Another Complaints of Natives on the List.

THEY THE REAL TYPE?

By R. H. M. Standard.

It is somewhat deplorable that one has to be dealing with natives such as these who are going to put before you the claim of the child of the continent of Africa to this country to be an absolute master.

Other such schemes, based on the claims of the natives, have been proposed to the natives, but the natives have not been able to do more than to give out to some people large landed interests.

It is not to people, who, in their honorable titles and positions, are taking land from the natives, but to the natives themselves, that they can, presumably, purchase in the open market.

### NATIVE POSITION.

Another Side to the Archdeacon's Argument.

CATTLE TAX QUESTION.

(By Squatter.)

The native has always had his claims, and always will, but when a man is asked to give up his land, he will not do so, and he will not do so, and he will not do so.

The objection of the Kairiwo District Council to the tax on native stock is a very good one, and it is a very good one, and it is a very good one.
