The Dramatic Rise in Price of Sterling.

BULLION DEALERS BADLY BITTEN.

Left With Huge Stocks of Gold.

FURTHER IMPROVEMENT IN VALUE OF THE BRITISH POUND.

The Stock Exchange markets this morning began the week with a certain rest, actuated by a sharp rise in sterling to 333, which had been noted on the previous day. Most of the leading bullion dealers were credited with a quarter better, with War Loan at 191½-British official War Reserve.

BRITAIN'S STABILITY.

Effect on Operation Abroad.

London, March 5.—The recent gradual rise of the pound to value against the dollar has been assumed a permanent feature today. From an overnight level of 332, it advanced to 333, an improvement with the low level of 329, touched in December. The improvement in the pound was accompanied by a fall in the price of gold. Today's steep rise in London is attributed to the fact that a considerable amount of operations by a group of London banks has been completed. The Treasury and the Bank of England, who have been despatched in checking the gold rise. The main reason for the rise is attributed to optimism, particularly abroad, about the prospects of stability.

STILL RISING.

Effect on the Bullion Market.

Bullion, March 5.—Appreciation in sterling continues, and the price of gold is rising. This morning was 37½ in London and 37½ in New York. The True Situation at Kakamega.

STATEMENT BY EXECUTIVE OF THE MINERS' ASSOCIATION.

Warning to Newcomers.

ENAGGERED REPORTS CALCULATED TO CAUSE DISAPPOINTMENT.

The 'East African Standard' has received from Lt. Colonel F. A. Swinton House, Chairman of the Kakamega Mining Association, a statement of conditions with a request for publication.

The gold-bearing area of Kakamega is reported to be 600 square miles and the European mining population is given as 450.

It is stated that from 700 to 1,000 tons of gold are being taken out every month.

The great majority of payable creeks have already been pegged and the working methods of the majority of miners leave much to be desired.

Head and Housing.

It is one of the facts that will strike both the miner and the public that the miners have spent considerable money in the purchase of land...

LADIES' FASHIONS

A Letter from Paris.

SMALL NOVELTIES IN CLOTHES.

In the hands with masses of tiny curls in the hair. The neck of the dress is high and the skirt is plain. The dress is made of a light fabric with a subtle pattern. The sleeves are short and the collar is high. The dress is simple and elegant.

Bracing Wraps.

We have seen a good deal of the long, thin, wrap-like garment. Now, as a change, comes a wrap of plain material, which fits the body and is made of a light fabric. It is simple and elegant.

Beaded Tassels.

Tending, first, to trimming on neck, cuffs and hems, and then to small puffs, or beaded tassels, on the sleeves and the skirt. Sometimes the tassels are made of beads, and sometimes of a light fabric.

Laon "Pan" Slenderer.

The fashion of "Laon" slenderer, which is a change from the "Laon" of last year, is a change from the "Laon" of last year. It is simple and elegant.

KENNEL NOTES

Margaret Colyer

My dear Sir,

I have the pleasure to inform you that your dog, 'Lionel', has been admitted to the membership of the 'Blue Boy' Club.

Yours faithfully,

Margaret Colyer

The Maize Industry in Kenya.

A RECENT LECTURE BY COLON AGRI-CULTURAL OFFICER.

Value of Seed Competition.

RESULTS OF EXPERIMENTAL WORK DURING LAST YEAR.

The following are reports of lectures given by Colon Major, B.A. (P), of the Kenya Agricultural Department, at the 1937-38 Maize Show, held at the 1937-38 Maize Show, held at the 1937-38 Maize Show.

EXPERIMENTAL WORK OF MARCH 1938.

On the 12th of March 1938, the following experimental work was carried out:

(1) The effect of sowing date on the yield of maize.

(2) The effect of sowing date on the maturity of maize.

(3) The effect of sowing date on the quality of maize.

(4) The effect of sowing date on the resistance of maize to pests and diseases.

(5) The effect of sowing date on the resistance of maize to drought.

Maize Seed Competition.

The results of the experimental work carried out during the last year are as follows:

(1) The yield of maize was significantly higher when sown earlier than when sown later.

(2) The maturity of maize was significantly earlier when sown earlier than when sown later.

(3) The quality of maize was significantly better when sown earlier than when sown later.

(4) The resistance of maize to pests and diseases was significantly higher when sown earlier than when sown later.

(5) The resistance of maize to drought was significantly higher when sown earlier than when sown later.

Maize Seed Competition.

The results of the experimental work carried out during the last year are as follows:

(1) The yield of maize was significantly higher when sown earlier than when sown later.

(2) The maturity of maize was significantly earlier when sown earlier than when sown later.

(3) The quality of maize was significantly better when sown earlier than when sown later.

(4) The resistance of maize to pests and diseases was significantly higher when sown earlier than when sown later.

(5) The resistance of maize to drought was significantly higher when sown earlier than when sown later.

Maize Seed Competition.

The results of the experimental work carried out during the last year are as follows:

(1) The yield of maize was significantly higher when sown earlier than when sown later.

(2) The maturity of maize was significantly earlier when sown earlier than when sown later.

(3) The quality of maize was significantly better when sown earlier than when sown later.

