Use a Good Saw!

When you buy a saw, buy a good one! A good saw does good work; a poor saw makes a bungler. The saw most carpenters use—the Dixon Saw. The skill of three generations is back of the Dixon Saw. Dixon makes them just the way the best of master craftsmen make theirs. They are tough, they are true because they are unsharpened and tensioned right; they cut fast because the blade is tapered slightly for clearance; they stay sharp because the teeth are ground on a lathe, just as the teeth of the best hand tool, good Dixon Steel in the Dixon saw. Buy a good saw. Buy a good saw for the blade name on the blade.

A SPIRITUALIST'S BELIEF IN LIFE AFTER DEATH.

Sir Arthur Conan Doyle's Fascinating Story.

MESSAGES FROM THE SPIRIT WORLD

The Conditions Surrounding Those Who Have Left the Earth.

Just over six months ago, a big Nairobi audience stood before a crowded audience in the Theatre Royal and presented his case for spiritualism...

Many interesting and not a few amusing questions were put to Sir Arthur at the close of his lecture...

Sir Arthur was also asked about a 20 year old murder mystery, the resurrection of a man found in one of the brighter spheres after "passing over"...

He quoted lengthily from messages received under conditions in the world of life after death...

RELIGION REQUIRES REORGANISATION

Sir William Crooks on reorganising religion as it applies to modern life. He said that Sir William who must have been a good regular loiterer on the subject...

Personal Experiences

Turning to his own personal experiences, Sir Arthur said that he had had a number of instances which managed to get into his mind in a way which was not in any way due to his own volition...

history were religion had to be reorganised. What was the result? The Church, which had been founded for thousands of years...

The Life After

How do spiritualists get the material which they use in their lectures? Sir Arthur said that he had had a number of instances which managed to get into his mind in a way which was not in any way due to his own volition...

AGRICULTURE

KENYA AGRICULTURAL AND HORTICULTURAL SOCIETY.

Heavy Burden of Maintaining Three Showgrounds.

A SUCCESSFUL YEAR IN 1922.

"From spaces to acres" was the keynote of the reports at the annual meeting of the Kenya Agricultural Society held on Wednesday evening last. The Director of Agriculture, while sympathising with the farmers, expressed the belief that the Colony's resources would not be greatly increased. Professional arrangements for Shows are, Nakuru, December 1922, Eldoret, March 1923, Mandi, December 1923.

Unless the income of the Society improves, the policy of running three Showgrounds may be continued indefinitely.

DATES OF FUTURE SHOWS.

The agricultural industry of this Colony is passing through a difficult period, and it is not surprising that the members of the Society are in a somewhat pessimistic mood. It is, however, a fact that the Society has been successful in its efforts to maintain its three showgrounds, and it is hoped that the members will be able to do so in the future.

The Society's financial position is a matter of concern to its members. It is, however, a fact that the Society has been successful in its efforts to maintain its three showgrounds, and it is hoped that the members will be able to do so in the future.

Announcing The World's Greatest Tyre

The Goodyear

DOUBLE EAGLE

Entirely Different.
The Double Eagle Tyre should not be confused with any so-called "Heavy Duty" tyre—it is much more than that. It is non-competitive by design and intention a super-tyre, in the highest meaning of the term.

Made Regardless of Cost.
The Goodyear Double Eagle tyre was designed and made regardless of cost, with no thought to competitive. It is a tyre that transcends all previous standards. Good-year engineers worked with a free rein for two years—without consideration of cost or selling price—to develop this tyre masterpiece.

The result is—the new Double Eagle the most remarkable tyre the world has ever seen.

Great Tyre Mileage.
Creation of the Double Eagle Tyre was based upon the knowledge that there was a definite demand for a tyre that would give 30,000 and more miles of service and at the same time represent a greater factor of safety against skids, rough roads, rocks and thorns than is ordinarily met.

Those amazing new tyre puts on a new car will last as long as the average motor driver's. It is being the special tread rubber used and the massive construction, the danger of punctures is practically eliminated.

Special Construction.
Wherever additional material or extra quality could possibly add to the service abilities, they were used extravagantly. The only limitation observed by Goodyear was the maintenance of the tyre within the established standards of proper design.

