NAIROBI, THURSDAY, FEBRUARY 27, 1930

PRICE, 20 CENT

OVERNOR AMONG THE KIKUYU.

Greeted by 3,000 Natives at Kyambu.

WARNING TO YOUNG MEN.

Special Steps to Strengthen Tribal Authority.

Excellency the Governor of Kenya attended yesterday to first of a series of barazas in the Kikuyu Reserve.

a reference to the attempts by some young men to stir up trouble—particularly the Kikuyu Central Associa-tion—the Governor indicated the intention of Govern-ment to give the chiefs every support necessary to carry out the policy of Government.

e stated that steps had been taken to prohibit the sing-ing of songs holding himself, the Government, the Chiefs and certain missionaries up to ridicule and the law had been strengthened to prohibit the collection of money by natives without a permit and that the powers of the Klama were being augmented.

All you young men must be made to understand." he said. " that Government will not tolerate lawlessness of any kind." adding that the Chiefs would have full sup-port in punishing it.

CONTROLLING COLLECTION OF MONEY.

QUERIES AND ANSWERS

EDITORS NOTES.

Tam glad to hear that several sits are being prepared in answer is the request from the Secretary. I. H. S. We are very anxious to end in as complete a let as pre-bile, so will all gardeners help to the best of their ability.

er um best et tiede absili).

The Sale of Plants 'es teen face for Saturiae, April 5. It is being held in 15ts. It. F. Moye's Orarten. Hierarchie, from a pun Contributions of plants should bell either at Mrs. Mayer's home on. Friday or early Saturday or they may be deposited at Meare. Simpson and Whiteleaw's to be onliceted.

Soct.

The excellence of work as a ferliker cannot be correcestipaled. The first thing to do if to keep
idored in a dry place, as it lease a
virtue if allowed to get wes.

Secondly, mere use new or fresh not. If applied fresh, it is or course if a spiled fresh, it is or course, it is will kill even a course, if stored at the base, of it, and, if used on small plants during dry weather, it will burne months old is best; and newer use months old is best; and newer use it in hot, dry weather but in showery weather or on down mornings.

It can be used for dusting seed beds, such as onious, carrots, pars-nips, flower seeds, cabbages—in fact, all seedings will be protected and encouraged to grow by slight

As an insecticide it is speedid against aluge, snalls, turnip flees, bettles, and celeary fies. Mildew on rose trees, etc., can also be held in check by periodical dust-ing with old soot. Birds greatly dialike soot.

As a liquid manure it is just as

good. A peck in a loosely-woven suck, suspended in a barrel of soft stater, will give 30 gallons of pick-me-up for pot plants (to be used after the ordinary watering). you should write to the follows seeds trem. Vilimorin Andrieu Paris, for seed. It is doubt whether this creeper will grow 8,000 ft.

Bones have been used as a fer-timer for a very long time. They are rather a deswesting manner owing to the time they take to discovered the second of the con-traction of the con-tent of the

7 Will of Circerarias grow here-outside and flourish? They grow in Nairobi in the shade 8,000 ft. may be too cold for them, but they come so easily from seed that it is worth trying.

Bomaria Crooper—Where to get it? Answer grow it from seed Lady Muriel Jex. Blake will give—some seed if hers ripens if not

TECHNICAL ASPECTS OF MOTORING.

Factors in Performance.

I have just been trying on a very increasing over which in dicates in a simple and ingenious distants in a simple and ingenious content of the simple and increase and increas

The method of operation is per ectly simple, and merely consist treating the pendulum as an ertia mass free to move in a ngitudinal direction but damp to prevent oscillation.

When the car is at rest or in

astonishing amount of useful in-formation can be obtained says. L. Mantell, in "The Light Car.", for example, the low-speed per-formance of the engine can be noted by full throttle acceleration in top gear from 10 mp b to 30

A FLAT FOUR MOTOR CYCLE

Problems that Face the Designer.

