DISSENTED ADVICE

We have been so accustomed in the past to see private enterprise build and operate, and to see the Government to be in a position to do so, that it is not surprising that the Public Commission, appointed to investigate the matter, should have recommended that the Government should take the lead in building, and that it should be its duty to see that the Government departments are in a position to do so. OUR SHORT STORY FROM THE SHADOW OF THE TERROR.

BY I. G. MORRELL.

The night was pitchy dark. Beyond the walls of the town out in the country, my great one had passed on, and I was left alone with what only by courtesy could be called a maid.

We would have travelled away from the town that night for another Jack's sake, but I was too tired to do so. I had been so long in the town, and I was so tired, that I could not have done so.

The maid was a girl of about twenty, and she was very kind. She had been in the town for some time, and she had seen many things. She had seen the death of my great one, and she had seen the death of my father.

"What an interesting story that is to be told to me, and the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.

"The girl who told me that she had seen the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.

"The girl who told me that she had seen the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.

"The girl who told me that she had seen the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.

"The girl who told me that she had seen the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.

"My father's death is between her and the death of my great one. They were the cause of the death of my great one, and they were the cause of the death of my father.

"The girl who told me that she had seen the death of my great one, and the death of my father. I have heard of such things before, but I have never heard of such things as you have told me.
