To Promote the Development of East Africa.

It gives us pleasure to announce that in cooperation with the rapid developments assured by the present universal interest in East Africa we have planned a complete reorganization of our Land & Estate Agency Department, which will come into effect as from the 1st instant. The furtherance of this policy we have recognized the lead agency under the direction of Messrs. H. F. Ward & Co. and our Land organization in East Africa will in future be controlled by Major V. M. Newland (who is shortly returning from Australia) and Major H. F. Ward assisted by Mr. T. J. O'Brien as General Manager. On his return to England Mr. O. B. Tritton will resume control of our London branch. SPECIAL arrangements have been made for placing East African properties in London, and for investing English funds in different classes of undertakings in this country. OUR future activities will also embrace surveying, land and livestock auctioneering, valuations and reports, estate management and architectural work, and trusteeship. THE Offices of this Branch of our business are now situated in Nairobi House, ground floor.

Tremendous Crop of
Cocoanuts

SOMALIS DISARMED

(From Our Own Correspondent.)

The coconut planters on Lamu Island have just concluded a most successful cropping season, during which crop records for several years have been broken. Crops in some instances being so heavy as to tax storage accommodation to its limits. It does not follow from this that financial results have been equally satisfactory, the industry being handicapped, in no less degree than any other planting industry, by the lack of shipping space for the produce, but this is only a temporary drawback and an early resumption of shipping facilities or, at any rate a resumption in time for the next cropping season, may be anticipated.

In the meantime large quantities of nuts have been sold for export in a single lot; a trans-oceanic cargo having loaded a cargo of over a thousand nuts while several others have taken smaller quantities. The local market, also, has proved steady and interest; while surpluses of nuts are either being held in stock in bulk awaiting an improvement in the copra market, or are being planted out as seed nuts, and a not inconsiderable amount of planting up has been done recently.

There is no virgin land, suitable for coconut plantations, available on this island practically all of which was planted up many generations ago by the Arabs, so that the planting now being done is by way of filling vacancies and has been greatly retarded by the rains, which have been up to the present, have fallen in just the right quantities to prevent any further planting.

Local Changes.

Several changes have occurred among the residents in the province, among which it may be noted that Mr. Fitzgrad has taken over the management, pro tem, of the extensive Belsoni Estate from Mr. Rule. Mr. Fetley, of Fetley and Co. Ltd., is leaving on a business visit to Mombasa and Nairobi. Mr. Maye is assisting in the management of the coconut plantations belonging to Mr. Whitton, who is looking forward to a couple of months' holiday in the Highlands in the near future. In official circles Mr. Skene is now D. C. Lamu. Capt. Luckman has taken over from Mr. Chamier at Kipini, and is assisted by Mr. Duff. Dr. Palmer has been M. O. for the Province. Capt. Cary is going on leave, as is also Mr. Isaac, our P. O.

Lamu has been enjoying a quite untroubled social season during the past few days consequent upon the arrival here of the Tana River Patrol of the K.A.I. under Capt. Reeves. The Patrol has been engaged in pacifying and disarming the Somalis in a remote corner of the Province some 600 miles from civilization.

The task was one that it was advisable should be carried out with an iron hand concealed beneath a velvet glove. That a large quantity of rifles were collected, and cattle fines levied and paid, without the spilling of a single drop of blood reflects great credit upon the diplomatic firmness of all concerned in the operation.

The Operation.

The operation was rendered necessary owing to the aggressiveness of the Somalis who frequently crossed the river, in disobedience of Government orders, and also harassed and despoiled the peaceful Wapokomo. These latter are the culturalists with considerable experience in the raising of rice and maize crops and so such are so much to the Province that they will now be enabled to assess their own crops in peace in those quarters of prime importance to them in view of food shortages and high prices.

In regard to the local food position it is satisfactory to note that

here are most excellent prospects, of a heavy grain crop in all grains with the exception of rice. Heavy rains, coming from the North, fell at the end of March and the beginning of April in nearly all districts in the Province and owing to this, and also in part to the organizing work done by our former D. C., Mr. Beech, the production of maize and mtama will almost certainly be exceedingly heavy in the principal producing centres.

Rice Scandal.

It is in the nature of a reproach that the same cannot be said of that other vitally important crop of rice. That the existence of vast areas unsuitably for rice growing, populated by a people who are taking advantage of both by Government and individuals is typical of the lack of interest taken in the economics of the Protectorate.

That rice is a principal food for a large part of the population is a fact that this food is not produced in the country, that it is imported at great expense from outside. The Tana River Valley is capable of producing all the rice required for local use and still leave a handsome balance over for export; provided certain relatively unexpensive works are carried out, even without such large crops might be obtained.

Investing money upon the natural resources of the country, but the lack of interest and vision, which is such that this year, although the rains have been good, the crop will be very small, and that the natives will repeat that such a reproach upon us.

THE PEOPLE'S "COMBINE"

We beg to tender thanks to an appreciative Public and an equally appreciative body of Farmer-Settlers, for their ready response to our invitation for co-operation. That such co-operation has already, in the comparatively short existence of the "Combine," brought about satisfactory results goes without saying. We have substantial grounds for looking forward to a strong position in the near future, but by continued mutual co-operation, we shall be enabled to do all concerned in the operation of the "Combine."

As we are pleased to term "Monthly Co-operations" or "Sittings" as we are pleased to term "Monthly Customers," may just suggest that not all at times rightly advise the principle involved in the working of the People's "Combine." The People's Market, in conjunction, is intended to meet a long felt want and we have no doubt but that its objective is over now under realisation and that in sphere of usefulness will gradually and steadily expand.

Memberships, we find it necessary to explain, does not mean the investment of money in the purchase of shares, as Co-operative Societies. We sell no shares yet nevertheless, Members, there is a division of the profits. Messrs. Clubs, Hotels, etc. are equally eligible as "Members," if Monthly Customers. Write or call for a copy of Prospectus. Do not fail to watch the "Daily" for further announcements of business developments. THE PEOPLE'S "COMBINE" - 1700, COLONIAL BUILDINGS, QUEEN ROAD, NAIROBI. To Promote the Development of East Africa.

It gives us pleasure to announce that with the rapid developments in the present universal interest in East Africa we have planned a complete reorganization of our Land & Estates Agency Department which will come into effect as from the 1st of July. In furtherance of this policy we have created the land agency business of Messrs. F. Ward & Co., and our Land organization East Africa will in future be controlled by Major V. M. Newland (who is already working from Australia) and Major H. E. Trillock, assisted by Mr. T. J. O'Brien as General Manager. On his return to England Mr. C. H. Tritton will resume control of the London branch.
 SPECIAL arrangements have been made for placing East Africa properties in London, and for investing English money in different classes of undertakings in the country.
 OUR future activities will also consist of surveying, land and livestock auctioning, valuations and reports, company formations, share broking, and estate management and secretarial work, and trusteeship.
 THE Offices of this Branch of our firm are now situate in Nairobi House, 3rd floor.