ALTERNATIVES TO THE

(Concluded)
A better arrangement for motor
cycle purposes would include a
three-throw crankshaft, similar to
that of a four-in-line but much
shorter. With the centre pair of shorter With the centre pair of pistons opposed but attached to a common crank a charming en-gine should result, with good bal-ance and normal four-cylinder impulses. This layout is one of

in p.b. when the maximum figure indicated can be observed, but high engine-speed readings can not be taken in this way we me, with resolution of the period of the world resolution. To get the readings, however similar to mp b to 30 mp h tests are made on the grans on as to keep the car speed low and in this way the incommon the period of the period of the rectained at any part of its speed effect.

EASIER STEERING

There are other possible arrangements of the flat four which it is unnecessary to discuss here, as their disadvantages appear to outweigh their advantages. Vec-type fours have been produced on several occasions, both for cars and motor eyeles. As in the case of the flat four, there are exercal possible arrangements of

the case of the flat four, there are several possible arrangement of cylinders and crank-throws, but there is only one which combine reasonable balance with even liring intervals, and that involves separate crank-throws set to match the angle of the cylinder. This is the system employed by a famous Italian ear which has proved its worth for many years past.

past.
If only two crank-pins are employed the balance may be excellent except for the couple, while with a three-throw crank with pins in a common plane. the

es certain features which are is advance of modern car design But my hands are tied. The de this very charming model, but I be cannot at present give away his novel and ingenious ideas I hope, however, that before many months have passed details will be available for publication.

REPUTATION

The Greatest Asset In Commercial Life

is reputation for the quality of one's goods. THIS is particularly true of Motor Vehicles in East Africa, where the conditions are so trying. Dealers in Motor Vehicles in this colony will speak glowingly of the reputations of their cars, but these are mainly gained in other countries, under other conditions: they are uncless in East Africa. It is

EAST AFRICAN REPUTATION

that will attract the wise buyer. He knows other claims are useless. Motor Vehicles with the FINEST reputation in East Africa are

Woman's Work for an American Institution'

MRS. AKELEY'S TASK.

Africa Changes in a Quarter of a Century.

Mrs. Carl Akeley, one of the most travelled women in Africa, is now in Nairobi for a brief respite after weeks of work among the Pygmiss of the Congo on behalf of an American scientific institution.

She begap her first great safaris in Kenya in 1905, saved her husband's life in the forests of the mountain and later travelled along up the length of the Tana in a dagout.

Mrs. Akeley has many interesting things to tell of African changes in an interview reported below.

THE ROAD VS. RAIL CONTROVERSY.

Recommendations by South African Commission.

NO MONOPOLIES.

Proper Control Road Users by System of Licences.

considerable time ago the Government of the Union of South Africa appointed a Commission to study the Road sa. Rail problem.

mmendations of the Commission, the most impor-here of appear below, are of great interest to East where a similar problem awaits solution.

he South African Commission is opposed to any monopoly but urges that the restrictions preventing the Railways operating on the roads should be repealed.

principle of reasonable control—divorced from litics, is upheld and a system of "public services ences" is urged with proper conditions.

axation for road purposes is examined and the necessity for a proper apportionment among road users is stressed. Co-ordination of road and rail services, a national road policy and a national Board to carry out a progressive road policy are all major parts in the Report.

FREEDOM FOR THE RAILWAY. requisite to the issue, and the period, of the liceno

TANGANYIKA FLOODS FROM THE AIR.

Valuable Survey of the Damaged Line.

PHOTOGRAPHIC RECORD.

Danger to Central Railway from Present Alignment.

An invaluable survey of the flooded areas of Central Tanganyika has been carried out by Flight Leiutenant Swoffer of Wilson Airways during which the Tanga-nika Survey Department recorded the position by aerial photographs.

It was found that main railway line runs beside the riv in a valley quite 700 feet below the level of the surrou ing country and it is believed that in order to elimin future risks presented by flooded streams, consider re-alignment may be necessary.

