Remington Typewriters are the lowest priced, the most improved and the most reliable to be obtained.

It is easy to write any one tabulated form on a standard typewriter if it is equipped with a Decimal Tabulator. but to write any number of forms on the same machine—that's the rub.

The Model 11 Billing Remington, with Key Set Decimal Tabulator is the Universal tabulating and statistical machine. No matter what the requirements of your business—one machine suffices for them all, if that machine is a Model 11 Remington.

And the Model 11 Remington will write your letters too. It's as good for correspondence as it is for billing and form writing. The Set Key sets it instantly for any work you wish to do. Costs but a few rupees more than the Model 10 Standard Remington.
