**Impressive Service at War Memorials.**

**COLOURFUL SCENE.**

**Defence Force Takes Part in the Ceremony.**

It is doubtful if anywhere else in the world Armistice Day is celebrated in a more colourful setting than that which is the background for the main ceremony in Nairobi.

The Two Minutes Silence and service which followed it were attended by representatives of all races in the city and the proceeds were devoted with their solemn dignity which makes the annual observance so strikingly impressive.

For the first time, a detachment of the Kenya Defence Force took part in the ceremony.

**REVERENT CROWDS.**

Impressive and fitting ceremonies marked the twelfth observance of Armistice Day in Nairobi, Kenya, when people of all races, religions and creeds of the community gathered together in the service of remembrance.

Long before the hour appointed for the commencement of the service, hundreds of people began to gather in the vicinity of the War Memorial in British Avenue, and gradually they filled their places round the central monument which is the focal point of a great festive scene. For the most part the people taking part were of the African race, but there were also many Europeans and a few Asians.

At the beginning of the service, a detachment of the Kenya Defence Force, under the command of the Major, took part in the ceremony. The Major, who was very much larger than in general appearance, gave an address in which he stressed the importance of the service and the need for peace and harmony between all races and religions.

The service was held in the presence of a large gathering of people, including representatives of the Kenya Defence Force, members of the Kenya Defence Force Band, and a large number of people from all parts of the city. The service was held in the presence of a large gathering of people, including representatives of the Kenya Defence Force, members of the Kenya Defence Force Band, and a large number of people from all parts of the city.

The service will follow the same pattern as in previous years. At 10.30 hours on Wednesday, November 13, the service will be held in the presence of a large gathering of people, including representatives of the Kenya Defence Force, members of the Kenya Defence Force Band, and a large number of people from all parts of the city.

**BY-PRODUCT HOPES.**

**Committee Elected to Formulate an Agricultural Policy.**

Mixed farming as a means of restoring prosperity to the Trans Nzoia was advocated at a recent meeting of the local Farmer's Association by one of the members who stressed the need for a systematic agricultural policy for the district.

Having reviewed the present depressed state of agriculture in the area due primarily to insufficient irrigation, expensive loan money and pioneer farming, he explored some of the possibilities of mixed farming and spoke hopefully by by-product possibilities.

**GETTING DOWN TO FACTS.**

A unanimous resolution was passed favouring the appointment of a committee to formulate an agricultural policy in the Trans Nzoia.

**STANDARD CORRESPONDENT.**

A meeting of the Executive of the Trans Nzoia Farmers Association was held in Kaituma on Wednesday, October 16, when Mr. Walker in the Chair, and a full attendance of members.

The Secretary reported that he had been in communication with the Executive of the Royal Agricul-

tural and Horticultural Society of Kenya and was disappointed that the Trans Nzoia was not eligible to compete for the District of Kaituma. He said that he would be in touch with Mr. Walker in the future.

"HOWLS" IN HOME-MADE SETS.

Their Cause and Cure.

The B. A. Standard has arranged for the regular publication of a wireless page. These articles, written by Mr. Leonard J. Hedges, will appear weekly.

Several readers appear to be having trouble with low frequency sets in home-made receivers. In some instances it is possible to diagnose and cure the trouble. In other cases it is impossible to do so. The following is a list of the troubles which are most commonly met with in sets of this kind. It is hoped that the hints given will be of some use to those who are having trouble with their sets.

Firstly, any circuit can oscillate at either a normal frequency or a frequency of the order of several thousand cycles. The former is due to the inductance and capacity of the circuit, and the latter is due to the inductance and capacity of the circuit. The former is due to the inductance and capacity of the circuit, and the latter is due to the inductance and capacity of the circuit.

It will be observed that inductance will make the circuit more difficult to tune. The inductance of the circuit will be increased by the addition of coils. The inductance of the circuit will be increased by the addition of coils.

A property of inductance is that it will pass a direct current but will not pass an alternating current. This is due to the fact that the inductance of the circuit will be increased by the addition of coils.

Inductance can be used to the advantage if the values are taken large enough. The inductance of the circuit will be increased by the addition of coils.

The effect of an alternating current is to produce a magnetic field. This field will induce a current in the circuit. The effect of an alternating current is to produce a magnetic field.

It is obvious that each fault can be found immediately and without much delay. The following are some of the faults which are most commonly met with in sets of this kind.

