Consumption Cure.
The Wonderful Serum.
Our London Correspondent has more to
say regarding Dr. Mahan's wonderful
serum cure. The experimental work on
the new cure for consumption, about which I
have written, from time to time, has now
physically complete, and appears to have
been entirely successful. The serum, which
is extended at once. There are now seven
hospitals using the serum in London and
the South of England, namely the City
Hospital, St. George's, St. Thomas, the
Dreadnought, Mount Vernon, and the
City Road Chest Hospital in London;
Ventnor and
Hastings in the country. The medical
offices of health all over the country, which
have been supplied with the serum, while
a large consumption has been made for
the Government of Western Australia.
South Africa, the Government of South
Africa by the outgoing mail, while orders
of the great manufacturers of serum are
making arrangements for the manufacture
of contraction, as Dr. Mahan's term is
discovery, on a huge scale.

On the 6th July you are inaugurating a Snapshot Competition, open to any photographer—amateur or professional—without any stipulations whatever. While the competition is open to photographers in any part of Africa, we especially appeal to amateurs and professionals in East Africa and Uganda to respond right heartily to the every week some feature of these promising lands can be reproduced. The magnificent scenery, the flora and fauna, the many incidents occurring in the farm, in the field, and on safari should afford ample opportunity to the camera. The every-day life of the settler and the native should afford copious material for good snapshots.

FULL PARTICULARS ARE GIVEN BELOW.

Our Sports Letter.

(From Our London Correspondent.)

OLYMPIC ATHLETICS.

London, May 30th. A long section of the English press is being fed with the English Olympic Association and the Amateur Athletic Association for next year regarding, place of holding an improvement in the Olympic Games, but very little practical suggestion. It is at once important, say, very few people show much interest in these sports, and it is a good case.

It has been perfectly plain for the last few years that England was lagging behind in scientific athletics. The Olympic Games of 1908 demonstrated the fact that at present, England was not doing so well as other nations. The Olympic Games of 1908 demonstrated the fact that at present, England was not doing so well as other nations. The Olympic Games of 1908 demonstrated the fact that at present, England was not doing so well as other nations.

There were two main points in the Olympic Games of 1908. One was the fact that England was not doing so well as other nations. The other was the fact that England was not doing so well as other nations. The Olympic Games of 1908 demonstrated the fact that at present, England was not doing so well as other nations.

The French authorities recognize the value of scientific athletics, and a number of the best to be opened with at Brest. The first to be opened will be provided over a study of physical development. No great will be made of the Olympic Games, but they will be made of the Olympic Games, but they will be made of the Olympic Games.

It may be remarked that one of the aims of the Olympic Athletes' Club is to hold these sports from time to time to hold these sports from time to time to hold these sports from time to time.

PROMISING MATERIAL. We are constantly getting proof that there is plenty of good raw material in England. The annual inter-collegiate sports meeting among five of London's residential training colleges at Stamford

Bridge last Saturday furnished another instance. In Mr. A. Cooper's of the W.C. we have just the youth who might be developed into a record breaker. He has the correct "strut" for American style of hurdling, and his method of high jumping is that followed by the Irish school of whom M. Sweeney and the Leakers are famous exponents. Cooper cleared 5 ft 8 in, and easily won the hurdles in 17 2/5 sec.

PART-FIN PRESENT CHAMPIONS. Steve Rowland was crowned at the Millwall event which Harry Hutchinson and W. G. George would meet on the 100 yards handicap for men over 20 years of age. Hutchinson and Walter George's mile in 4 min 12 1/2 sec. has defied all attacks since 1908. Hutchinson gained third prize but George failed to secure a place.

The present generation of sprinters was represented by Jack Bealman, who tried to beat his own record of 7 1/5 1/2 sec. for 80 yds. The hurdler ran very well, doing 2 1/6 sec in turf. Excellent form was shown by J. Verdon of Paris in the 100 yards race. He ran 21 sec 2/5 yards in the same winning from G. Dinning of South in 11 sec 4/5 yards. Dinning is the runner who beat H. Dixon and other good men in the Edinburgh 1/2 mile track race in January.

CYCLING.

There were two main points in the cycling race. One was the fact that England was not doing so well as other nations. The other was the fact that England was not doing so well as other nations. The cycling race of 1908 demonstrated the fact that at present, England was not doing so well as other nations.

The Southern Cycling Association 2500 tournament produced some excellent golf. The entries were numerous, but only a few were successful. The tournament produced some excellent golf. The entries were numerous, but only a few were successful.

TO PHOTOGRAPHERS.

AMATEUR OR PROFESSIONAL.

On the 5th July we are inaugurating a Snapshot Competition, open to any photographer—amateur or professional—without any stipulation whatever.

A special prize of Rs. 15 will be given every week for the best and most interesting snapshot sent.

While the competition is open to photographers in any part of Africa, we especially appeal to amateurs and professionals in East Africa and Uganda to respond right heartily.

so that every week some feature of these promising lands can be reproduced. The magnificent scenery, the flora and fauna, the many incidents occurring on the farm, in the field, and on safari should afford ample opportunity to the camera.

The everyday life of the settler and the native should also afford capital material for good snapshots.

FULL PARTICULARS ARE GIVEN BELOW.

Our Snapshot Competition.

The proprietors of the "EAST AFRICAN STANDARD" WEEKLY EDITION offer a SPECIAL PRIZE OF

FIFTEEN RUPEES EVERY WEEK

for the best and most interesting snapshot sent in by any photographer, amateur or professional.

No Entrance Fee.

The only stipulation "beyond" this is that the picture should depict some scenic or incident in any part of Africa, preferably East Africa or Uganda. Pictures taken on board ship will be eligible.

The photographs may be views of scenery, portraits, moving figures, animals, ships, public events, sporting incidents, or any subject that the competitor may select.

No award will be made unless six competitors submit photographs. If less than six are sent in they will be carried forward to the following week.

Every photograph should bear a title, and the name and address of the sender in pencil on the back.

Silver prints are preferred, though not essential. On no account should negatives be forwarded.

The Editor reserves the right to reproduce any of the competing photographs which are not awarded prizes.

Consolation prizes will be given occasionally.

The decision of the Editor will be final, and will rest with him alone.

Envelopes should be marked "Snapshots," and should be accompanied by a note bearing the name and address of the sender legibly written, and an intimation that the photograph is forwarded for the Snapshot Competition.

Address: "SNAPSHOTS," THE EDITOR, "EAST AFRICAN STANDARD," NAIROBI, BRITISH EAST AFRICA.
