the North-West Frontier with a view to making an advance on our defenses and adding new men to the many successful invasions of British India.

THE DEVELOPING CAPITAL OF KENYA.

Nairobi Changing Beyond Recognition.

A YEAR'S GROWTH.

Stately Buildings Give Place to Wood and Iron Erections.

Nairobi has changed so much within recent months that people returning to the Capital of Kenya after a lapse of a year or so are amazed at the transformation.

PROGRESS AT WORK.

In a capital which is being built with the rapidity of London, it is not surprising to compare the town as it is today with the conditions which existed ten years ago.

It is a capital which is being built with the rapidity of London, it is not surprising to compare the town as it is today with the conditions which existed ten years ago.

Nairobi will have, in a comparatively short period, the appearance of a city.

It would be a pleasure to be able to describe the progress of the town during the past year, but the space available is so limited that it is only possible to give a brief outline of the changes which have taken place.

**Country Roads and Weather Report.**

**RAINS HOLDING OFF**

My Omani-France writes— We still must believe as there are no signs that the hot rains are about to commence. Normally they should reach Nairobi about March 25, but although there have been heavy showers all over Kenya and Uganda, there are no indications of the rain weather setting in. This is further borne out by the telegrams from Arabia indicating that although they have seen some small showers, the country is dry and the roads passable. At these times get the best rates about three weeks before they reach Nairobi, the outlook is distinctly bad.

Expecting Nairobi and Interior. I think that we shall have somewhere during the week-end, but they should not be heavy enough to materially affect any of the country roads.

I give a list of suggestions in Thursday's daily paper of where to spend the Easter Holidays, but I have recently received to mention the "White Rhino" Hotel at Nyet which is opening ready for the holiday trade, and the Boy Field at Gey, which was burnt down some little time ago, and has now been rebuilt.

The following is the state of country roads as per telegraphic information received yesterday afternoon—

**Mombasa-Mombasa**—Machakos reports that only a little rain has fallen and that all roads are fairly good. There has, however, been a heavy downpour between Voi and Samburu, although Machakos has reports no rain, and all roads smooth. The Drove can only just be crossed with occasional difficulty.

**Mombasa-Tanga**—Fair  
**Tanga-Mogonyi**—Headed-Turkana-Mogonyi—intermittent showers, but still passable.  
**Nairobi-Eldorado**—Longitude, Fair, with a much lighter shower beyond the Ngong Water-works and another rough section between Kisumu and Mombasa.  
**Longitude-Momb** and **Longitude**

**How to Get Rid of Indigestion.**

Those who suffer from indigestion, gas, acidity, flatulency, dyspepsia, heartburn, etc. will be glad to learn that relief can be obtained by taking half a teaspoonful of Bismarck Magnesia powder or two or three tablets in a little water immediately after eating or whenever pain is felt. This instantly neutralises the acid that causes all this trouble, stops the fermentation, heats and warms the inflamed stomach lining, and restores normal digestion. Get a package of Bismarck Magnesia powder or your chemist today, use as directed, and you will save by getting your tablets low cost, get rid of indigestion.

**Again CHRYSLER Originality Re-Styles the Entire Motor Car Field**

ENTIRELY original in style conception - creations of Chrysler engineering and artistic genius - the new Chrysler "75" and "65" literally stamp as old-fashioned the bulky and cumbersome precedents in motor car beauty and performance.

To-day, the mode is Chrysler - the world over. The whole world is demanding the originality in the new styles created by Chrysler - the new performance which out-Chryslers even Chrysler - the values which other cars costing far more cannot match.

### "SINCE JIM GOT HOLD OF A LITTLE BIT OF SPOSH—"

**Lord Olivier Compares Kenya Politicians  
with a Chevalier Ditty.**

**DR. LEYS ON LIBERAL AND LABOUR PLEDGES.**

**Edinburgh Professor Hopes Imperial Government will  
Denounce "Dominion" Aspirations.**

Interesting points of view upon the Closer Union Commission's Report come from three individuals, Lord Olivier, Dr. Leyss and Professor Berridale Keith. The views of the two former are, of course, well-known on Imperial Constitutional Law is an opponent of Responsible Government claims but agree with the Kenya view that Advisory Committees in London are unnecessary.

Lord Olivier is especially ironic. He says the Kenya politicians' attitude reminds him of Chevalier's song: "know where a've, 'em!"

Three orators of the Kenya view, Professor Berridale Keith, Dr. Norman Leyss and Lord Olivier, have found in the Hilton Young Commission's Report an opportunity to express their views on the political position of the Colony and particularly upon the claims of the white settlers.

Lord Olivier wrote one of his highest articles in the "View of the World." It was called "An Imperial Comedy" and was popular with many.

This Lord Olivier said, later also:

Wars, ... is the great East African drama, conducted from Nairobi, with Kenya representing a platoon of European soldiers, and Kenya being peacefully disposed of into the British Empire, so that the Labour Party of both sides is away to Germany, and that the multiplication of "lines"—meaning subjects of other parts in the mass—may come to testify writers of letters in the "Times" to the

acted for closer union approved... Mr. Amery committed himself to the impression that the proposed new departure had been inspired by a new movement on the part of the European states...

By the terms of the Commission's latest recommendation... The claim to control... of the present... of the future... of the present... of the future...

The pronouncements of leading Kenya politicians, the reports of their Imperial Labour committees and the manifestos from time to time... of the present... of the future...

It is the great East African drama... of the present... of the future... of the present... of the future...

## Real Appreciation.

Nairobi,  
March 19th, 1922.

Messrs. THE MOTOR MART & EXCHANGE, Limited,  
P.O. Box No. 179,  
NAIROBI.

Dear Sirs,  
After spending four successful months on safari in your splendid and delightful country, we are now taking our departure for home, and are resorting to this means of expressing to you our thanks and appreciation for your many kindnesses and splendid service.

You will, no doubt, be pleased to know that the three CHEVROLET TRUCKS and the CHEVROLET TOURING CAR which we obtained from you upon our arrival here have met every requirement and given us the very best of service. In fact, we never knew that trucks could do what those trucks have actually done.

IN NO INSURANCE HAVE WE HAD TO UNLOAD FOR WANT OF POWER OR STABILITY. Shortly after starting out, we learned to depend upon them, and as we have a source of comfort and confidence.

Again assuring you of our appreciation and wishing you the best of success.

With kindest regards,  
Yours very sincerely,  
(Signed) A. F. LIEURERNE,  
Oakland,  
California.

CORRESPONDENCE

The editor does not accept responsibility for the views expressed in correspondence, and in all cases the name and address of the contributor must accompany a letter. Necessary attention will be given to queries of a general nature, but no special consideration.

THE FRANCHISE To the Editor, "The Standard" Sir—America is the only really a man, and any man who has the right to be a citizen of the United States should be allowed to vote in the election of the President of the United States. It is a disgrace to our country that we are not allowed to do so.

What is wrong with this country for Kenya? Yours etc. DIXIE

MUNICIPAL VOTERS ROLL To the Editor, "The Standard" Sir—The public is much surprised to find that the names of the voters in the Municipal Council are not published in the Standard.