**UNREARDED RODEO AT NANYUKI STATION.**  
Five Lines Leave For Edinburgh Zoo.  
EXCELLENT SPECIMENS.

[STANDARD CORRESPONDENT]  
Nanyuki Station presented an unusually busy scene on Thursday morning when large numbers of natives assembled to watch the departure of five large teams of oxen brought by a Chicago School, which very much surprised the natives. The transport had been arranged by Taws Limited, who sent up large cages and also a man to supervise loading. The bridge from Mr. Smith's farm across the five-foot river consists of two tree trunks only, hardly strong enough for a motor lorry—the load was removed. Mr. Scott's car and the boats in their cages were loaded on a drift from the station to the river bank where half way over and the bridge broke down. It was a very dangerous situation and the driver was almost certainly killed. It is said "All these lines are extremely long when loaded by their master and the driver, Mr. Scott, had to be carried in the most pathetic way. He was almost certainly killed when he fell from the bridge. A batch of sheep were being loaded alongside the bridge providing one of the horses provided one of the horses fell from the bridge. It is said some time. The line loaded by Mr. Scott and his assistants, which have left Nairobi for Edinburgh."

FACTORS IN KENYA'S HIGH COFFEE COSTS.

Wide Range of Expenses on Average of Management. COUNTRY'S LOW AVERAGE YIELD.

Expenditure on Manure Justified by the Results.

The Board of Agriculture has made a further examination of coffee costs and has readjusted its figures in respect of the proportion of costs which the control of the producer. These are now set at an average of Shs 46.7 per ton.

Adding to these the other costs, such as the overhead, curing charges and marketing charges, the cost of producing and selling a ton of coffee is still around Shs 52.50 per ton.

The Board reached several definite conclusions. One is that 25 cwt. per tin for picking, pruning and other work cannot carry. This has since been reduced to 15 cwt. by a general reduction of prices. Another conclusion is that prices paid to farmers for labour are high.

One of the most interesting figures is that the best estates produce an average of five cwt. per acre—and some as high as half a ton—but the country average is 3.34 cwt.

Two other important conclusions are that in the case of the big estates, the tractor gives the cheaper cultivation cost and that the expenditure on manure is in a direct ratio to the increased production resulting therefrom and, consequently, lowers the cost per ton.

PICKING CHARGES TOO HIGH.

The Board of Agriculture in the course of its long memorandum on coffee, pointed out that the cost of picking was too high, and particularly to the plantation owner.

These are averaged at over 24s per acre. The present price reduces the relatively high pickering charges by one-third.

A large number of representative replies have been received from coffee farmers, but the general impression is that the comparative costs have been fairly moderate.

The estates are selected as fair average representative of the industry in the various districts of the Colony.

The present statement represents the result of the extensive survey conducted by the Board.

The following table shows the results of the investigation, and is arranged in the order of the districts.

NOVEMBER 10.

Death of the John Barkley, Nov. 10, 1920. The British are very proud of those who were killed for God, because for the most part they have been killed in the service of their country. The name of Barkley is a name that will be remembered for many years to come. He was a brave and noble man, and his death was a great loss to his country.

**TENDERS**

Tenders are invited for the supply of cattle to be used in the preparation of anti-rinderpest serum and vaccine for the year 1931. Cattle should be two or more years old and from 450 lbs., live weight upwards. They must be susceptible to Rinderpest, and the Tenderer must give an assurance that they have never been immunized (double inoculated) or vaccinated against Rinderpest, or have been in contact with the disease. Animals to be subject to Veterinary inspection prior to despatch. Tenders should be for the supply of animals in lots of ten or more, and should indicate when delivery can be given. The average age, and approximately the average weight of the animals should be stated. Quotations should be per pound live body weight, i.e., supplier's nearest station or siding. Animals to be weighed at Kabete immediately on arrival, and payment to be made on these weights. Tenders should be addressed to the Chief Veterinary Research Officer, Kabete, and should be plainly marked "Tender for Cattle."

Tenders received later than 1st December will not be considered.

Further Cross-correction. It is on this problem that the main divergence in manufacturing itself, but there are considerable differences in the view that the concentration must necessarily mean the rights of minorities.

