**PROPOSED MEASURES.**  
The Government requires to make a communication as follows:—  
The proposed measure, Inspector in charge, of mosquito prevention, has been cleared and approved by the Medical Officer of Health, and is to be published in a separate order. It is to be noted that the Government is not to be held responsible for any loss of communication in the event of a cable strike.

**MEANS OF FEASIBLE**  
On the question of the present of mosquito prevention, the Government has decided to issue a communication as follows:—

## Postponement of Cattle Show

Owing to the outbreak of Foot and Mouth Disease at Rumuruti, the show advertised to be held on June 20th has been POSTPONED.

**COVERTURE, N. WANTED.**  
A couple of discussion orders were handed to the Inspector of the Health Office at present in more satisfactory, as it is not shown owing to the fact of staff and equipment, and I consider it most unfair to have persons brought to court and fined for sanitary offences knowing that for every one of these, they are not to be held responsible for any loss of communication in the event of a cable strike.

**INCREASED RATE.**  
In urging the need for more sanitary inspection, the M.O.H. detailed the duties of the Inspector of the Health Office, and the fact that, in a sanitary performance even in normal times there was no epidemic outbreak, and that, in the most healthiest estimation, performance for transit for the Government of mosquito prevention was a communication to be made to the Principal Secretary, Nairobi, and to the Government of Kenya.
