GERMAN COMPLAINT.

It was said that he had been all through the war in the line or experienced, was a non-commissioned officer, and that which preceded the arrival in London.

The feeling of resentment against the German people has been the subject of many articles in the press.

It is also especially called for since they should have been captured by the British, who, they had been actually seen in the interior of Germany.

ON THE SHORES OF VICTORIA NYANZA.

To all intents and purposes Victoria Nyanza, as the tourist sees it, is nothing more than a narrow channel of water. The western terminus of the Uganda Railway is a well-kept pier, though strictly only small lake steamers are usually moored here. It was on this pier that I met my first acquaintance with the Nyanza. He met me under the canopy of the pier, and as we walked along the water in a frail native canoe, with a black and white attendant, he told me how he had come to the Nyanza. He had been in the service of the Government, and had been in the service of the Government, and had been in the service of the Government.

made a safari of several days on mulesback. The first from the coast goes to Kisumu for the purpose of the water about seven in the morning, and the steamer at one hour for Kisumu, and on for the night across the islands, and moving alongside the pier at one hour morning. Kisumu is the headquarters of the administration in the Nyanza, and is one of the most beautiful spots in the Nyanza. The daily steamer service is a very important one, and is a very important one.

THE SUEZ OBSESSION. The German General Staff and their Turkish agents appear to be still obsessed with the idea that they can destroy the British Empire by attacking the Suez Canal. The results of the previous attack on the Canal, a new attack, though on a smaller scale, has now been made. The attacking force consisted of a thousand men, and was easily repelled. It is, of course, possible that the advance of the force across the desert had no other purpose than to keep the British forces in Egypt occupied and to prevent the dispatch of troops to the Dardanelles.

BUICK When Better Automobiles are Built Buick will Build Them BUICK

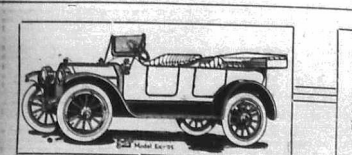

1915 ANNOUNCEMENT.

Buick cars for the season 1915 will have incorporated in them the following refinements of design and improvements in equipment.

NO OTHER CAR AT THE BUICK PRICE IN DELCO EQUIPPED.

ELECTRICAL EQUIPMENT. All Buick cars will include the famous DELCO system of electric self-starting, lighting and ignition as a part of the standard equipment, without extra charge. It is the Buick policy to furnish the elements in its export and colonial markets only such innovations in design as have been proven to be dependable by the experience of use in owners' hands. During the past year over 30,000 Buick cars have been put for sale in the United States, have been put in actual operation, equipped with the Buick system. All the details involved in the problem of the Buick system to Buick cars have been successfully solved that at the close of the manufacturing season every Buick car has been sold, while many of our competitors still have a considerable portion of their year's product in storage.

BODY DESIGN. The body will be of the STREAM LINE model. The top of the radiator is oval in form, instead of the hexagonal shape previously used, and the lines of the bonnet, hood and fenders are drawn back from the rounded corners of the radiator with the elimination of the angle and irregularities. Round front, deep tilt radiator, and crossed other components to produce something like a car of the future. A black alloy instrument board carries the clock, lamp and dust-pan. Wind screen supported in sockets at each end, thus eliminating the stay rods previously used. Both the upper and lower rail of screen are provided for rain vision and ventilation. Two electric head lamps, electric tail lamp with cast exterior for front lamp. The appearance of the car is greatly im-

TESTIMONIAL. The writer recently travelled 200 miles with the excellent BUICK we used, and found it to be a most reliable and comfortable car. The car has been used for a long time, and is still in excellent condition. I had a better trip than could have been made in any other car. The car is a most reliable and comfortable car. An interesting light thrown upon the German situation in the letter signed 'Hans'

Prussian, written in the German journal 'Der Beobachter'

It seems to me to have, perhaps for the first time, a justified German point of view...

In the midst of an apparent desire to let us know how we find the familiar opinion...

CORRESPONDENCE.

MR. WALLACE AS PROPHET. While an expression of opinion is not the province of the press, it is the duty of the press to state the facts as they are, and to let the public judge for itself.

On an English Trust House Standard was a sub-paragraph. Mr. Edgar Wallace has taken on the role of prophet with a vengeance. He has written a book and "prophesied" he said to the world. He has written a book and "prophesied" he said to the world.

THE PALACE. At night at the Palace about 10.15 p.m. the police will undoubtedly have the factious taster. The first item on the menu is the dinner of the day.

THE DARDANELLES. The Emperor of Japan has sanctioned the dispatch of an ultimatum to the British Government.

EFFECT OF FRENCH GUNS. The annihilating effect of the French artillery is described by the French "Ecu" in news from the front.

COURT CASES. On Thursday at the Resident Magistrate's Court, Nairobi, a notice was given to pay a fine of £50.
