Eight four ball matches between two teams were played on Saturday afternoon at the International... The winners played magnificent golf throughout, but were decidedly accurate on the greens.

CALL TO MAN-POWER OF KENYA. To co-operate in Coming Locust Campaign. WORK FOR MAN, WOMAN AND CHILD. £2,000 for Rewards for New Methods of Destruction.

Statement on the locust position issued by the Department of Agriculture following the recent discussions by a special committee and by Executive Council. It is announced that the Government of Kenya intends to call upon the entire man power of the Colony to combat the infestation.

Reminder is given that a legal obligation is imposed on all occupiers of land immediately to report laying or the appearance of hoppers.

The Government policy during the coming campaign will be to deal with hoppers in areas in which they will be quickly and cooperatively destroyed leaving no special consideration any action which may be required in addition to the general policy.

It has been decided to make every possible effort to have children in the Colony is exhorted to follow what might be called a "Swat that locust" campaign.

Farmers in all districts are invited to appoint group leaders and by every means possible to cooperate fully with Government.

The sum of £2,000 has been earmarked for reward to discoverers of new and approved methods of destroying locusts.

"Swat That Locust." An appeal to the country to combat the whole of the locust plague is contained in the opening statement on the coming locust campaign issued by the Department of Agriculture in Kenya.

It is stated that the Government is particularly anxious to secure the assistance of all persons who are naturally sympathetic to the Government and who are interested in the progress of the locust campaign.

Persons are urged to report the appearance of hoppers to the District Commissioner or the Agriculture Department.

THREE TREASURES IN CONFERENCE. Discussions in Nairobi This Week.

The "East African Standard" learns that the Treasurers of Tanganyika, Uganda and Kenya have been meeting in conference in Nairobi this week.

No special agreements is to be attached to this gathering as opportunity has merely been taken to exchange views in regard to a general audit organized by the conference.

It is realized by the Governments concerned that there are a number of common problems which should be considered during the Budget period of the year and that round table discussions are far more satisfactory than the ordinary financial talks of correspondence.

It has been considered necessary to review the financial outlook, not only as it affects the country's Budget but as it is related to 1952 and the importance of uniformity in the various sections taken but has been reviewed by the Governments.

Wheat and Barley Crops. A POOR HARVEST IN THE RONGAI DISTRICT.

The harvest of the wheat and barley crops are now being harvested and are showing very poor returns, after previous low variations. A crop of two or three bushels to the acre is considered quite good this year.

There is not very much grain made in the neighborhood at all and the locusts are not such a potential menace they are earlier in the year. However there have a warning in Upper Kenya every day during the past few weeks and that which has reached considerable dimensions. Their general flight appears to be over the Mt. Kenia range and the locusts seem to be dropping into the forest.

Several government officials locally were found to be full of eggs, but as there is no appreciable colour change yet, it is hoped that they will not lay in the district.

COFFEE MARKET. GOOD EQUIPMENT AT STAFFY PRICES.

Messrs. C. C. Mombasa and Co. have received from Messrs. H. H. Allen and Co., London, a consignment of coffee machinery.

Most locust traders are finding it difficult to dispose of their stockpiles due to the very changing price of the native.

There are no fresh imports of locusts being sent to the country.

Tanganyika offered 250 bags in auction, of which 137 were

Locusts.
PROVIDENCE AND A SELF-HELP POLICY.

To the Editor, "E.A. Standard."—I have read the many letters to the Standard yesterday those are some of the most interesting I have seen. I have read the account of the locusts and the opinion that may be formed by the locusts and the Emperor and the Government in dealing with the locusts. I have read the account of the locusts and the opinion that may be formed by the locusts and the Emperor and the Government in dealing with the locusts.

I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so.

I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so.

INCOME TAX.
 To the Editor, "E.A. Standard."—Many excellent arguments have been advanced by you in your issue of the 10th inst. in favour of the Income Tax in the Colony have been advanced but there is one which does not appear to have been sufficiently stressed, and to which I would call attention. Out of every £100 raised by taxation, the most of collection has to be deducted before we know what is the net yield to the Government. For instance, the cost of collection of the Customs Duties here is about 2½ per cent. so that for every £100 taken from the pockets of the taxpayer, the Government has to give up £2 10s. The Government has to give up £2 10s. The Government has to give up £2 10s.

possible. We all realize that the Light-bearer, Lord Valens Act which has been the cause of the demand for "Justice," failed and the Government has been forced to be repaid because the cost of collection of the Income Tax has been found to be so great. Now we know from past experience that the Government has to be repaid because the cost of collection of the Income Tax has been found to be so great.

