ENGLAND - AUSTRALIA IN 10 DAYS.

Bert Hinkler's Record Eclipsed. MAGNIFICENT FEAT.

Big Welcome for Famous British Airman.

Another world's air record has been created by the phenomenal flight of Wing Commander Kingdomb Smith from England to Australia in just under two days.

The latest achievement has eclipsed that of Bert Hinkler who in February, 1929 with a similar machine covered the 10,400 miles in 14 days.

Wing Commander Kingdomb-Smith who is one of the most famous British aviators and has many remarkable flights to his credit, a few hours after having completed his journey by air to Sydney where his success awaited him.

He paid a great tribute to the splendid effort of Flight-Lieutenant Hill when he met at the last landing place before Australia, and his wonderful machine.

Just as fine in quality... just as rich in nourishment... even more tender and delicious than ever before. Quaker Oats is more so easy and convenient to prepare than you will want to serve it every day.

"Quick-cooking" Quaker Oats is made by a new oven process, shortening its cooking time 50%. All the fuss and bother of long boiling has been eliminated. Every morsel will melt by the enormous economies in time, labor and fuel now made possible by the new "quick-cooking" Quaker Oats.

Ask your grocer for the new Quaker Oats. Serve it as porridge or breakfast as a porridge—it cooks faster than toast! Use it to thicken soups and gravies. Try it as filler, cakes, biscuits.

"Quick-cooking" Quaker Oats is one of the most wholesome and healthful foods known. It is delicious as a part of the daily diet of the entire family.

It's Wise to Choose a SIX

CHEVROLET SIX
 CHEVROLET

There's one sure way to get greater value in a low priced car. Choose a SIX. And this greater value is instantly obvious when you drive a Chevrolet Six. In every gear and at every speed there's a refreshing freedom from all the annoyances that are caused by vibration. There's no tremor in the steering wheel—no rattles in the floor boards—no rattle or drumming in the body.

Its six cylinder smoothness saves the entire car from the strain and wear from vibration—prolongs the life of the car—lowers cost of maintenance. Together with its sensationally low fuel and oil consumption, adds to Chevrolet's traditional reputation for economical transportation.

Please accept our invitation for a free demonstration ride at your convenience—and let the car itself prove its story of value.

CORRESPONDENCE.

The editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the names and addresses of the writers must accompany a letter, and necessary for publication here as a guarantee of good faith. Only a few letters can be considered.

Matthew Wellington.

WHAT WAS HER ORIGINAL NAME?

To the Editor, "E. A. Standard":

It is the view of the many people made popular by your columns on subject of Matilda Wellington or the last link of Dr. Livingston's African Tie, so Matilda's name, who is Matilda Wellington? Will you give me the world knows that she was the first white woman to be married and those have been the help of the Coast (Kenya or Malindi, Zanzibar, or China).

For my part, I will not be surprised with the arrival's name, which means the name of the Great Mother of Africa, and the missionary who was instrumental in her conversion to Christianity, which undoubtedly had a certain national value in her life. It is a like white-walking in the darkness.

Yours, etc.,
A. KAZILL.

THE PRICE OF ORANGES.

To the Editor, "E. A. Standard":

Mr.—I have had occasion to read through your weekly paper, and I find a letter addressed by "Trotter" in connection with the prices paid for oranges at Mombasa.

I understand that the price of oranges at this place has increased from 100 to 150, and that the price at Nairobi is 100 to 120 for 14-16 sized oranges.

It is interesting to know that there is no question of African connection to the Matilda story.

Matilda, which it is worth their heads as it is for that of the "Trotter" very few people are not possible that this word is a means of bringing his words completely.

Yours, etc.,
HERBERT GARD.

MOTOR NEWS

MULTI-CYLINDER MOTOR CYCLE

A Mystery Fuel!

WILL KNOWS WRITER'S EXPERIENCE.

For about a week written in the "Motor Cycle" for the "Motor Cycle" I have been telling in expert technical terminology it is a mechanical model for next year. It is designed and produced in one of our foremost British factories. The best kind substance of metal and iron and steel alloy; and will even over 1500 m.p.h. definite promise returns that they will not be at Olympia. But only we would not get it right on the floor this morning! The record of such remarkable orders for the few conventional machines that no making would be available present state of trade in factory... **Phenomenal Speed.** The silence in phenomenal. It is only possible to create a silent engine by using the engine on one of the lower gears, and thus speed the engine, so a smooth subsonic roar, entirely devoid of the strident racket usually associated with motor cycle power units; it is a real reminiscent of a Flyco AMP. In normal course, never be satisfactorily quiet, even when on second gear to small size, nor at all of the gear would be changed up before or aggressive and such engine, handled with even moderate consideration, would attract all public attention against motor cycle's exhaust.

