**Let Us Pause!**  
 Living expenses have increased enormously recently. Have wages increased proportionately? (Lead cries of "No! No!") That being the case, we must revise our position. The first question to be answered is: "Am we living as economically as possible?" Probably you will have to admit that this is not so. If you are retaining a man, you will have to reply that, from month to month, you don't know what it is going to cost—what the man wants to eat, what he is wearing, what he is going to do. Why continue in this state of financial uncertainty? Why not know your liabilities beforehand? Why not have the best of everything? Why not live in a house surrounded by spacious grounds, containing a tennis court? All these things may be had

German Morale Declining Army's Splendid Recovery

OUR TROOPS NOW ABLE TO WINTER ON DRY GROUND

["STANDARD'S SPECIAL CABLE SERVICE"]

LONDON, September 28. Military reports express intense satisfaction at the results of the latest British advance in the Terno sector. The advance of the success must not be measured by the gains of position and the miles of ground, but by the fact that the German army is unable to counter the British advance and is being driven back to a distance from which they will find great difficulty in replying. The importance of this advance is that it will ground, which the army will be forced to spend the next months in high altitude camps.

All observers of the recent battle agree that the German army is being rapidly declining, and that the Germans are surrendering wherever opportunity offers. The importance of this advance is that it will ground, which the army will be forced to spend the next months in high altitude camps.
