CHEVROLET SIX

It is significant that 6 out of 10 people who ride in a Four and a Six say there's a world of difference - and they prefer a Six. Have you made this test?

Then compare values - and you'll see that a Chevrolet Six gives you big car features and advantages, and costs no more to own and operate than a Four.

So wonder that one and a half million Chevrolet Sixes have been sold!

We'll gladly take an hour of your time - and prove these things in half an hour. Before you decide to buy any other low-priced car - make this test.

THE GOVERNOR'S SPEECH.

The complimentary review of economic and political conditions in Kenya contained in the lengthy address presented by His Excellency the Governor to the Legislative Council at Nairobi on July 26th is a highly pertinent and valuable document. It is an excellent example of what is to be expected in the future from the primary and most urgent of all public duties of a Governor.

It is not possible at all. You just brush it on to produce a beautiful, glossy surface, quite free from streaks, which does granular hard in ONE HOUR. At the same time, you have the satisfaction of knowing that this oil roller will not stain, that it does not do any harm to the car's body and is so easily cleaned.

Why it is a pleasure to use 'Brushing Duck'... Obtainable from GALEY & ROBERTS, LTD. NAIROBI AND BRANCHES.

Notice will be given to a most of the figures of the material and the methods which have been adopted. The Governor's speech is a highly pertinent and valuable document. It is an excellent example of what is to be expected in the future from the primary and most urgent of all public duties of a Governor.

ECONOMIC & POLITICAL PROBLEMS.

Review by H.E. The Governor at Mombasa.

THE NATIVE CONTRIBUTION.

Strong White Settlement the Best State Investment.

The Honorable the Governor of Kenya, Sir Edward Exley, concluded a comprehensive review of the economic and political situation of Kenya...

We recognized the character of the serious depression which had undoubtedly come as a severe shock to the entire community, adding very considerably to the distress of the natives...

At the same time His Excellency reported the considerable improvement in the agricultural position in the native reserves and asked the country to realize the extent to which native production was assisting the finances of the Colony and increasing its resources.

He announced a reduction in certain charges on the handling of produce including coffee, grading, and reconditioning, but he criticized the enormous subsidy on exports as a palliative only which might even become a dangerous drug.

The Governor placed his faith in what he called long-range forms of state assistance, a programme including the establishment of the Land Bank, the encouragement of mixed farming, the re-establishment of the land market and a policy of dollar settlement.

Finally he provided an interesting review of the history of the colony's present political situation and expressed his conviction that an agreed settlement was urgently required.

Kenya's Troubles

POSITION IN NATIVE AREA

I will deal first with the economic side of the native area. It is a very important part of the country and its development is essential for the future of Kenya...

THE NEW AFRICAN STANDARD

It is not really between the two. That is the only way to look at it. It is a question of the balance of power between the two sides of the coin...

Administrative Officers

I had a word to say just before the Governor's review. I think it is worth noting that the administrative officers have a very important role to play in the development of the colony...

The Railway

One other interesting proposal that has reached me in a very short time is that of a railway to the coast. This is a project of great importance to the country...

The Settled Areas

Special measures to help the farmers. I think it is worth noting that the Government has taken steps to assist the farmers in the settled areas...

Shop Settlement

Another essential and perhaps even more important than the settlement of the natives is the settlement of the shopkeepers. This is a project of great importance to the country...

Redwood Growth

Another essential and perhaps even more important than the settlement of the natives is the settlement of the shopkeepers. This is a project of great importance to the country...

All Mechanism ON TOP! where it belongs!

There are many reasons why all the mechanisms of the General Electric Refrigerator are placed on top of the cabinet.

1. Refrigerating mechanisms are placed on top of the cabinet, because they are cooler than the room temperature.

2. Placing all the mechanisms on top of the cabinet obscures the interior of the cabinet. Therefore, General Electric has placed the refrigerating mechanism on top so that the opening built travels away from the cabinet.

A Six for - BEAUTY POWER SPEED ECONOMY

It is significant that 9 out of 10 people who ride in a Four and a Six say there's a world of difference—and they prefer a Six. Have you made this test?

They compare value—and you'll see that a Chevrolet Six gives you big car features and advantages, and costs no more to own and operate than a Four.

No wonder that one and a half million Chevrolet Sixes have been sold!

We'll gladly take you for a free ride—and prove these things in half an hour. Before you decide to buy any other low-priced car—make this test.