I have been riding it over crowded roads and among motor cycles for a week past, but hardly a soul has looked up at anything unusual about the lurching about it. It is not a right long, or anything of the sort, in construction, it is approximately 50 in. long, and is quite a normal

Orthodox Appearance. The power unit is extremely flexible. It will revolve 1500 r.p.m. from a standstill, and will revolve 3000 r.p.m. from 1500 r.p.m. in a few seconds. It will revolve 3000 r.p.m. from a standstill, and will revolve 3000 r.p.m. from 1500 r.p.m. in a few seconds. It will revolve 3000 r.p.m. from a standstill, and will revolve 3000 r.p.m. from 1500 r.p.m. in a few seconds. It will revolve 3000 r.p.m. from a standstill, and will revolve 3000 r.p.m. from 1500 r.p.m. in a few seconds.

And the speed of 80 miles an hour. The sensation is like a bullet. The engine is so smooth that you can feel the road. The engine is so smooth that you can feel the road. The engine is so smooth that you can feel the road. The engine is so smooth that you can feel the road. The engine is so smooth that you can feel the road.

WIRELESS IN EAST AFRICA.

CHIEFLY ABOUT COILS.

The "E. A. Standard" has arranged for the regular publication of a wireless page. These articles, written by Mr. A. Standen, H. H. Hughes, and Cecil B. Evans, will appear weekly.

The wireless page is certain to be a success. It will be a valuable addition to the paper, and will be read by all who are interested in wireless telegraphy.

Recognition Conditions. Conditions during the week ending October 17 have been favorable. On one or two occasions the wind was strong and the sun was bright. The weather was generally good, and the crops are well advanced.

There is a great fault in the set. It is possible to make the set work, but it will be a long and tedious task. The set is a very simple one, and it is possible to make it work by using a different coil.

Further slight modifications may be made with advantage. It is possible to make the set work by using a different coil. The set is a very simple one, and it is possible to make it work by using a different coil.

"ON THIS DAY."

October 21st.
Anniversary of the Fall of Jericho. October 21, 1930, is a day which will always be remembered. The anniversary of the fall of Jericho might be considered as a kind of milestone with regard to the rise of the East African Standard and also with regard to the fact that it was on this day that the first issue of the Standard was published. It is a day which marks the beginning of a new era in the history of the East African Standard. It is a day which marks the beginning of a new era in the history of the East African Standard. It is a day which marks the beginning of a new era in the history of the East African Standard.

Henry IV.
The fall of Jericho was the result of the siege of the city by the Israelites. The city was surrounded by the Israelites for seven days. The walls of the city fell on the seventh day. The city was then destroyed. The fall of Jericho was a great victory for the Israelites. It was a great victory for the Israelites. It was a great victory for the Israelites.

A Personal Tragedy
About a week ago an Mbaraki native in Panga, near a Kikuyu woman in a gash across the left temple with a long, sharp blade, and wounded her on the left arm. The girl returned to her native town and wounded him across the chest. The man was taken to the hospital. The man was taken to the hospital. The man was taken to the hospital.

Cost of Maize Production in Colony Higher than Rhodesia and Union.

The Kenya Board of Agriculture in the memorandum... The cost of maize production in the colony...

Management, depreciation and native labour which represent 66 per cent. in Rhodesia are 64 per cent. in Kenya.

The Board has also considered the relative costs of tractors and oxen in the Colony and come to the general conclusion that for general available acreage production costs per acre and per bag are considerably lower for oxen than for tractors at the present prices of fuel—£1, 1/30 per acre and 1/3 per acre for the mechanical unit.

Recent returns have indicated that there is a decided agricultural board's views.

Like many other things, one starts to shave full of vim, but of things don't go right and time is lost, irritation sets in. With Vinolia a shave is good fun right through—the lather profuse and soft—the blue glides right—the skin left smooth—no irritation about a skin where Vinolia has been. White and pure—its close lather softens the beard gently, and the lather lasts and lasts.

MINE DISASTER IN GERMANY.

Terrible Explosion of Dynamite. BIG DEATH ROLL.

140 Men Still Entombed in the Workings.

At the result of a German coal mine disaster 131 men had today, 140 are entombed with little hope of rescue.

A large store of dynamite in the mine became ignited and soon functioned such an explosion that the pit head buildings and houses in a neighbouring village were completely wrecked.

Telephone communication has been established with entombed men.

LITTLE HOPE OF RESCUE.

Telephone communication has been established with entombed men. The disaster occurred in the Wilhelm mine at the village of Herten, near Dortmund.

It appears that the explosion did not do much damage to the mine and did not shatter the roof of the shaft. It is believed that the men who were entombed will survive through the shaft.

The latest figures in the 'White Paper' show that the Government has spent £100 million on the war since 1945.

A later message from Berlin says that the 140 men are still alive and that the Government is doing everything possible to rescue them.

UNEMPLOYMENT SCHEMES IN NAIROBI.

Heated Discussion in Town Council.

MEASURES OUTLINED.

There was another heated session of Tuesday's meeting of Nairobi Town Council.

The Mayor, Mr. G. H. G. G. G., presided over the meeting and outlined the following steps to be taken to reduce unemployment.

The Mayor also mentioned that the Council had received a report from the Unemployment Committee.

The Council has decided to set up a committee to investigate the problem of unemployment in Nairobi.

