FIRM MEASURES TAKEN IN INDIA.

Further Raids on Congress Premises.

THE GENERAL SITUATION.

Continued Improvement in Many of the Provinces.

Further police raids have taken place on various Congress organisations, resulting in the seizure of large quantities of literature which have been sentenced to terms of imprisonment.

During the course of a review on the general situation, the Government of India states that Provincial repression is continuing throughout the country. It is pointed out that in the provinces which have been practically ceased to exist in India, there is a certain amount of lawlessness elsewhere, but this is on a declining scale.

It is stated that the introduction of the new Ordinance giving power to local Governments to confiscate the property of unlawful associations, should be of special value in the Bombay Province, where the Congress obtained a firm hold during early days of its organisation.

There is growing opposition by Indian students against the boycott of foreign cloth, which is the main plank of the Congress platform.

TRADE IN DEPLORABLE STATE.

Mr. H. V. K. Mahajan, Secretary of the Bombay Chamber of Commerce, October 15, writes that the trade in the province was badly hit by the recent disturbances. The Government has taken steps to improve the situation, but the situation is still very serious. The Government has taken steps to improve the situation, but the situation is still very serious. The Government has taken steps to improve the situation, but the situation is still very serious.

Foreign Boycott.

The boycott of foreign goods is the main plank of the Congress programme, and in Bombay it has been the most active. The Government has taken steps to improve the situation, but the situation is still very serious. The Government has taken steps to improve the situation, but the situation is still very serious.

MARAGUA-TANA SCHEME REJECTED.

Government Favours A Larger Project.

OFFICIAL MIND CHANGED.

Nairobi Chamber of Commerce Presses for Original Proposals.

The Government of Kenya has recommended to the Secretary of State that an application by the East African Water and Lighting Company to develop water power resources at the junction of the Maragua-Tana River should not be granted. The Secretary of State has agreed with this view.

It is the sequel to four years' negotiation including investigations by a public inquiry which has shown that only a majority supported the Maragua-Tana scheme. It was recommended that the proposals were withdrawn. From a statement of the Ministry of Water Resources the following of 1949 acres of land in the reserve would have been necessary for the proper carrying out of the Company's project.

The Ministry of Water Resources and the Secretary of State have, however, rejected the application on the ground that the Government's attention is directed to the fact that the Government of Kenya has originally supported the Maragua-Tana project. The Government has recommended the larger scheme as a more extensive and necessary, and having regard to the various proposals for the development of the Maragua and Nairobi districts, the Nairobi Chamber of Commerce is making a case on Thursday for the purpose of the question and the publication of the reports of the Tribunal.

COLONIAL OFFICE PROMISES.

In view of the criticism of the proposals the Government of Kenya and the Secretary of State, it is reported that the application by the East African Water and Lighting Company for the development of the Maragua-Tana River in Kenya was considered by the Colonial Office at a meeting on Thursday. It was reported that the Government will be giving material support in the form of a grant of £100,000 at the beginning of the present financial year. It was also reported that the Secretary of State has agreed to the plan. (1,500 acres) of land has been allocated to the Maragua-Tana scheme and had been extended also to the Maragua-Tana scheme.

Chess

[By A. H. Spencer Brown.]

It is commonly held that chess should be best played by the English being master of "CHESSES" and indeed, I have won many a game.

Keynotes are published two or three times a week, and are taken together with advice names.

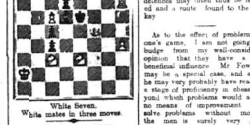

News of local games, tournaments, and interesting news remains of interest to chess players, and will be included in this page.

PROBLEM No. 1159.

Black mate.

White, King Bishop, Knight, Rook, Pawn. White mates in two moves.

PROBLEM No. 1160.
By the Rev. H. W. Shortland.
Black mate.

White moves in three moves.

CORRESPONDENCE

Mr. R. M. Foster, referring to some observations in our report notice on Problem No. 1159, writes: "I think too much importance should be laid on the suggestion that the keymove should not be a pawn, especially if there are any beautiful themes possible. It is more important to find a keymove to lead to appreciate."

"ON THIS DAY."

OCTOBER 15TH.