The attitude of the United States expressed on the 11th last, in the opinion of the Government, is not a satisfactory one. It is to be hoped that the Government will be more disposed in regard to the growing disposition in India to accept of a self-governing constitution for the British India, provided that the British Government is prepared to protect the Princes' position and rights in their own States on equal terms.

LORDS AGREE TO A JOINT COMMITTEE.

On Motion by the Secretary of State.

TO CONSIDER CLOSER UNION.

Lord Delamere Holds Self Government To Be Only Possible Form.

A motion for the appointment of a Joint Committee of both Houses of Parliament to consider the reports on Closer Union in East Africa was moved in the House of Lords on Wednesday by Lord Passfield and adopted.

The documents which the Committee, if appointed, will consider comprise the Milner Young Commission and Wilson reports and the recently published White Paper on Closer Union.

There is no indication that it is the intention of the Government to refer the Memorandum on Native Policy to the Commission.

The Right Honourable Lord Delamere participated in the debate. He expressed the view that the White Paper policy—presumably the Memorandum on Native Policy—would meet with the strongest political opposition throughout East Africa.

In the opinion of Lord Delamere the only possible and correct form of Government for East Africa is self-government with the British Colonies completely parastatist.

COMPLETE WHITE PARAMOUNTCY.

London, Nov. 12. The House of Lords has today adopted a motion by Lord Delamere, Secretary of State for the Colonies, to the effect that it was desirable to consider the question of complete white paramountcy in East Africa.

Lord Delamere's Declaration. Lord Delamere declared that the policy of the White Paper was to give complete white paramountcy to the British Empire.

He declared that the only possible form of Government for East Africa was self-government with the British Colonies completely parastatist.

He stated that the only possible form of Government for East Africa was self-government with the British Colonies completely parastatist.

THE PALESTINE WHITE PAPER.

Not to be Applied Yet.

Premier's Statement.

London, November 12. In the House of Commons today at question time, Mr. MacDonald said that the Government's Palestine White Paper had given rise to some misunderstanding in some quarters. He stated that the Government had not intended to apply the White Paper to Palestine. He explained that the Government had intended to carry out the necessary obligations of the League of Nations in Palestine.

INDIAN ROUND TABLE CONFERENCE OPENS.

His Majesty's Speech to the Delegates.

CONSTITUTIONAL PROGRESS.

Princes Re-Affirm Their Loyalty to Britain.

His Majesty the King opened the Indian Round Table Conference in the Royal Gallery of the House of Lords on Wednesday when during the course of his speech he referred to the constitutional progress of India during the past few years.

He said that all were conscious of how much depended upon the issue of the consultations for the whole of the Empire, and stated that it was a happy augury that representatives of all the Dominions were present.

Mr. Ramsay MacDonald was elected as chairman of the Conference. He said that the presence of His Majesty, the representatives of Dominion Governments, the Indian Princes and members of all political parties in Britain, enabled them to understand the strength and flexibility of the bond binding the whole Commonwealth.

During the course of other speeches the Indian Princes emphasised their loyalty to the British connection.

He said that all were conscious of how much depended upon the issue of the consultations for the whole of the Empire, and stated that it was a happy augury that representatives of all the Dominions were present.

Mr. Ramsay MacDonald was elected as chairman of the Conference. He said that the presence of His Majesty, the representatives of Dominion Governments, the Indian Princes and members of all political parties in Britain, enabled them to understand the strength and flexibility of the bond binding the whole Commonwealth.

During the course of other speeches the Indian Princes emphasised their loyalty to the British connection.

**BRITAIN'S MECHANISED ARMY.**

Demonstration to Imperial Conference Delegates.

IN REALISTIC ACTION.

Latest Types of Tanks in Motor Arm.

[STANDARD] Correspondent's London, Oct. 28. The military demonstration to the Dominion Prime Ministers and the other Delegates to the Imperial Conference took place on Monday at Colchester. It was an extremely business-like affair: the Dominion Premiers were not treated to banquets, parades, and military uniforms, but were shown the modern mechanised army as it is.

The first part of the performance consisted in a valuable series of tanks in which an enemy had to be displaced from a long series of battle. A brief moment of pause occurred when the water was put in the recirculating of the small quantities of water; but in spite of this, the army had been in the course of an operation of the motorised army. The tanks were used to make a position in an armoured tank. The tanks were used to make a position in an armoured tank. The tanks were used to make a position in an armoured tank.

One ridge, however, proved very stubborn; that the commander, and to explain this a company of tanks of the latest design was brought up, and directed on its way by the commander in his own special tank headquarters.