KENYA'S ESTIMATES FOR 1931.

GOVERNMENT BUDGETING FOR INCREASED REVENUE.

Expectation of an Improvement in World Prices.

£22,000 MORE FROM MOTORIZED.

Secretary of State Agrees to Land Bank But Limits Capital to £240,000.

The *Financial Review* for 1931 were laid on the table of the Kenya Legislative Council yesterday and were explained in an address given by His Excellency the Acting Governor, Sir G. M. M. M. M.

regard to the financial of the Colony he pointed out that the surplus balance estimated at the beginning of the year for 1931 on December 31 next would be £22,000 more than the estimate for 1930 was now estimated after eight months to be £3,348,723 which was £55,300 less than the original estimate that there had been a shortfall in revenue necessitating revision of the Estimates for 1931. That shortfall had amounted to £28,281 and was mainly due to a reduction from Customs and from native tax and post tax.

After outlining the excellent crop prospects—especially in sisal—His Excellency said of the forecasts were correct only a reduction of £100,000 in world prices was required to leave for Kenya a net surplus year in 1931.

His Excellency estimated that nevertheless it was necessary to maintain a substantial reserve for contingencies. Therefore Government had rigorously excluded all new or extended services and reduced all current expenditure to a minimum with the object of building up such a reserve.

BASIS OF BUDGET.

He explained that the revenue estimates for 1931 are based on the assumption that the agricultural prospects of Kenya are sufficient to justify some increase in trade compared with last year and that it is only reasonable at this stage to assume that there will be some revival of market prices.

Therefore Government is budgeting for revenue amounting to £3,516,023 which shows an estimated increase as compared with the estimates of 1930 as originally approved of £282,411.

The Railway, but is also budgeting for £23,200 extra next year from motor income and post tax.

On the expenditure side there had been a £104,000 decrease in non-recurrent expenditure while the maintenance of the administration had increased. The total estimated estimate of revenue are reduced by £180,000 compared with the present year. Proposed new appointments totalling £9,747 have been deleted and other appointments to cost £2,045 have been improved, and are as follows—

Estimated Revenue	£3,516,023.
Estimated Expenditure	£3,464,045.
Estimated Surplus	£51,978.

figures this year were—Expenditure (including special and urgent votes for agriculture, food, disaster, etc.) £3,546,720; Revenue (as now revised), £3,631,631.

His Excellency announced that the Secretary of State had given permission by telegram to pass the Land Bank Bill through its remaining stages this session. He had also announced that the capital proposed for the Bank must be confined to the £240,000 for which he had previously had already been given.

His Excellency also announced that tentative proposals for participation by Kenya in the Colonial Development Fund would shortly be placed before the House.

NO NEW SERVICES.

It is to be noted that no new services are to be introduced in 1931. The only new services to be introduced are the extension of the Government's telephone system to the Mombasa and Malindi ports, the extension of the Government's telegraph system to the Mombasa and Malindi ports, and the extension of the Government's postal service to the Mombasa and Malindi ports.

Finance and Provision.

His Excellency the Acting Governor delivered the following address to the Council:

The financial estimates for 1931 are based on the assumption that the agricultural prospects of Kenya are sufficient to justify some increase in trade compared with last year and that it is only reasonable at this stage to assume that there will be some revival of market prices. Therefore Government is budgeting for revenue amounting to £3,516,023 which shows an estimated increase as compared with the estimates of 1930 as originally approved of £282,411. The Railway, but is also budgeting for £23,200 extra next year from motor income and post tax. On the expenditure side there had been a £104,000 decrease in non-recurrent expenditure while the maintenance of the administration had increased. The total estimated estimate of revenue are reduced by £180,000 compared with the present year. Proposed new appointments totalling £9,747 have been deleted and other appointments to cost £2,045 have been improved, and are as follows—

city of them have already received the Royal assent, and I would like to thank the members of the Council for their interest in the work of the Government. Economic Depreciation.

SALAZAR AND KERRY.

To the Editor "E. A. Standard."—I am writing to you regarding the economic depreciation of the pound sterling. It is my opinion that the Government should take steps to stabilize the value of the pound.

If "E. A. Standard" succeeds in getting the Government to take steps to stabilize the value of the pound sterling, it will be well served, for in a time of such a crisis, it is well to have a Government that is not only responsible but also one that is not afraid to take the necessary steps.

CEASAREWICH AND CAMBRIDGESHIRE. Incidents Reported.

By the Albany "Portlaw" has been the best of the year, including the Champagne Stakes at Doncaster and the Middle Park Stakes at Newmarket. "Portlaw" will never be more than a sprinter. His "Cesarewich" was, from time to time, a two-year-old in 1912, when he was placed second. After his two-year-old season, he was only once named in the Royal Stakes in February of 1913, but by "Fiaz Maras" out of the "Bye-bye" mare.

It is a pity that two of the placed horses in the Champagne Stakes are their "Portlaw" and "Cesarewich." "Portlaw" is a very good horse, but he is not a sprinter.