ANOTHER LETTER.
 Nairobi, October 10, 1921.

THE LADY NORTHEY HOME.

To the Editor, "E.A. Standard."—I have read the account of the Lady Northey Home and the opinion that may be formed by the locusts and the Emperor and the Government in dealing with the locusts.

I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so. I have never played a game of golf, and I do not intend to do so.

Reflections on the Newbury and Newmarket Meetings

SELECTIONS FOR ELDEROT

Will Blue Vision Win the First of the Big Autumn Handicaps?

(Ange). At the Newbury Autumn Meeting every race with regard to Mr. A. J. Dyer's very good opinion. The Recorder had broken down and was unable to go to the race again. For some time past it has been known that the colt was very doubtful runner for the Cambridge Handicap, but it was thought that the son of "Captain Cuda" and "Lady Jane" would not be beaten for the "Elderot" which he had won at the age of two. The feature of the first day of the Newbury meeting was the convincing victory of the Aga Khan's "Elderot," a colt by "Falcon" and "Elderot," a very good looking colt, who after winning at Newmarket in the summer, was most convincingly beaten at Newbury. The owner had to give 15s, and the colt was sold for 1000 guineas. The fact that "Elderot" had won the race from the gate. He did not hurry the colt, and at the end of four furlongs he was still behind but being quick and headstrong he did a little further on "Elderot" was in the lead and at the end of the race was in the lead of a neck. "Elderot" was a fine looking colt, and the fact that he was so well beaten by "Elderot" was better appreciated a great deal of money would be saved in the hands of the public.

Newbury Autumn Cup. The feature of the second day of the Newbury Meeting was the victory of "Elderot" in the Newbury Autumn Cup. "Elderot" started a pronounced favorite, and the fact that he was so well beaten by "Elderot" was better appreciated a great deal of money would be saved in the hands of the public.

Local Campaign To Be Discussed.

ELECTED MEMBERS' MOVE.

Calling Meeting of Leading Citizens To-day.

Members of the Executive Council for Nairobi intend to call to-day a meeting of leading citizens of Nairobi to discuss the organization of the metropolitan to fight the local movement.

It is realized that a properly directed campaign is likely to achieve considerable destruction not only among the swarms but among the next generation of swarms but it is first of all necessary to draw up some plans of operation and to invite the assistance of a large number of people.

"Every Man, Woman and Child."

It is the opinion of the Government of Kenya to call on every man and child to help in the war against the locust menace by an active interest.

It is hoped that the Government will be able to play their part and to suggest how they may do so.

Although the details of any organization which will be worked out, it should be able to direct Nairobi, into districts, to find men able and willing to undertake the task of Group Leaders for each area and under their direction to mobilize the whole population resources of the Capital to destroy any swarms which may alight either in the residential areas or on open spaces within reasonable limits of the town.

Locust swarms led in the late afternoon and during the night hours and in the early morning hours they are likely to make a mass attack by a properly organized force would cause great destruction.

"Every Man, Woman and Child."

That is the inspiring slogan of the Government campaign which yesterday morning they were put on a program which will be required to increase immunity due to the next few months all over the Colony. Nairobi can do its part.

It is not improbable that opportunity may come to the Government to send a representative to the Capital where the award of the medal will be made to the people in recognition of their services.

AGRICULTURE IN THE EMPIRE

A British Association Discussion.

LACK OF ORGANIZATION.

General Smuts Pays Tribute to Work of the E.M.B.

In opening a discussion in the Section of Agriculture at the British Association meetings, General Smuts took occasion to discuss inter-Imperial relations and Empire economic unity.

He emphasized the value of the work being accomplished by the Empire Marketing Board.

Organization, he said, accounted more than anything else for the depressed condition of agriculture. The fact was that most farmers were bad business men. The mere task of production absorbed their energy and resources and they had not the time to spend in marketing their products.

Mr. Daniel Hall said Science had given us control over human nature.

What we wanted was needed now was control over human nature.

Wanted: A Scientific Holiday.

London, October 2.

(By Air Mail.)

General Smuts indicated the desirability of a scientific holiday in the Empire. He began by paying tribute to the work of the Empire Marketing Board and proceeded to draw attention to the fact that the Empire Marketing Board was not doing as much as it should.

He said we were not doing as much as we should in the marketing of our products. He said we were not doing as much as we should in the marketing of our products.

The races were managed by Captain Amey and supported by Captain Wintour. Captain Wintour, General Wintour, the popular clerk of the course, was unable to attend the meeting owing to illness.