The "Superstret" cords are especially heavy. The tread compound is the toughest ever used on any tyre heretofore, and is approximately double the thickness of ordinary tyres. There have been an extravagant use of rubber between the plies of cord, and the side walls are unusually thick to resist abrasions from ruts and rocks.

DOUBLE EAGLE PRICES.

Double Eagle tubes are made extra heavy. Pumps and tools have proved that as deflation through the walls is practically non-existent.

Exhaustive Tests.
Because this tyre was to be offered as Good-year's greatest achievement tests were imposed upon it such as no other tyre has ever been asked or expected to endure.

Under most adverse conditions as far as the tyres were concerned, the Goodyear fleet of test cars, equipped with Double Eagles, were driven on abusive cross country, ditches from the Atlantic to the Pacific coast and return on improved and unimproved roads. Speed and endurance trials were held back and forth across the rocky mountain roads of New Mexico, across the Arizon deserts, where a combination of hard roads, trails, thorns and extreme heat contrive to break down any tyre if weakness exists. No tyre has ever endured successfully such test as were shown upon the Double Eagle.

Bigger, stronger, infinitely more enduring, these new tyres will change all previous conceptions of tyre performance.

It is made for those who demand and require superlative service, particularly under severe conditions. Built for those who drive over sharp, rocky and rutted roads, and also for those who drive at high speeds.

Double Eagle are obtainable in low pressure sizes only and are sold only in pairs.

Practical Results are the Deciding Factor

The all-tons of maintenance - a high standard of tractor efficiency - and the ability to work continuously on heavy loads have established the superiority of Cross Power Kerosene.

"We can confidently recommend Cross Kerosene to any one requiring a fuel where the utmost power is required."

"Cross Kerosene has proved, after years of service in our tractors, to be the ideal fuel and having all the characteristic virtues peculiar to a first grade fuel."

"We also notice that the purity of Cross Kerosene has overcome the usual trouble of Crankcase dilution and that this in itself is proof beyond dispute that Cross Kerosene is a product which cannot be surpassed."

SOUTH FARMERS' PROTEST AGAINST H.E.'S ACTION

Criticism of Commission Report.

FROM CORRESPONDENT.
Mr. C. G. Harvey has just issued his report on the Commission of Enquiry into the Land and Agricultural Development in Kenya. It is a long and detailed report, and it is to be expected that it will be the subject of much discussion and criticism. The report is a valuable contribution to the knowledge of the land and agricultural situation in Kenya, and it is to be hoped that it will be the basis of a more rational and equitable policy for the future.

A New Telephone Line.

Thanks to the public-ownership of the telephone system in Kenya, the telephone service is now being extended to the most remote parts of the country. This is a great step forward, and it is to be hoped that it will be followed by further extensions in the future.

Kenya's Progress.

Kenya has made great progress in many fields since it became a self-governing colony. This is due to the efforts of the Government and the people, and it is to be hoped that the progress will continue in the future.

LEGATION TO MEET FAMILIAR SITUATION.

130,000 Natives to be Fed for Five Months.

The Times Telegrapher met specially on Thursday to consider the legislative summary in the report of the Government on the famine situation.

The summary was unanimous, some passed without the slightest dissent, others with the least possible dissent, but the Government's policy is to be maintained.

It should be mentioned that the Government's policy is to be maintained, and that the Government is to be maintained.

The Member for the Eastern Highlands reported the situation in that district, and the Government's policy is to be maintained.

SPIRITUALISM.

"Try the spirits whether they be of God" (1. Jn. iv. 1)

In his address of Feb. 12th, Sir Arthur Conan Doyle, following a well-known precedent, repeated the words of the Apostle Paul.

His answer hardly denied the essential "Deity of Christ, who he said, was a servant of God who had by progress as far as the 7th sphere, thus showing by the scriptural text that these spirits who are so fondly cherished at impersonating our dear departed are, in fact, the "selecting spirits" of the "later times" (1. Tim. ii. 1): "the spirits of demonic work, having miracles" (Rev. xv. 14); "the Strong Delusion" foretold by St. Paul.
