THE UNITED STATES AND THE ALLIES.

BY OUR SPECIAL CORRESPONDENT (EDGAR WALLACE.)

London, January 8.

It is most difficult to understand the situation in and as to the effect America in you appreciate the fact that there are in the United States a very few practical industrial, largely represented by farmers and American mechanics, men, very few of whom are of the opinion that we are doing anything so much as the humiliation of their former oppressors, that you would want you the fact that the American Government is suffering from the hands of Mr. Wilson, the Secretary of State, and Mr. Joseph Bland, the Secretary for the Navy. Of these Mr. Lansing is a very able, well-balanced man with few faults. I do not suppose that any other member of the Government. Mr. Bland is a pacific, polite man, but shares many of the illusions which have made the course of the United States throughout the world. Mr. Wilson himself has no illusions. He is a man of the highest intelligence. He believes that nationalities exist without war, and that civilization, progress, and scientific achievement can be gratified by means other than a resort to arms. A scientific pacifist, he can, but cannot perceive appropriate how necessary which means a more extensive to progress as applied to the United States. He is a man of high intelligence. He believes that nationalities exist without war, and that civilization, progress, and scientific achievement can be gratified by means other than a resort to arms. A scientific pacifist, he can, but cannot perceive appropriate how necessary which means a more extensive to progress as applied to the United States.

Royal Viola Perfume

presents the finest essences of flowers and sweet grasses in a form of charm and delight disconcerting actors. It is entirely free from the heavier odour which is so often exhaled by the most costly perfumes when they are first dropped from the bottle. The bouquet is most delicate when first applied, and its fragrance lingers long after application.

AUSTRIA AND SEPARATE PEACE.

Integrating in Madrid.

A new and startling, though not quite unexpected, move has been made by Austria. This is an attempt by Austria, which is alleged to be in process, to secure peace with the Allies for itself, or at least for the part of Austria which is not being held by Germany. It is reported from The Hague that Austria is preparing to accept this view, and that the Spanish connection will be the first step towards the movement. The Austrian Ambassador in Madrid has been reported to have been in communication with the Spanish Government, and it is alleged that the Spanish connection will be the first step towards the movement. The Austrian Ambassador in Madrid has been reported to have been in communication with the Spanish Government, and it is alleged that the Spanish connection will be the first step towards the movement.

CENTRAL POWERS' FOOD PROBLEMS.

Peace Will Not Mean More to Eat.
Bismarck, the German Food Department, has issued a general statement which is not only a warning to the Allies, but also a warning to the Central Powers. It is stated that the Central Powers are not in a position to supply their own people with food, and that they are dependent on the Allies for their food supply. This is a serious situation, and it is one which the Allies should be aware of.

AUSTRIAN BOTALTY'S MERVINDNESS.

Removing Their Treasure.
The Vienna papers state that the present measures and money of the Austrian Government are being removed to the safety of the country, and that they are being deposited in Switzerland and other neutral countries.

U.S.A. AND GERMANY.

How Rupture was Received

SITUATION REVEALED.

London says that the news of the rupture between America and Germany... the deepest impression in London at any event since the outset of the war...

The general opinion prevailing in that the United States will inevitably be forced into war, but there is much speculation as to the part she will play and the effect upon her supply of munitions.

There are already indications that neutral countries have begun to recover from the preliminary panic, even before they learned of the rupture...

His statement of the severance of relations with Germany was greeted with an outbreak of applause, which was renewed when the President declared it was impossible for him to believe that Germany would disregard her obligations by destroying American ships.

The Congress rose and observed when the President had finished his address and remained standing while he left the White House.

All political differences, says Braker's correspondent in New York, have disappeared in the excitement of breaking the news.

It was recognized the United States would be obliged to send an expeditionary force to Europe for some months.

The British have 4,000 feet small craft... the United States to build for submarines.

Mr. W. D. Thompson & Co., on February 29, said the whole of Mr. Black's... the price of the stock rose to 100...

entrances recovers the services of the Government.

The American Government has, reports Braker's correspondent in Washington, asked for the co-operation of all State authorities...

Special guards have been placed on the Government buildings, and redoubled precautions have been taken at the White House and at Allied consulates.

It is estimated that 10,000 cases of the Central Bureau are under investigation, at least 6,000 being in New York alone.

It is a curious fact that since he was elected by public action, Italy, without reason, has not been in the Y.M.C.A. rooms at 9-11, 11th Street, New York, since the outbreak of the war.

The business morning and occupational social of St. Andrew's Church takes place to-night in the Y.M.C.A. rooms at 9-11, 11th Street, New York, from 7 to 9 p.m.

That the House of Commons, Admiralty and War Office, were every reason to hope that the same success which had attended the defence of the Zepplins was to be achieved by the British in this case.

Mr. H. H. Munroe, the member of the "Kruppsmen's Guild" was seriously injured by the explosion of a Zeppelin which was being inflated in the United States.

THE EMPIRE'S RESOURCES Co-Operative Effort Needed

STATE DEVELOPMENT OF INDUSTRIES

Sir Stuart Jameson, who is chairman of the Empire Resources Committee, has written to Mr. Wilson, who is a member of the Committee, in which he has pointed out the need for a co-operative effort in the development of industries.

The central idea, they said, was the development of the State by the State, because the starting material of taxation would not reduce the State's post-war financial balance.

It is a very interesting article, and it is one that should be read by all those who are interested in the development of the Empire.
