Pure Milk for Babies

In the feeding of children a variety of pure milk is of the utmost importance. A variety which is suitable for use as infant milk. The "Allensbury's" Milk Foods are made from purest fresh full-cream milk, so selected as to contain the different balance of sugar, salt and butter milk. The method of manufacture absolutely precludes all risk of contamination with disease germs. A thoroughly effective substitute for the natural food of the child is obtained, and vigorous growth and health are promoted. No sterility or digestive trouble need be feared when the "Allensbury's" Milk Foods are given. The Milk Foods are made in a manner by the addition of hot water only.

MILK FOOD No. 1.

From birth to 3 months.

MILK FOOD No. 2.

Our Weekly Letter on European Sports and Pastimes.

London, Jan. 20.

ATHLETICS.

That the appointment of W. H. Knox, of Canada, as the head coach for English athletes during the next three years would be favourably received on all sides was the verdict of a meeting of the British Athletics Council which met on the 17th inst. at the annual dinner of the South London Harriers this week. One expressed the belief that such an equally capable coach had never been found in England, whilst another gentleman remarked, "It is preposterous that such a 21-annual error should have been made" (Reference is made to this matter for the purpose of showing the difficulties under which the athletic officials work. The one man they are constantly being criticised for doing nothing, and then when they show enterprise, others come along with the sort of abundance alluded to. It is absolutely absurd to say we have professional coaches in England equal to W. H. Knox. There are plenty of men who are termed professional coaches, but their efforts start and finish with track athletics—the field events. Jumping, hurdlings, weight throwing, pole vaulting, etc., being outside their scope. This is but natural, for the pastimes named are not popular here. Thus the authorities were compelled to go elsewhere for an instructor at those sports and positions at which our athletes are in the greatest need of expert coaching. Their result shows that the so-called experts are not up to the mark. It is especially illustrated by Billy Walls, of Canada, and G. H. Fairbank, of South Africa, though of course they are not the typical examples of sprinters with perfect technique. The matter of English athletics is being done as it comes natural, and as a famous American aptly remarked to the writer "who your sprinters are a joke." It is unfortunately true, and though the material in England is second to none, it is not finished.

The conclusion at the dinner referred to

was well attended by Mr. P. L. Fisher, the Hon. Secretary of the Amateur Athletic Association. He welcomed his business that Empire and that Mr. Knox was born in Canada. He also pointed out that the records of Knox showed him to be a creditable all-round performer. It is a really strange how some people make no comment when the United States, France, Germany, Hungary, etc., Englishmen to assist them at rowing, foot ball, cycling, swimming, etc. This only applies to sport overwater, for in other countries—learning, languages, music, dancing—it is "hankish" to seek foreign teachers—often when home instructors of equal or better ability are available.

INTERNATIONAL BOXING.

The spectators at the San Langford's P. O. Curran boxing match did not get out for their money. The coloured man lost with a left and right which who are the brilliant work of the forwards, combined by sails and hand tackling which enabled the home side to score 11 points to the 8 by Yorkshir. Owing to this result, we may now see a tie for first place in the winners group, which would mean a replay to decide which country should be the winners of the Midland and Cornwall semifinal for the six ribbons.

Blackburn and Sunderland managed to gain on their two most dangerous rivals—Manchester United and Bolton on Saturday. Latham and Shea (2) scored for Blackburn against Sheffield United who could only respond with two, whilst the Sunderland players showed marked superior acquaintance. It was a narrow and expected to make a good showing. Walls was seen in quite a new light. Pigeot came rushing in, but met him with left jabs to the face and heavy body punches with the right. At the bottom of the table, but had settled into their seats. Pigeot was down and beaten, but he appeared rather

Gray's ability to make big breaks with ivory balls is being put to the test at the time of a match between the 17-year-old young player of great promise, in a match of 18,000 yds. the latter with 17,000.

On the first two days Gray was quite "at sea," being unable to adapt himself to the extra pace of the ivory balls. He gave a glimpse of what we may expect on the third day, however, in a match proved to 217 and also made another of 277. His aggregate and average for the season being 1,041 and 63 respectively. From this it may be assumed that he is merely a quack with it, as with composite balls. The man has been holding his own, his best effort being a break of 418, whilst at the end of the fourth day, he had actually scored five more points than Gray.

Inman and Stevenson are also showing good form. Their respective matches this week, the champion having made a break of 400 and Stevenson one of 375.

HOOBY FOOTBALL.

The supporters of Yorkshir received a shock on Saturday when Cumberland gained an unexpected victory in the Rugby County Championship match at Carlisle. It was the brilliant work of the forwards, combined by sails and hand tackling which enabled the home side to score 11 points to the 8 by Yorkshir. Owing to this result, we may now see a tie for first place in the winners group, which would mean a replay to decide which country should be the winners of the Midland and Cornwall semifinal for the six ribbons.
