"Jubaland. Its Peoples and Future."

By Cecil Wightwick Hayward

We have made arrangements for the publication of a series of articles on the little known province of the Protectorate. Its people will be dealt with under three heads (1) the Hamar Tribes (2) the Coastal Bantu Tribes (3) the Galla or mixed Bantu Tribes, consisting chiefly of Somali or Shilluk or Mursi. The authors and contents of these articles will be bound up as will be published, and are of great importance. The future of Jubaland will be dealt with (4) the development by white occupation (5) the political position. The author was formerly a District Commissioner in Jubaland where he has spent nearly three years. He has been concerned with the Administration of the Province and has extensive experience and a reputation fully qualified to give an authoritative opinion on these subjects.

"The Snow-Capped Peaks of the Equator," Kenya.

By John W. Arthur, M.D. (Glas.)

This article will be specially illustrated and will contain an introduction by "Annie," who is arranging the series. It describes the Snow-Capped Peaks of the Equator, which will be supplied to all M.P.s. and many scientific and geographical notes of interest to all who are interested in the subject. Dr. Arthur's observations are also being made to publish an illustrated article on the Snow-Capped Peaks of the Equator.

SEND NO MONEY NOW! WE WILL SEND YOU THE BOOKLET FREE OF CHARGE.

The above articles shortly will appear in the columns of the

"East African Standard." Are you a Subscriber?

Special Articles of Particular Interest to East Africans.

"Jubaland, Its Peoples and Future."

By Cecil Wightwick Haywood
We have made arrangements for the publication of a series of articles on this little known province of the Protectorate. Its people will be dealt with under three heads: (1) the Hamar Tribes (2) the Coastal Tribes (3) the Galla or mixed Galla Tribes, containing a sketch of occupied or liberated Somali lands. The measures and customs of those tribesmen will be treated upon as will their political and economic importance. The future of Jubaland will be dealt with (1) the development by the capture of the political position. The author was formerly a District Commissioner in Jubaland where he has spent nearly three years. He has been conversant with the administrative history of the Protectorate some thirteen years, and is therefore fully qualified to give an authoritative opinion on those subjects.

"The Snow-Capped Peaks of the Equator," Kenya.

By John W. Arthur, M.D. (Glas.)
This article will be specially illustrated and will contain an introduction by "Zamboni" who is at present in the service of Mr. Macgregor Kees, the Director of Public Works, but also kindly supplied to us with E.R.S. and many excellent topographic notes of which we have reproduced in addition to those taken by Dr. Arthur. Arrangements are also being made to publish an illustrated article on the Mount Kenya Range.

The above articles shortly will appear in the columns of the "East African Standard."

WOMEN AND BOXING.

The growing tendency for women to be present at boxing matches is evoking considerable comment.

The cause of this is not, as is generally supposed, the desire to see the prizefighter in action, but rather, whether any Englishman, or rather, whether any Englishman, is destined to be the champion.

The question now is whether Englishmen will follow the example of their French and other continental counterparts.

It is a question which has been raised in the minds of those who are interested in the sport.

The answer is not yet known, but it is a question which will be decided in the future.

The answer is not yet known, but it is a question which will be decided in the future.
