SALE OF FRESH VEGETABLES.

Messrs, W. H. Tiller and Son onducted a sale of Nairobi-grown vegetables yesterday in a store behind the Grand Hotel.

The vegetables arrived in splendid condition, and, although there were only three varieties, cabbages, turnips Mrs. Grierson came down from and carrots, they were eagerly bought up at good prices. In fact the sale was so successful that the firm immediately made arrangements for a larger and more complete consignment to be forwarded twice a week.

The first of a regular series of early morning markets will take place on Saturday, April 18th, at 6.20 a.m.

Cattle raids are frequent in Nairobi at present.

When the Wakikuyu are tired of raiding cattle they devote their at-tention to the houses of Europeans. They do not always confine their attention to loot, but at climes enquire for the lady's room. Still we have the assurance of a high Gov-ernment official that the Wakikuyu would never outrage a white woman

THE LOSS OF CATTLE IN NAIROBI.

By the advice of many people, we commenced a Dairy here ten months ago, and during that period we have lost up to date 54 head of stock-by poison the larger number. Not by Our best have been ruthlessly done to death by the natives, no doubt out of revenge, because we bought our cows from the Govern-Those we have bought from time to time from a private source

The still here.

We are the only people who have commenced and Pairty here, buying our stock in numbers from the Government, and our experience, has been a been ment, and our experience, has been three and four hundred pounds sterling, so our efforts to make our work a commercial success have been a total ment, and our burk of the superistions of food and the superistic success have been a total success have been as to s here to perfection, with the usual care and method. But what can one do against poison

Sir Charles Eliot is only too eager to do what he can for the pioneers of this country. An insurance at 10-p, o would be a great boon. Then each person who is witerested in stock, would enable one and all to get some compensation for their losses. When t reaches 54 head of stock, the matter is really very serious. Thirteen Betw out of the above number died a natural death from Red Water. These animals were badly sent to us by Mr. Hand, Sub Courmissioner of Fort Hall but we have paid for theus, and were allowed for Afri three by Sir Charles .-

THE SWAHILI SWASHBUCKLER.

It is really time that some attempt was made to keep the Swahili in order. The affray in Macdonald Terrace, to which we refer elsewhere, is only different to the daily occurrences in Mombasa, by reason of the fact that one of the parties had to be medically treated. Sticks and knives, and every faith of the newly-converted Christ developed symptoms of sheeping sicktreases. It would be practically fatal for an European lady to attempt the feat, if unaccompanied by a gentleman. As we have said we have nothing to expect from the Askaris, who when they are not burgling houses. are sleeping in private gharris. But we have a right to demand legislation to stop the raw natives carrying dangerous weapons

We have no wish to throw the blame upon the High Commissioner. His urgent duties in the Ukamba Province claim all his attention, but the Coast-and the seat of Government-could represent to the Commissioner that a number of Swahilis looking weapons are a source of danger. Possibly the recent burglary in the bungalow of an officer of the Government will give point to our burglaries within the past three

From an economical point of view, too, the drain on the opulation would tend to delay the velopment of the country, and so defeat the purpose for which the railway has been constructed at so large a cost. The Bishop concludes Uganda for three years, and came by adducing the religious argument, down to the Coast about two months and dwelling on the dangers to the ago, was recently found to have