THE EAST AFRICAN WOMEN'S LEAGUE.

Rapid Growth of the Organisation.

A USEFUL YEAR OF WORK.

Reviews Before the Annual Meeting of the Council.

he annual meeting of the Council of the East African Women's League held in Nairobi yesterday was attended by women members from all over the country. The occasiop provided an opportunity for a comprehensive review of the whole activities of the League.

It is a remarkable fact that whereas a few years ago the membership of the League was only between 200 and 300, it now numbers over 1,000 women in every part of the Colony and the E.A.W.L. is to-day one of the best organised movements in Kenya.

The Lesgue has taken an active interest in a wide range of subjects from Red Cross Work and female circumcision of Native women to censorahip of films. Continued progress is indicated by the reports submitted to yesterday's meeting.

OVER 1,000 MEMBERS.

so it is; but, if we can get 1,000 knowledge of First Aid and Home or mice subscribers, we can make | Nursino

appears that few of the people who are going Home this year are likely

to have the necessary times to de-vota to attending this Conference. Mrs. A. Fawers, D.V.P., Norov, and Elburgon has been asked by Elegate and to submit a report on her return. The appointment of others is still being considered. The agends that has been received in intensely interesting.

Boy Scouts, the Defence Force the E.A.W.L. with which at tion may also be arranged.

In Search of "The Ashes."

AUSTRALIANS WHO WILL VISIT ENGLAND

Fifteen Australian players have een chosen for the tour in Eng-ad during the coming summer, ad which will atrive to regain the tythical "Ashes" for the Com-onwealth. There is a possibility at a sixteenth players will be

elected.
The big surprise is that J. S. Syder, who fed Australia in the sat series of "teats" down under, n 1928-9, does not even obtain a lace in the side. W. M. Wood-all—the "unbowlable"— is to be

STABILITY

THE average length of service of the major executives of the Packard Motor Car Company is seventeen and a half years.

Sixty-four per cent of the foremen in the Packard factory have served the Company for more than ten years.

Sixty-seven per case of the total output is distributed to the public by men who have been associated with Packard for an everage of

Records indicate ninety-six per cent of all Packard owners replace their old Packards with

Back of these records is a stability of ideals which has made possible all of the other records of the Company.

There are the greatest assets of the Packard Mator

More People Ride, More Tons are Hauled on Goodyear TYRES Than On Any Other Make

Highuay or Skyway, factory or field, the mark of Goodyear excellence extends around the world. Remember this when you buy a tyre.

Greater comfort, lasting strength, security, downright goodness - these are insured and bulwarked by the expert effort of conscientious workmen, by the generous merit of flawless material, by the abiding integrity of Goodyear manufacture.

The superiority of Goodyear Tyres in tread and body can be demonstrated. The proof of their worth is in their worth-wide public acceptance.

A tube equally superior is made for every Goodyear Tyre

Tread and carcass: these are the two main parts of a tyre.

There is greater traction in the All-Weather Tread.

There is greater vitality in the Supertwist careass.

Evidence? Goodyear Dealerswilldemonstrate.

Proof?" The world over, more people ride on Goodyear Tyres than on any other make."

"Flip" Starting Barrier

to be Tried.

DEMONTRATIONS TO BE

In the course of a notice to owners and trainers, the Joskey Club of Kenys announces that the starter, Lieut-Col. A. E. Walter, C.B.E., will be in attendance on the Kairobi race course at 8.46 a.m., on Tunsday and Wednesday, March 6 and 5, to demonstrate and

rict consequence or the appropriation.

A bold and determined move is sing made on the part of the bookey Club of Kenya to popularise addincrease the interest in horse seling in East Africa. Some disastion of this turn to events within the control of the seling in East Africa.

gathering.

The elastic used in the "fisp" is of very strong material, being composed of several dozens of small strands. The barrier has been given several trials during the past week, and next week's demonstrations are the estimation.
