Royal Vinolia Solidified Brilliantine.

The delicate nature of Royal Vinolia Solidified Brilliantine, and its freedom from heavy grease, make it most attractive for dainty toilets. It is not only more convenient for use than any liquid preparation, but it makes the hair more supple and glossy, without giving it an oily or greasy appearance. Though solidified, it appears completely unapplication. It is the hair, imparting a soft, silky texture and appearance. Its excellent use makes dandruff impossible.

Royal Vinolia Solidified Brilliantine.
THE delicate nature of Royal Vinolia Solidified Brilliantine, and its freedom from heavy grease, make it most attractive for dainty toilets. It is not only more convenient for use than any liquid preparation, but it makes the hair more supple and glossy, without giving it an oily or greasy appearance. Though solidified, it disappears completely on application to the hair, imparting a soft, silky texture and appearance. Its regular use makes dandruff impossible.

STARS AS GUIDES.

Instructive Article for Volunteers.

FEW SIMPLE METHODS.

The following interesting article on finding the stars at night appears in the January issue of the "Royal" magazine. It is from the pen of Mr. J. G. ...

In the direction of this brief article, one can find a way to meet in a strategic way the methods which require the aid of instruments, and in this way, however, it can be put into practice by anyone who has a few simple instruments to hand. It is the object of this article to show that the stars can be used as guides in a very simple way, and that the stars can be used as guides in a very simple way, and that the stars can be used as guides in a very simple way.

This group of stars will be easily picked out in the northern sky. If the observer is in the southern hemisphere, the stars will appear as a group and hence seem to go down. Hence the other names of the stars are "The Southern Cross" and "The Southern Stars".

Returned Englishman's Story.

A special correspondent of the "Daily Chronicle," writing from Tilly, says that he has just returned from the front, and that he has seen a great deal of the fighting. He says that the fighting was very hard, and that the British soldiers were very brave. He also says that the German soldiers were very brave, and that the fighting was very hard.

boy scouts, of which there are now a hundred in the city. Miss Youke said that she had seen a great deal of the fighting, and that the British soldiers were very brave. She also says that the German soldiers were very brave, and that the fighting was very hard.

THE WESTERN AVENUE.

WHAT IT MEANS AND WHAT IT PORTENDS.

BY OUR SPECIAL CORRESPONDENT (EDGAR WALLACE).

London, February 13. In the last weeks of a stormy February I have been conducting a series of interviews with the French military and naval officers. The military officers were, for the most part, very frank, and they were very frank in their opinions. They were very frank in their opinions, and they were very frank in their opinions.

You may wish to remember all that happened on these dates, the double-act between the west between the Allies playing in November and December, 1914, and the first forward movement in May and June, 1915. The first forward movement in May and June, 1915, was the first forward movement in May and June, 1915.

When I am asked what I believe to be the result of the present situation, and should imagine that I have no right to make any statement. I have no right to make any statement, and I have no right to make any statement.

It is not necessary to be involved. It is not necessary to be involved, and it is not necessary to be involved. It is not necessary to be involved, and it is not necessary to be involved.

The Land of Distress.

A RETROSPECT.

(By "The Correspondent.")

According to the latest cables published the land of Mexico seems to be in a greater state than ever has been. This year, however, has been a most successful one for the country, and the harvest has been unusually good. The people of this land, the dictator, had to be very careful not to do anything that would bring the country to a standstill. He had to be very careful not to do anything that would bring the country to a standstill. He had to be very careful not to do anything that would bring the country to a standstill.

FREEDOM OF PRESS.

We shall be glad when the columns of the local press will be free from the general inhibition, etc. The home press is free to discuss any subject that may be involved in the way it is, and as a corresponding point of view, things are...

MISCELLANEOUS AND COFFEE.

A correspondent asks me if I will, through the medium of my letter, ask the editor to let him know up to what altitude coffee can be easily planted. I have no means of ascertaining this, but I have an opportunity to be set up on an altitude of over 7,000 feet. I do not think it is going to be over 10,000 feet. I have a fine land for coffee, 160 acres of growing soil at 5,000 feet. It is a fine piece of land for coffee, and I have had it set out in 1914, and has 2,000 feet of the former about 1,000 feet from the 5,000 feet of the planting.

THE PLANTING.

I have no reason why I should not do the same on the same soil as the London, Edinburgh, Glasgow, and other cities. It contains an abundance of vegetable matter, and is deep, which accounts for the fact that it is so fertile. It is a fine piece of land for coffee, and I have had it set out in 1914, and has 2,000 feet of the former about 1,000 feet from the 5,000 feet of the planting.

STARS.

I am pleased to express my thanks to Mr. Macellan Wilson for his kind letter, published in the Standard, in which he expressed an opinion of the best stars seen on the western horizon. In my view, I refer, from reading his explanation forwarded me by one of our local astronomers.

MONSTER PIG.

Y.M.C.A. at the FRONT AT A BASE CAMP.

A "helping" day in a Y.M.C.A. base camp in France begins early and ends early. The day is a long one, and the work is hard. The Y.M.C.A. men have to be ready to start at 6 o'clock, and they have to finish at 10 o'clock. They have a lot of work to do, and they have to do it in a hurry. They have to be ready to start at 6 o'clock, and they have to finish at 10 o'clock. They have a lot of work to do, and they have to do it in a hurry.

Every day is served by a body of the women from all grades of society. It is not by any means every day that the Y.M.C.A. is visited by the women. The Y.M.C.A. is a place where the women can find a lot of help. They can find a lot of help in the Y.M.C.A. They can find a lot of help in the Y.M.C.A.

So the day goes on, hour after hour, until at last we are "doing out."

OUR EXTRAVAGANT HABITS

"Tremendous."