Some famous dates, October 15, 1770. Just of all twelve and names of some is really very applicable to the fact that he was born of some with the ability to be. That is where history was an extraordinary value as exception to that rule. The fact that he was born of some with obligations to his name is, he is a great high spirit, then, adding to his name a valuable that as all the more amazing because the degree of wisdom he attained is completely new age. It is his French name of a name which was a twenty-four year when he was elected a member of the Académie de France in 1770. He was Frenchman was a native of that country, and he died in 1770. His reputation reached in the mathematics of France as no France did the period.

No one should buy a Motor Car without a demonstration.

In these days when tax economy and was investment are so important, do not forget it has positive, silent, powerful 4-wheel brakes for safety!

Does the car do on hills? How does it what will it traffic? How nearly a top gear car is it? Does the car steer lightly and should buy a motor car without thorough demonstration.

Does the car do on hills? How does it what will it traffic? How nearly a top gear car is it? Does the car steer lightly and should buy a motor car without thorough demonstration.

Does the car have an unplanifiable glass windscreen and strong steel body and front and rear bumpers for the safety of its occupants?

Does the car ride comfortably over all kinds of roads? Does it combine swiftness and ease of handling with safety?

What is the car's petrol consumption?

How long will it last? What kind of convenient dealer facilities stand back of it? Is the car safe and easy for a woman to handle?

We invite the strictest possible investigation of the new Ford cars. Study their design. The careful workmanship that enters them. The unusual materials and methods that are employed. The stress dealer attention which Ford gives always command.

Careful motor car investment is necessary today. Invest for years of enjoyable, profitable motoring.

Ask now for a thorough demonstration and explanation of the new Ford car.

It's Wise to Choose a SIX

CHEVROLET SIX

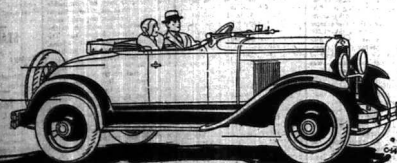

A Product of General Motors.

There's one sure way to get greater value in a low priced car. Choose a Six. And this greater value is instantly obvious when you drive a Chevrolet Six. In every gear and at every speed there's a refreshing free flow from all the amperages that are caused by vibration. There's no tremor in the steering wheel—no rattles in the floor boards—no rumble or drumming in the body.

In six cylinder smoothness saves the entire car from the strain and wear from vibration—prolongs the life of the car—lowers cost of maintenance. This together with its astoundingly low fuel and oil consumption, add to Chevrolet's traditional reputation for economical transportation.

Please accept our invitation for a free demonstration ride at your convenience—and let the car itself prove its story of value.

THE ZAMBESI BRIDGE CONTRACT SIGNED.

Whole Future of Nyasaland Changed by Scheme.

FOUR YEARS' TASK.

Britain's Half Million Gift to Empire's "Cinderella".

The nearly two years construction and investigation, the standard bridge is to come into being. Contractors have been signed in London for the work which, with efficiency, commissions, will cost three and a quarter million pounds.

On the completion of the scheme, which is one of the most important projects in the economic development of Africa, Nyasaland will be a direct outlet to the sea through the port of Beira.

Nyasaland has struggled against the most extraordinary difficulties. The Railway systems now operating are divided by the fact that railway sidings and other facilities are scattered throughout the country, making it difficult to transfer goods from one side of the Zambezi to the other by river transport.

The standard bridge will be the second longest in the world and to deal with the forty-two country two miles of its length will be over land.

£3,250,000 PROJECT.

The Nyasaland project is the most important of the largest projects in the world. It is a project which will cost £3,250,000 and will be completed in four years.

The project is a joint venture between the Government of Nyasaland and the Government of Southern Rhodesia. It is a project which will be completed in four years.

It's Wise to Choose a SIX

There's one sure way to get greater value in a low priced car. Choose a Six. And this greater value is instantly obvious when you drive a Chevrolet Six. In every year and at every speed there's a refreshing freedom from all the annoyances that are caused by vibrations. There's no tremor in the steering wheel—no throb in the floor—no rattle or drumming in the body.

Its six cylinder smoothness saves the entire car from the strain and wear from vibrations. It prolongs the life of the car—lowers cost of maintenance. This together with its sensationally low fuel and oil consumption, adds to Chevrolet's traditional reputation for economical transportation.

Please accept our invitation for a free demonstration ride at your convenience—and let the car itself prove its story of value.
