A New Goodyear Development that adds miles to tyres

A few months ago a Special Compound, whose formula has been carefully guarded, was added to the rubber used in the manufacture of Goodyear Tyres.

This new compound makes Goodyear Tyres more heat resisting and age proof, and adds miles and miles of extra service to what was already the world's longest wearing tyre.

The New Heavy Duty Goodyear Tyres which are now on sale in Kenya and Uganda are made with this heat resisting compound.

That small and steady dwindling body of motorists who have never used Goodyears before will obtain an entirely new conception of big mileage and low operating cost with a set of these new heat and age resisting tyres.

Should Women dread the approach of a perfectly natural event?

NATURE never intended you to suffer from it. Why is it that there are so many women who experience such pain and weakness?

This is the reply, supported by the best medical opinion of California: it is the visit of every body cell and your kidneys hinder the correct performance of all bodily functions, particularly those of women.

The use of KALZANA, the calcium-iodine, for a few weeks provides the whole system with all the calcium (lime) needed to establish that cardiac, vigorous health that Nature intended you to enjoy.

It is true that Kalzana, as only this scientific form (a combination of potassium iodide and calcium lactate) will the calcium be taken up and retained by your body.

Low your diet—establish the functions on a normal basis by starting a course of Kalzana to-day.

Sold by all Chemists and Druggists in India by Canning & Sons in London & 113 Raffles Place.
