DEATH AND THE LIFE HEREAFTER

First of a Series of Sermons.

St. Mark's, Parklands, to 88. Mark's, Parklands, to revowled congregation spoke on the subject of "Death and the Hers fair." He beste were Helsews, 11, 14-15 and 2 Timostry 1, 10, where Jesus Christ a proclaimed as the Saviour, who "has follwared brought life and hydrigar and brought life and "financiality to be provided by the subject of the saviour," he was a subject to the saviour, who "has follwared and brought life and "financiality to the saviour who "has follwared by the saviour who "has been and he will be saviour when the saviour was a saviour when the saviour was a sav

The subject, said Mr. Cartiale The subject, said Mr. Carink, was too large to treat adequately in one evening. That night they would link of what death meant in the light of the Christian Grupel. People had a right to sait that religion abould fulfil their highest appraisions and assisfy the German Chepotal Congrigos. The Christian deepest longings. The Christian religion, rightly understood, did this, United States and the pest training the pest training the pest training to the pest training the pest training to the pest training training to the pest training traini shall come to the knowledge of the truth and be saved."

The fear of death, as the "King of Terrors," had been very real in the life of man; fear of the un-known, fear for the loss of dear ones, fear of complete extinction.

The ancient pictures of life after death, even in the Old Testament. death, even in the Old Testament, were pale and shadowy: a land of darkness. "where all things are forgotten." Pagan ideas still sur-vived as excessive mourning weeds and broken pillars in cometeries. Only a strong true faith could conquer fear.

The Life Beyond

higher and richer life awaited us. "There is no death, what seems a But the Bible was right, con tinued Mr. Carlisle, in attachin

insued Mr. Carlisle, in attaching great solemnity to the moment of death. The right feer of death and from its connection with sin-cent from its connection with sin-serials, worldly, Godless, 16c, the that of the "Rich Fool" was no preparation of a spiritual per-mutation of a spiritual per-sonality for the life beyond, where would not be found. The tring of death is sin. Just Christ earns to give the visitory over ain and itself.

ng the st was the guarantee for velict in a future life.

Announcing The World's Greatest Tyre The Goodyear

DOUBLE EAGLE

Entirely Different.

The Double Eagle Tyre should not be con-fused with any so-called 'Heavy Duty' tyre—it is much more than that It is non competitive, by design and intention a super

Made Regardless of Cost.

The Goodyear Double Eagle tyre was designed and made regardless of cost, with out thought to competition. It is a tyre that transcends all previous standards. Good year engineers worked with a free reign for two years without consideration of selling price to develop this tyre master

The result to the new Double Lagie the most remarkable tyre the world has ever seen

Great Tyre Mileage.

Preation of the Double Engle Tyre was based spon the knowledge that there was a definite demand for a tyre that would give 30,000 and more nulse of service and at the same time represent a greater factor of safety against abuse, rough roads, rocks and thornstain is ordinarily necessari.

These amazing new tyres put on a new will last as long as the average owner drives
it. Owing to the special tread rubber used
and the massive construction the danger of punctures is practically eliminated

Special Construction.

Wherever additional material or extra quality could possibly add to the service abilities, they were used extravagantly. The only limitation observed by Goodyear was the maintenance of the tyre within the estab lished standards of proper design

The "Supertwist cords are especially heavy The tread compound is the toughest ever used on any tyre heretofore, and is approximately double the thickness of ordinary tyres

There have been an extravagant use of rubbe between the plies of cord, and the side wallare unusually thick to resist abrasions from

gauge and tests through the walls	bes are made extra h have proved that air of is practically non-exist	diffusion tant

Fit Double Eagle and eliminate twee trouble If Your Dealer cannot Supply You for the next two or three years.

Exhaustive Tests

Because this tyre was to be offered as Good year greatest achievement tests were imposed upon it such as no other tyre has ever been asked or expected to endure

Under most adverse conditions as far, as the tyres were concerned, the Goodyear fleet of test cars, equipped with Double Eagles, were driven on abusive cross country, dashes from the Atlantic to the Pacific coast and return on improved and unimproved roads. Speed and endurance trials were held back and forth across the rocky mountain roads of New Mexico, across the Arizon deserts, where a combination of harsh roads, trails, thorns and extreme heat contrives to break down any tyre if weakness exists. No tyre has eve before endured successfully such test as were showered upon the Double Eagle

Bigger, stronger, infinitely more enduring, these new tyres will change all previous conceptions of tyre performance

It is made for those who demand and require superlative service, particularly under severe conditions Built for those who drive over thorns, rocks and rough trails, and also for those who drive at high speeds.

Double Eagle are obtainable in low pressure sizes only and are sold only in pairs.
