I have seen some of the items in an advertisement on the front of the 'E.A.S.' and one that as she says was approaching the end of its life. It would not surprise, but when truth prevails the statement by a P.M. held in my presence.

I must give a word of warning that a great number of traps that though they were not made for human use, but for human use, were being used in the country and in some places they were being used to capture wild animals. I saw one of these traps and it was in a very good state of repair. I saw it in a very good state of repair. I saw it in a very good state of repair. I saw it in a very good state of repair.

“First say Mobiloil”

If you do not, you run a grave risk of receiving an inferior or unsuitable oil, because there are many oil marks "A" regardless of quality or brand. When buying from a dealer, don't ask for "A" oil—ask for Mobiloil "A" and see that it is taken from a drum bearing the Mobiloil Guarantee Disc. It is however, preferable to buy Mobiloil in the Sealed Container.

Watch for the Mobiloil Guarantee Disc.

THE DEPUTATION TO LONDON

An Appeal to the Colony for Funds.

FUTURE OF SETTLEMENT AT STAKE.

A Struggle for the Heritage of the Children of the Race in Kenya.

THE CONVENTION OF ASSOCIATIONS, DURING THE RECENT SESSION, DECIDED THAT A DEPUTATION SHOULD BE SENT TO LONDON TO FIGHT THE CASE OF THE SETTLERS OF KENYA FOR REDUCTION OF THE IMPERIAL GOVERNMENT'S SCHEME FOR GLOBEAL UNION, BEFORE THE JOINT COMMITTEE OF BOTH HOUSES OF PARLIAMENT.

IT IS THAT SCHEME IS IMPOSED, THE POSITION OF THE WHITE SETTLES IN EAST AFRICA—AND PARTICULARLY IN KENYA—WILL BE THAT OF AN IMMEDIATELY ALLOWED, OR SUFFERANCE, TO ENTER A COUNTRY WHICH IS UNDER THE CONTROL OF THE AFRICAN IMPERIAL GOVERNMENT IN THE INTERESTS OF THE AFRICAN PEOPLE ONLY.

Pledges Ignored. The claims of the White Settlers to be allowed to share with the Imperial Government the high and honorable task of discharging the Trusteeship of the native have been refused and ignored.

When it was announced that a Deputation to London was considered essential, the "East African Standard" offered to use all its influence in securing for that mission the fullest financial support.

A Sacrifice Entailed. Times are hard throughout the country and the appeal which we are making will meet heavy criticism.

Every donation to the fund will be acknowledged in our columns. The measure of the response will be the indicator of the determination of the people to stand the measure to its end.

LET US QUOTE AGAIN THE WORDS OF THE CHAIRMAN OF THE COMMITTEE OF ASSOCIATIONS: "We have come as Colonists and as Colonists we intend to stay and whatever may be the position with regard to those of us born and bred elsewhere, there is another generation growing up in this Colony to whom the phrase 'immigrant races' should have no application whatever."

THE POSITION on the frontier is rapidly returning to normal. The "East African Standard" has had the pleasure to meet in being some of the representatives of the Government of India.

WIRELESS IN EAST AFRICA.

The "E. A. Standard" has arranged for the regular publication of a wireless page. This Article, written by Mr. Lionel J. Dwyer, a well-known East African authority, will appear weekly.

RECEPTION CONDITIONS.

Reception conditions for the wireless daily show that, as on the 29th instance, a satisfactory and reliable letter from a wireless station had the same effect. The following "wireless" will continue. One of a possible series of wireless messages from the 29th instance was received. This message only contained fifty per cent of the intended message. It was received on Friday, but it was not until Saturday that the full message was received. For example it was impossible to hear the 400 metres message until after 6.00 metres, although it was received by approximately 5.00 metres.

Wires will give a slight improvement in reception. The 400 metres station will give a slight improvement in reception. The 400 metres station will give a slight improvement in reception. The 400 metres station will give a slight improvement in reception.

A Time Signal.

According to C.T.C. the official time signal will be given by the 400 metres station. The 400 metres station will give a slight improvement in reception. The 400 metres station will give a slight improvement in reception.

In dot 60, 50m. 5m. 20. 50. 27. 20. 50. 27. 20. 50. 27.

Receipts of the wireless and apparatus should be sent to Mr. Lionel J. Dwyer, 100, Victoria Road, Nairobi. The 400 metres station will give a slight improvement in reception.

The 200 Progress.

As regards 200 progress, it is difficult to pass a criticism on them as one does not always hear them and presumably this will continue until the next change. However what has been heard of them is worth noting. The 200 metres station will give a slight improvement in reception.

Some Outstanding Matters.

Some outstanding matters are: 1. The 200 metres station will give a slight improvement in reception. 2. The 400 metres station will give a slight improvement in reception.

The following are the entries for the 1922 Property race to be run at the Albert, October race course.

TIRES REVEAL DRIVING FAULTS Rapid Wear Result of Misalignment.

GETTING MAXIMUM SERVICE

Automobile tires are much the weaker if they are misaligned. If they were subjected to a study of their wear patterns through the "cracked" in the sooty ways the driver did not see.

After a period, with rounded corners, the tread of the tire will wear out in 200 miles of use. This is the normal and right. Whether the tire is worn out or not, it is not so much the tread as the contact with normal driving conditions, such as bumps, potholes, and other irregularities, which are the cause of the wear.

If first wheel tires are wearing faster on one side of the tread than on the other, and that wear is uneven, the number of miles of use will be reduced. The driver should check the alignment of the wheels approximately to the center of the tire when the latter is inflated to the correct pressure, although the tendency towards unevenness usually is to be corrected by the driver.
