Sunlight Soap Service.

A BROAD, particularly in hot climates, life often depends on strict cleanliness—clothes are washed with greater frequency than is necessary in this country.

A purifying soap is essential, and when it saves time and effort you have the secret of the tremendous demand from abroad for the "foreign service" of Sunlight Soap. Purity is the great soap essential. Cleansing means purification. Without pure soap you cannot have perfect cleanliness—that stands to reason.

TEA PLANTING IN BRITISH EAST AFRICA.

Open letters to Indian Planters.

As yet there is no tea manufactured in E. Africa. There is a few tea bushes growing in Lamoo at an elevation of about 5,000 feet. It is true that they are flourishing. The soil in this elevated land, from 4,000 to 5,000, is a sugar. The rainfall is moderate and well distributed over the year. There is hardly a single day in the year without sunshine, and all the rain comes at night, so that taking soil, sunshine, and rainfall, I judge that conditions for tea-growing are unfavourable in any other country. As yet, you find this the climate is appropriate for white men to live and settle in. I feel sure that many of you will be interested to know more of this. There are parts on the coast and low elevations which are well adapted with Ceylon or Assam in damp and lush. There are parts at elevations over 7,000 feet which get a little frost.

To introduce the subject, I have written to our local paper and have given rather an optimistic view of tea-growing. Some of you may confirm or dispute those. I have stated that a high-class of hybrid (such as Kallins Java Strains), on good soil will yield 1,000 lbs. of tea per acre. Also that 1,000 lbs. of tea per acre could be made, and sold at 50 cents (eight annas) at the rate of 38 cents (four annas), and that in some cases this could be exceeded—say 2,000 lbs. per acre selling at 60 cents (five annas) and made for 80 cents (four annas). Very optimistic, all this, but I expect the figures will be confirmed. For I know well of yields of 10, 15, 20, 30, 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1,000 lbs. per acre.

We have growing here, plain tea, some (with six and seven leaves) that show, foliage, etc., plants that range from the severely frost to the most luxuriant and some luxuriant.

Offensive which Failed.

POSITIONS EXPLAINED.

There are two main angles for dealing with the Austrian offensive against the Italian front...

Benito, I could only include in this article my own personal and not the general opinion as to the Italian front...

It may be said that the Italian front is the big Austrian thrust has taken place in the north of the Italian front...

the main pressure was not in the direction of the Italian front, but in the direction of the Alpine front...

It cannot be denied that the break in the Italian line has not been in the direction of the Alpine front...

It is also not improbable that a mountain range detachment was given to the rapid advance of the Italian front...

It is not in our opinion that the main pressure was not in the direction of the Italian front...

This testimony of benevolence and kindly set evoked loud cheers and the hearty congratulations of the audience.

Sunlight Soap Service.

A BROAD, particularly in hot climates, life often depends on strict cleanliness—clothes are washed with greater frequency than is necessary in this country.

A purifying soap is essential, and when it saves time and effort you have the secret of the tremendous demand from abroad for the "foreign purity" of Sunlight Soap.

Sunlight is the great soap essential. Cleaning means purification. Without pure soap you cannot have perfect cleanliness—that stands to reason.

OUR LONDON LETTER

Unusual Optimism.

THINGS IN GENERAL.

(From Our Own Correspondent.)

London, May 4.

We are a curious people. You would think that after a week of the most revolutionary war since '98 after the disaster of Kut...

Before dealing in detail with what really happened, I may be permitted to make a few comments on the situation which has arisen in consequence of all the events I have referred to...

PALL OF KUT

The fall of Kut is not a surprise. We all knew that its position was hopeless, yet we felt rather sure that the Government would have the courage to publish to the House the end of the efforts...

As you can well imagine, we seem to have been living the life this week, and it is not without a certain amount of regret that we shall certainly not retire...

IN FRANCE.

In France there have been no developments of importance, although the troubles are now quiet...

I gather, however, that wholesale mining will be a feature of the coming campaign...

RUSSIA.

Russia is still moving about slowly in Asia Minor and with the prospect of making still more rapid progress...

IN THE BALKANS.

No advance is yet likely in the Balkans, since the Greeks are not facilitating this advance...

MILITARY SERVICE.

After the horrible fiasco last week when the Government tried to dole out money...

THE "APPOINTED DAY"

The "Appointed Day" is the 30th day after the end of the efforts...

LABOUR IN THE FUTURE

Labour is receiving the new proposals with tranquillity, and I gather that the party conference on the subject...

ORGANIZING THE EMPIRE

Federation and Autonomy.

CANADIAN VIEWS.

The speech of the Prime Minister of Australia has attracted much attention in Canada since the "Times" correspondent in Toronto. It cannot be said that the extreme views of his admirer are shared by the Canadian public.

How far they speak for the masses of the latter party cannot be definitely stated. It is an obvious fact, however, that there are many loyal Canadian federalists, and that many of those who have been jealous for colonial self-government now admit the necessity for a better organization of the Empire.

It is seen that, although we have an army in Canada and have appropriated hundreds of millions for war purposes, the autonomy of Canada has not been impaired. It is seen, therefore, that there is need for systematic co-operation in trade matters.

In the commonwealth of the British Empire, there will be a strictly reciprocal system of trade with the soldiers' return. For those the Empire will be their country.

In the commonwealth of the British Empire, they will demand a full and equal return. We know now that common action with the Mother Country does not involve the political degradation of the Dominion.

We begin to understand that Imperial organization does not threaten self-government in the Dominion, but is the guarantee of it. It is the guarantee of it.

It is the guarantee of it. It is the guarantee of it. It is the guarantee of it. It is the guarantee of it.

It is the guarantee of it. It is the guarantee of it. It is the guarantee of it. It is the guarantee of it.

Sunlight Soap Service.

Purity is the great soap essential. Cleansing means purification. Without pure soap you cannot have perfect cleanliness—that stands to reason.
