A copy of this resolution was directed to be sent to the General Manager of the Uganda Railway...

Under the heading of urgent business Mr. A. Brumby brought by the speaker the subject of delay of mails from Aden...

The inquiry being made of Mr. Francis by the Chairman, he stated that the steamship "Uganda" called at Aden, and the ship's captain had requested of the local authorities at Aden...

The following resolution was eventually carried unanimously, proposed by Mr. Francis, and seconded by Mr. Jones:

That the Chamber strongly condemn the action of the post authorities in Aden in refusing to dispatch accounts made from that port to Monsaba...

Mr. Francis addressed the meeting in a brief manner to the question of shipping rebates and primages...

The Chamber resumed members of the Annual General Meeting, held for January 7 and 8, and noted that there be a full attendance.

It is quite agreed that an architect in the opinion of his colleagues is not a person who can be made a member of that faculty...

It is now to hear that your correspondent has no doubt that fully qualified and competent architects can be obtained in Nairobi...

Oh, Mr. Constructional Engineer, can you imagine the wonderful things which the workmen to put a few more bars of iron into a wall...

It is a pity that each shop, faced with little profit by piece and instead with great depreciation while the jumper to be shipped on the market with any player opening. The lower end of the jumper is turned up on the wrong and nearly humped face. There are two or three ways of fastening the neck. First of course the raw edge of the neck is turned in and faced on the wrong side. This is the most common circular collar can be applied as a finishing touch. Another idea is to apply a band of rich velvet or brocade round the neck. Still another alternative would be to stamp a transfer in position, and embroder the pattern in silk or any other desired or in metal threads. The pockets, which are the last thing to be finished and attached with the same kind of trimming as the neck. The jumper calls for 3 1/2 yds. of double width material. The price of the pattern is in the 1/2 which can be applied as a stamp to the paper pattern. Both pattern is clearly marked with the dimensions for cutting out and making up. Orders are accepted in relation with the utmost despatch, but we will not be responsible for returns of poor, and would like to have a copy of the pattern. Orders may be sent to Mr. J. W. MILLIGAN, NAIROBI.

LONDON BUSINESS EYES ON B. K. A.

Two Important New Trading Companies with Total Capital £80,000

MAJOR GROGAN IN CURRENCY CONTROVERSY

LONDON LETTER TO "THE STANDARD" (Continued)

Two new companies have been registered in London this week which would seem to be of interest to business men in East Africa...

The capital of the latter company is £60,000 and the directors are to be elected at a general meeting which will shortly be convened.

These British companies making good use of shipping lines although it is obvious that none could make them self-sufficient unless we see something better than our own conditions in that respect...

As to the requirements of East and West Africa, the latter is more important than the former...

It is to be noted that the East African company is to be formed in the form of a limited liability company...

The advantages appear on behalf of this company provided it is that it would be able to do the work of the British company...

NATIVE REGISTER.

The District Commissioner in Nairobi, Mr. F. G. Hamilton, writes as follows:

As you know, the registration of natives in Nairobi has been proceeding since November 1. It appears to me that the registration of natives in Nairobi has been proceeding since November 1.

The employer must retain the certificate or card containing which the native is bound to carry upon him at all times for production whenever called upon by an authorized person.

Being that the registration of natives is being proceeded in Nairobi, it is suggested that the employer should take the necessary steps to ensure that the native is bound to carry upon him at all times for production.
