ELDOROT SYNDICATE BEHIND GOLD FINDS.

Prospecting Led by an Old Klondyke Miner.

PROMISING DISCOVERIES.

The special correspondent of the "East African Standard" in the following article on the Klondyke gold discovery reveals the fact that the parties mainly interested are a number of Eldorot business men who have formed themselves into a syndicate.

The indications of gold in the affected area were found some years ago but intensive prospecting has only been carried out for the past year with the promising results already recorded.

The leader of the field party, Mr. L. A. Johnson, one of the early settlers on the "Platoon" west of Eldorot in the famous rush of 1897.

It is stated that there is great scope for "placer" mining in the Kakamega area.

(From a Special Correspondent).

Perhaps it is not generally known that the East African Standard is publishing a series of articles on the gold discoveries in the Eldorot district. The articles are written by a resident of Eldorot, Mr. L. A. Johnson, one of the early settlers on the "Platoon" west of Eldorot in the famous rush of 1897. It is stated that there is great scope for "placer" mining in the Kakamega area.

prospect and endeavoring to increase the produce of gold which the newly discovered reef is said to contain. It is reported that the claim being worked at present is yielding the average 1000 lbs. of gold in 100 days of "placering" and should average 5000 lbs. in a long time. One has to be prepared to work in the bush for a long time. It is reported that the mine is being worked in the Kakamega area.

Patrons Farmers.

Considering the tendency the farmers in this district have shown to improve their methods of farming, it is not surprising that what may be done in the future is being ready for a good harvest.

Public Works.

Economy in Cooking—No. 5.

Serve more and better Gravy. What an improvement gravy makes to the meal! But it should be rich appetizing! Gravy made the quick and simple Bisto way.

What a teaspoonful of Bisto smoothed down in a cup of warm water—pour into the roasting pan, after removing the fat, stir as you bring to the boil—and there is Gravy—rich and appetizing!

Bisto for perfect Gravy.

For the best results, use Bisto in a cup of warm water—pour into the roasting pan, after removing the fat, stir as you bring to the boil—and there is Gravy—rich and appetizing!