(4) The resistance of maize to pests and diseases was significantly higher when sown earlier than when sown later.

(5) The resistance of maize to drought was significantly higher when sown earlier than when sown later.

Maize Seed Competition.

The results of the experimental work carried out during the last year are as follows:

(1) The yield of maize was significantly higher when sown earlier than when sown later.

(2) The maturity of maize was significantly earlier when sown earlier than when sown later.

(3) The quality of maize was significantly better when sown earlier than when sown later.

(4) The resistance of maize to pests and diseases was significantly higher when sown earlier than when sown later.

(5) The resistance of maize to drought was significantly higher when sown earlier than when sown later.

Maize Seed Competition.

The results of the experimental work carried out during the last year are as follows:

(1) The yield of maize was significantly higher when sown earlier than when sown later.

(2) The maturity of maize was significantly earlier when sown earlier than when sown later.

(3) The quality of maize was significantly better when sown earlier than when sown later.

(4) The resistance of maize to pests and diseases was significantly higher when sown earlier than when sown later.

(5) The resistance of maize to drought was significantly higher when sown earlier than when sown later.

FRUIT IMPORTS.

Regulations to Prevent Imports.

The Kenya Government has issued regulations to prevent the importation of fruit from certain countries.

The regulations are as follows:

(1) Fruit imported from certain countries must be accompanied by a certificate of health.

(2) Fruit imported from certain countries must be accompanied by a certificate of origin.

(3) Fruit imported from certain countries must be accompanied by a certificate of quality.

(4) Fruit imported from certain countries must be accompanied by a certificate of safety.

(5) Fruit imported from certain countries must be accompanied by a certificate of value.

FEBRUARY IMPORTS.

The Rush to Avoid Tariffs.

The Office of the Revenue Commissioners has published the statement of the results of the preliminary figures of the February imports of the Republic of Ireland. The total value of the imports for the month was £75,000,000, as compared with £70,000,000 for the corresponding month of last year. The principal items of import were:—

Wool	£1,100,000
Woolen manufactures	£1,100,000
Iron and steel	£1,100,000
Coal	£1,100,000
Grain	£1,100,000
Other	£1,100,000
Total	£75,000,000

The value of the exports for the month was £65,000,000, as compared with £60,000,000 for the corresponding month of last year. The principal items of export were:—

Wool	£1,100,000
Woolen manufactures	£1,100,000
Iron and steel	£1,100,000
Coal	£1,100,000
Grain	£1,100,000
Other	£1,100,000
Total	£65,000,000

The balance of trade for the month was a deficit of £10,000,000, as compared with a deficit of £10,000,000 for the corresponding month of last year.

Break Journeys.

By train.—The railway authority has announced that the rate of travel by train will be reduced by 10 per cent. from the 1st of April, 1926. This reduction will apply to all classes of fares, and will be in addition to the 10 per cent. reduction in the rate of travel by motor car, which was introduced in 1925. The railway authority has also announced that it will introduce a new class of fare, known as the "Break Journey" fare, which will be available for use on all routes. This fare will be 10 per cent. in excess of the ordinary fare, and will be available for use on all routes. The railway authority has also announced that it will introduce a new class of fare, known as the "Break Journey" fare, which will be available for use on all routes. This fare will be 10 per cent. in excess of the ordinary fare, and will be available for use on all routes.

Shs. 47/50

WHITEAWAYS, LAIDLAW and CO., LTD., were born successful Sole European Retail Agents in Nairobi of Coleman Lamps and Lanterns.

WE CARRY THE SPARES.

WE SERVICE THE LAMPS.

SEND YOUR ORDERS TO WHITEAWAYS.

"THE SUNSHINE OF THE NIGHT"

You go to bed and find your Coleman Instant-Lite Lamp glowing in the room. The light is so bright that the glow is brighter than 100 ordinary candles. It is a beautiful view, having a glow that is as soft and steady as the sun.

Model 312. COLEMAN INSTANT-LITE LANTERN.

Finished in attractive Flank in Color. Works like the popular lamp.

Shs. 95/-

COLEMAN LAMPS ARE FAMOUS FOR THEIR BRILLANCE.

There is no finer lantern than the Coleman Instant-Lite. It is the closest thing to night sunshine, wilderness use, garage and filling station - atmosphere, construction, showman, farmer, soldier, drayman, and horse of them, whose night task demand good light and plenty of it.

Model 228. INSTANT-LITE LANTERN.

The same as No. 220 except that the green porcelain enamel top is larger, the underside being of white enamel to aid reflection of light downwards. Bases at both in highly polished nickel, holding two pairs of feet - enough to 12 to 14 hours' service.

Shs. 69/50

The Coleman is safe to carry and use anywhere. It can't spill over. It can't be killed by a blow. It can't be tipped over. It is a portable lantern - one's home or camp. It is a portable lantern - one's home or camp. It is a portable lantern - one's home or camp.

Model 318. INSTANT-LITE.

Produces a fine, soft, steady light. No adjustment necessary. No fiddling with valves. No pump. No gas. No fiddling with valves. No pump. No gas. No fiddling with valves. No pump. No gas.

Shs. 62/50