It was a most convincing display and the rapidly with which the tanks were used to make a position in an armoured tank. The tanks were used to make a position in an armoured tank. The tanks were used to make a position in an armoured tank.

Transport Demonstrations.

After the military battle was over, there was a demonstration of the transport vehicles in use in the

**A NEW INDUSTRY.**

["STANDARD" CORRESPONDENT.]  
The early part of October, was for Toro comparatively dry, but the latter days of the month were notable for very few showers. On Thursday the morning rain coming with full force. The outside districts, such as Kalaga, did not get any thing like the same amount of rain. In fact, there were almost no showers in Fort Portal, or in Kalaga, but the showers which fell over these districts were not heavy. It was not until about the 12th of October that we had our first heavy shower. Some showers have been received since, but they were not so heavy as the first. The rains which fell on the 14th and 15th of the month, with other showers the following day, began to appear as usual.

Labour Disensions.  
Disensions on Contract Labour have been going long for though, but no really satisfactory results has yet been discerned. The trouble was very seriously a removal of the wholesale dealers from the business of getting labour employed by the P.W. in the Mbarara-Kampala road. They are said to have abandoned the business.

**The Farmers' Cup Competition.**

**CONDITIONS OF ENTRY.**

As already announced, in order to create interest in the possibilities of Mixed Farming, the Royal Agricultural and Horticultural Society of Kenya will inaugurate a Farmers' Cup competition at the Agricultural Show to be held at Nairobi on January 5 and 6, 1921. In view of the interesting nature of the competition, and the fact that entries must be received not later than December 1, the conditions are stipulated—

1. For competition amongst all mixed plantations in Kenya Colony.
2. Entries shall consist of any variety of produce, products of manufacture, livestock, poultry and/or manufactured on, or raised on, plantations or farms of not less than 50 acres of which not less than 20 acres shall be under cultivation.
3. The First Prize will be a silver cup to be won outright, the Second Prize a silver vase, and the Third Prize a silver shield.
4. All entries for this competition will close on December 1, 1920, at the Office of the Secretary, Agricultural Society of Kenya, 21, Market Street, Nairobi. Entry forms may be obtained from the Secretary on receipt of 5/- and must be accompanied by an entry for the exhibition.
5. All entries shall be submitted and written or ordinary letters and what need not be taken on paper and what need not be taken on paper.
6. I hereby certify that the above is the true and correct copy of the rules and regulations of the Farmers' Cup competition, as approved by the Council of the Agricultural Society of Kenya on the 10th day of October 1920.
7. All entries must be signed by the Owner, the Lessee, or the Manager of the Farm or Plantation for which the entry is made.

**A QUOTA SCHEME**  
If proposals which have just  
been placed before the Empire  
tobacco growers are carried into  
effect, of a considerably greater  
amount of Empire tobacco will  
be imported by this country.

I learn, (writes the "Financial  
Commentator" of the "Evening  
News") that a quota scheme for  
reasoning that a fixed percentage  
of Empire tobacco shall be imported  
has just been placed before Mr. J.  
H. Thomas, the Dominion Secre-  
tary, and Lord Passfield, the Colon-  
ial Secretary, by the Department.  
The scheme is now expected to  
come before the Imperial Council.

**11 Countries.**  
The countries represented were  
the Union of South Africa, Switzer-  
land, and Northern Rhodesia, Cyp-  
rus, Mauritius, Gambia, Sierra Le-  
one, South Africa, Kenya, Tanganyika.

The British Act of 1926 which  
allowed for ten years the preference  
on Empire tobacco at 5d. per lb.  
as against the main rate of duty,  
and the granting of Empire tobacco  
imported in Britain has been  
steadily used.

In 1928-1929 50 per cent. of the total  
consumption was accounted for  
by imports from the Empire.

The state of the industry in many  
parts of the Empire, however,  
very serious, due to the great  
quantities of "old" stock.

I understand that the Govern-  
ment will consider after their  
Empire Governments the possibility  
of fixing a quota of 10 per cent.  
of the consumption of Empire grow-  
n tobacco without prejudice to the  
main rate of duty.

Alternatively, the govern-ment  
will consider the possibility of  
fixing a quota of 10 per cent.  
of the consumption of Empire grow-  
n tobacco without prejudice to the  
main rate of duty.
